Neat Microphones' Multi-Talented Worker Bee II Condenser Microphone Now Available at U.S. Retailers

2021-12-06

The Worker Bee II's Capsule Coupled with Discrete Class A Electronics Make It Perfect for Recording and Streaming Vocals and Instruments – For an Unbeatable \$99.99 MSRP

WHITE PLAINS, N.Y.–(BUSINESS WIRE)–Dec. 6, 2021– **Neat Microphones**, the innovative brand of high-quality digital USB and analog microphones from **Turtle Beach Corporation** (Nasdaq: HEAR), today announced the **Worker Bee® II** – an impressive tool for recording, podcasting, and streaming applications – is now available in the U.S. The Worker Bee II is the heir to Neat's original Worker Bee that was cited by performers and engineers as an impressive mic for capturing richly detailed vocals, as well as the precision of plucked and percussive instruments – all at an exceptional \$99.99 MSRP. The Worker Bee II can be found at participating retailers, including Amazon, American Music Supply, Sweetwater, and zZounds.

“The Worker Bee II is the perfect fit for a variety of recording scenarios thanks to its compact size and ability to

precisely capture vocals and instruments with accuracy, and do so at an unmatched price of just \$99.99,” said Skipper Wise, Founder of Neat Microphones and Vice President at Turtle Beach. “The Worker Bee II faithfully reproduces what it hears, and we are very proud to have it replace our original tireless workhorse and remain such

a high value microphone.”

The Worker Bee II's capsule captures every nuance and transient it hears, giving an open and natural sonic signature. It features solid-state cardioid condenser microphone technology with an internally shockmounted, medium-sized 25mm capsule and discrete Class A electronics that can handle high sound pressure levels with a wide frequency and dynamic range. It sounds great on guitar amps, brass, live recordings, and drums, while retaining a level of detail that brings out the nuances in vocals and spoken voice.

Plus, the Worker Bee II's tight pickup pattern and compact size is perfect for positioning in small spaces and recording more of the sounds you want and less of the ones you don't want, in treated and untreated rooms. With its outstanding versatility and incredible sound quality, let a Worker Bee II loose in your home or studio and you'll quickly be rewarded with the hardest working mic in the industry.

Cautionary Note on Forward-Looking Statements

This press release includes forward-looking information and statements within the meaning of the federal securities laws. Except for historical information contained in this release, statements in this release may constitute forward-looking statements regarding assumptions, projections, expectations, targets, intentions or beliefs about future events. Statements containing the words “may”, “could”, “would”, “should”, “believe”, “expect”, “anticipate”, “plan”, “estimate”, “target”, “goal”, “project”, “intend” and similar expressions, or the negatives thereof, constitute forward-looking statements. Forward-looking statements involve known and unknown risks and uncertainties, which could cause actual results to differ materially from those contained in any forward-looking statement.

Forward-looking statements are based on management's current belief and expectations, as well as assumptions made by, and information currently available to, management.

While the Company believes that its expectations are based upon reasonable assumptions, there can be no assurances that its goals and strategy will be realized. Numerous factors, including risks and uncertainties, may affect actual results and may cause results to differ materially from those expressed in forward-looking statements made by the Company or on its behalf. Some of these factors include, but are not limited to, risks related to, the substantial uncertainties inherent in the acceptance of existing and future products, the difficulty of commercializing and protecting new technology, the impact of competitive products and pricing, general business and economic conditions, risks associated with the expansion of our business including the integration of any businesses we acquire and the integration of such businesses within our internal control over financial reporting and operations, our indebtedness, the Company's liquidity, and other factors discussed in our public filings, including the risk factors included in the Company's most recent Annual Report on Form 10-K, Quarterly Report on Form 10-Q, and the Company's other periodic reports. Except as required by applicable law, including the securities laws of the United States and the rules and regulations of the Securities and Exchange Commission, the Company is under no obligation to publicly update or revise any forward-looking statement after the date of this release whether as a result of new information, future developments or otherwise.
