#### **Financial Outlook**

For the third quarter of 2025, Jamf currently expects:

- Total revenue of \$176.0 to \$178.0 million
- Non-GAAP operating income of \$41.5 to \$42.5 million

For the full year 2025 we are increasing our outlook. Jamf currently expects:

- Total revenue of \$701.0 to \$704.0 million
- Non-GAAP operating income of \$153.5 to \$155.5 million
- Year-over-year unlevered free cash flow growth of at least 75%

To assist with modeling, for the third quarter of 2025 and full year 2025, amortization is expected to be approximately \$13.0 million and \$48.0 million, respectively. In addition, for the third quarter of 2025 and full year 2025, stock-based compensation and related payroll taxes are expected to be approximately \$26.3 million and \$105.0 million, respectively.

Jamf is unable to provide a quantitative reconciliation of forward-looking guidance of non-GAAP operating income to GAAP operating income (loss) and unlevered free cash flow to cash flow from operations because certain items are out of Jamf's control or cannot be reasonably predicted. Historically, adjustments to non-GAAP operating income have included, but are not limited to, amortization expense, stock-based compensation expense, acquisition-related expense, acquisition-related earn-out, offering costs, payroll taxes related to stock-based compensation, system transformation costs, restructuring and other cost optimization charges, and extraordinary legal settlements and non-recurring litigation costs. Historically, adjustments to unlevered free cash flow have included, but are not limited to, cash paid for interest, cash paid for acquisition-related expense, cash paid for system transformation costs, cash paid for restructuring and other cost optimization charges, cash paid for contingent consideration, and cash paid for extraordinary legal settlements and non-recurring litigation costs. Accordingly, a reconciliation for forward-looking non-GAAP operating income and unlevered free cash flow are not available without unreasonable effort. These items are uncertain, depend on various factors, and could result in projected GAAP operating income (loss) being materially less than is indicated by currently estimated non-GAAP operating income and cash flow from operations being materially less than is indicated by currently estimated unlevered free cash flow.

These statements are forward-looking and actual results may differ materially. Refer to the Forward-Looking Statements safe harbor below for information on the factors that could cause our actual results to differ materially from these forward-looking statements.

#### **Non-GAAP Financial Measures**

In addition to our results determined in accordance with generally accepted accounting principles in the United States ("GAAP"), we believe the non-GAAP measures of non-GAAP operating expenses, non-GAAP gross profit, non-GAAP gross profit margin, non-GAAP operating income (loss), non-GAAP operating income (loss) margin, non-GAAP income before income taxes, non-GAAP provision for income taxes as it relates to the calculation of non-GAAP net income, non-GAAP net income, adjusted EBITDA, adjusted EBITDA as a percentage of revenue, free cash flow, free cash flow margin, unlevered free cash flow, and unlevered free cash flow margin are useful in evaluating our operating performance. Certain of these non-GAAP measures exclude amortization expense, stockbased compensation expense, foreign currency transaction gain, amortization of debt issuance costs, acquisitionrelated expense, payroll taxes related to stock-based compensation, system transformation costs, restructuring and other cost optimization charges, impairment charges, and extraordinary legal settlements and non-recurring litigation costs. We believe that non-GAAP financial measures, when taken collectively with GAAP financial measures, may be helpful to investors because they provide consistency and comparability with our past financial performance, provide additional understanding of factors and trends affecting our business, and assist in comparisons with other companies, some of which use similar non-GAAP information to supplement their GAAP results. Our non-GAAP financial measures are presented for supplemental informational purposes only, and should not be considered a substitute for financial measures presented in accordance with GAAP. The principal limitation of these non-GAAP financial measures is that they exclude certain expenses that are required by GAAP to be recorded in our financial statements. In addition, they are subject to inherent limitations as they reflect the exercise of judgment by our management about which expenses are excluded or included in determining these non-GAAP financial measures. Further, non-GAAP financial measures are not standardized. It may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. A reconciliation is provided for each non-GAAP financial measure used in this press release to the most directly comparable financial measure stated in accordance with GAAP at the end of this press release. Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measures. In addition, investors are encouraged to review our consolidated financial statements included in our publicly filed reports in their entirety and not rely solely on any single financial measure.

<sup>(1)</sup> Beginning in Q2 2025, ARR is calculated using the current period exchange rate. ARR as of Q3 2024 was adjusted as a result of minor data reconfiguration and validation of accounts and metrics through year-end as part of our comprehensive systems update.

<sup>(2)</sup> Our dollar-based net retention rate for the trailing twelve months ended June 30, 2025 does not include Identity Automation since they have not been a part of our business for the full trailing twelve months.
