NEWS RELEASE

Jacobs selected as key supply partner for Anglian Water's Major Projects Framework

2026-11-18

10-year framework will support major UK water, wastewater and coastal improvement projects

DALLAS--(BUSINESS WIRE)-- **Jacobs** (NYSE: J) has been selected as a key supply partner for the VolkerFitzpatrick and VolkerStevin joint venture, which has secured a place on Anglian Water's Major Projects Framework for Asset Management Periods 8 and 9 (AMP8/9).

10-year framework will support major UK water, wastewater and coastal improvement projects.

Anglian Water estimates the 10-year framework at $2 billion (£1.5 billion), which will be spread across two contracts. It will provide capacity for major water and wastewater projects across the region, with initial work including coastal water quality improvements.

The framework's initial work is organized into two portfolios. Green-First Urban projects will use sustainable drainage systems (SuDS) and green infrastructure to reduce storm overflow spills, support flood resilience and improve public spaces. Coastal Waters Quality Improvement projects will combine stormwater storage, overflow reductions and wastewater treatment upgrades to improve water quality at bathing and shellfish waters.

The Jacobs, VolkerFitzpatrick and VolkerStevin team will bring together process, civil, mechanical, electrical and control systems, and SuDS capabilities. Expected scope includes early contractor involvement, detailed design,

construction and commissioning. The wider framework is anticipated to support additional major investments toward the end of AMP8 and through AMP9, as program needs develop.

Jacobs Executive Vice President Richard Sanderson said: “We've built a strong track record with VolkerStevin and VolkerFitzpatrick over several years, and that experience is central to how we'll approach this framework. Leading our work from our Peterborough office keeps us close to local priorities and we look forward to bringing the right technical disciplines around each project to improve water quality and strengthen resilience across the region.”

VolkerWessels U.K. Board Director James Hindes said: “Securing a place on this framework is a fantastic opportunity for our team and further strengthens our relationship with Jacobs. By combining our experience and expertise, we look forward to working collaboratively with Anglian Water to deliver important infrastructure that will improve water quality and strengthen resilience for communities across the region.”

Consistently ranked among the top design firms in water and wastewater treatment by **Engineering News-Record**, **Jacobs** works across the full **water** cycle to protect water quality, strengthen resilience and safeguard the environment. Its global experience includes some of the largest water re-use projects, including the award-winning **Donald C. Tillman Advanced Water Purification Facility** in the U.S., Auckland's **Central Interceptor**, New Zealand's largest-ever wastewater project, and the U.K.’s **Sidmouth Amphitheatre Flood Alleviation Scheme**. In the U.K., Jacobs and VolkerStevin also work together as **C2V**, appointed Construction Delivery Partner for United Utilities’ £3 billion, five-year capital program to modernize water and wastewater infrastructure in Northwest England.

At Jacobs, we're challenging today to reinvent tomorrow – delivering outcomes and solutions for the world’s most complex challenges. With approximately $12 billion in annual revenue and a team of approximately 47,000, we provide end-to-end services in advanced manufacturing, cities & places, energy, environmental, life sciences, transportation and water. From advisory and consulting, feasibility, planning, design, program and lifecycle management, we’re creating a more connected and sustainable world. See how at **jacobs.com** and connect with us on **LinkedIn**, **Instagram**, **X** and **Facebook**.

Jacobs employs more than 6,000 people across the U.K., operating from 15 core offices and over 35 additional sites. Working with HM Government, local authorities and the private sector, Jacobs helps shape and deliver the nation’s most critical infrastructure, energy, environmental and community programs — creating social value by improving resilience, driving economic growth and enhancing quality of life.

Certain statements contained in this press release constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements that do not directly relate to any historical or current fact. When used herein, words such as "expects," "anticipates," "believes," "seeks,"

"estimates," "plans," "intends," "future," "will," "would," "could," "can," "may," and similar words are intended to identify forward-looking statements. We base these forward-looking statements on management's current estimates and expectations, as well as currently available competitive, financial and economic data. Forward-looking statements, however, are inherently uncertain. There are a variety of factors that could cause business results to differ materially from our forward-looking statements including, but not limited to, uncertainties as to, the timing of the award of projects and funding and potential changes to the amounts provided for under the Infrastructure Investment and Jobs Act and other legislation and executive orders related to governmental spending, including any directive to federal agencies to reduce federal spending or the size of the federal workforce, and changes in U.S. or foreign tax laws, including the tax legislation enacted in the U.S. in July 2025, statutes, rules, regulations or ordinances, including the impact of, and changes to tariffs and retaliatory tariffs or trade policies, that may adversely impact our future financial positions or results of operations, as well as general economic conditions, including inflation and the actions taken by monetary authorities in response to inflation, changes in interest rates and foreign currency exchange rates, changes in capital markets, the possibility of a recession or economic downturn, and increased uncertainty and risks, including policy risks and potential civil unrest, relating to the outcome of elections across our key markets and elevated geopolitical tension and conflicts, among others. For a description of these and additional factors that may occur that could cause actual results to differ from our forward-looking statements, see our filings with the U.S. Securities and Exchange Commission. The company is not under any duty to update any of the forward-looking statements after the date of this press release to conform to actual results, except as required by applicable law.
