NEWS RELEASE

MLG Dallas Recap

2013-03-21

Turtle Beach formed a partnership with Major League Gaming (MLG), the world's largest eSports league. Through this partnership a full lineup of MLG licensed gaming headsets and audio gear were created. We just returned from the MLG Winter Championship where the Ear Force XP SEVEN and Ear Force Z SEVEN were being worn by gamers all throughout the Dallas Convention Center. In addition, the TM1, a 6-channel audio mixer gave teams crystal clear communication. The competition drew many gamers with some of the world's best vying for nearly $170,000 in prizes. The hit of the weekend was the fact that the brand new Ear Force Z SEVEN and Ear Force PX22 were available for sale for the first time anywhere.

Turtle Beach was on hand throughout the weekend to answer any and all questions as gamers had the awesome opportunity to see the premium headsets up close. Designed to meet the most demanding needs of competitive gamers, these headsets and equipment had gamers loving what they heard.
