NEWS RELEASE

IGT Achieves Lauded World Lottery Association Security Control Standard 2020 Level 2 Certification

3/30/2022

Company recognized by WLA for industry-leading risk management strategies and processes

LONDON – March 30, 2022 – International Game Technology PLC ("IGT") (NYSE: IGT) announced today that it was recently awarded one of the lottery industry's most prestigious security certifications: World Lottery Association's Security Control Standard: 2020 (WLA-SCS:2020) Level 2.

To earn this designation, IGT had to comply with requirements of ISO/IEC 27001 as well as additional, lottery-focused security requirements imposed by the WLA. IGT was then audited by the WLA-approved assessor, DNV GL – Business Assurance. The certification validates operations at IGT's major lottery-based campuses in North America including Lakeland, Fla., Providence and West Greenwich, R.I. and Moncton, Canada.

"Earning the World Lottery Association's Security Control Standard: 2020 Certification reinforces IGT's leadership in maintaining and delivering secure services and technologies for lotteries around the world, and our commitment to quantifiable security measures that comply with leading, independent and industry-recognized accreditations," said Luke Orchard, IGT SVP, Chief Compliance and Risk Management Officer.

In addition to delivering short, mid, and long-term security controls, the WLA-SCS:2020 certificate will make IGT and its proposals even more attractive in most lottery procurement processes.
