

ROCCAT'S Highly Customizable Kone XP 3D RGB PC Gaming Mouse Among Select Products Supporting NVIDIA Reflex Analyzer

2022-03-15

ROCCAT's Kone XP PC Gaming Mouse Supports NVIDIA Reflex Analyzer for Improved Responsiveness, Enhanced Aiming Precision, and More Accurate Location of Opponents – Available for Pre-Order Now

WHITE PLAINS, N.Y.–(BUSINESS WIRE)–Mar. 15, 2022– **ROCCAT**, Turtle Beach Corporation's (NASDAQ: HEAR) award-winning PC gaming peripherals brand, announced its eagerly anticipated **Kone XP** PC gaming mouse is among a select list of products supporting the **NVIDIA Reflex** Analyzer. ROCCAT's first-ever product, the original Kone launched in 2007 and became a best-selling PC gaming mouse thanks to its superior ergonomics. Kone XP is ROCCAT's latest mouse featuring the brand's iconic Kone shape. It debuts groundbreaking 3D RGB lighting, while top performance features like its Owl-Eye 19K DPI optical sensor and ridiculously fast Titan Optical Switches set the Kone XP among an exclusive collection of Reflex-compatible products.

NVIDIA Reflex is a revolutionary suite of technologies that optimize and measure system latency for the ultimate competitive advantage, so PC gamers can start every match with the confidence that their system is operating at the lowest possible latency. Kone XP is a multipurpose mouse for gamers who play a variety of PC titles across different genres. 15 buttons and 29 assignable functions make Kone XP one of the most customizable PC gaming mice available. Don't lag...pre-order Kone XP now at www.roccat.com and participating retailers worldwide for an \$89.99 MSRP. Kone XP launches globally Tuesday, March 29, 2022.

"Kone XP is the next step in our 15-year evolution of ROCCAT's famed Kone design, as we continue expanding our lineup of mice that meet the stringent needs of serious PC gamers," said René Korte, ROCCAT Founder and General Manager for PC Peripherals at Turtle Beach. "We are pleased to see Kone XP join our Kone Pro, Kone Pro Dr

Disrespect Edition, Kone Pro Air, and Burst Pro mice on this esteemed list of performance products that support NVIDIA Reflex technology.”

“It is a very exciting time at ROCCAT. Not only are we just a couple weeks away from launching Kone XP – the successor to our best-selling Kone AIMO Remastered and the latest iteration of our original mouse design that started it all, but we have more new products on the horizon. ROCCAT has come a long way since the original Kone and I’m looking forward to our fans and PC gamers experiencing the comfort and all-around utility of the new Kone XP, as well as everything else we have lined up for the year.”

NVIDIA G-SYNC displays with Reflex have the world’s first and only system latency analyzer that detects clicks coming from gaming mice and measures the time for the resulting pixels (weapon muzzle flash) to change on screen. When using ROCCAT’s Kone XP mice in conjunction with an NVIDIA G-SYNC display with Reflex, gamers can measure and improve full peripheral and end-to-end system latency.

Fans of the Kone AIMO Remastered, along with PC gamers who play a variety of games across different genres, will love the KONE XP’s multi-button design combined with the refined ergonomics, reduced weight, and overall comfort of ROCCAT’s iconic Kone shape. ROCCAT is also once again redefining RGB lighting with the KONE XP’s impressive 22 LED lights and transparent shell and AIMO lighting, and through the revolutionary Krystal 4D Wheel that diffuses the RGB lighting through its smoky transparent design. The KONE XP has more buttons than any other mouse in this price range. It features 15 buttons, and thanks to ROCCAT’s Easy-Shift[+]™ technology there are 29 possible button functions – ideal for strategy games and MMOs. ROCCAT’s Titan Optical Switch is faster than any mechanical switch and has twice the durability, clocking-in at a blistering 0.2ms actuation speed for up to 70 million clicks while offering adjustable debounce timing which is key for drag-clicking. With the KONE XP PC gamers can expect nothing but crisp, responsive execution with zero mis-clicks.

About Turtle Beach Corporation

Turtle Beach Corporation (**corp.turtlebeach.com**) is one of the world’s leading gaming accessory providers. The Company’s namesake Turtle Beach brand (**www.turtlebeach.com**) is known for designing high-quality, comfort-driven headsets for all gamers. Innovation, first-to-market features, a broad range of products for every type of gamer, and top-rated customer support have made Turtle Beach a fan-favorite brand and the market leader in

console gaming audio for over a decade. In 2021, Turtle Beach expanded the best-selling brand beyond headsets and successfully launched the first of its groundbreaking game controllers and gaming simulation accessories. Turtle Beach's ROCCAT brand (www.roccat.com) combines detail-loving German innovation with a genuine passion for designing the best PC gaming products, including award-winning keyboards, mice, headsets, mousepads, and other PC accessories. Turtle Beach's Neat Microphones brand (www.neatmic.com) creates high-quality USB and analog microphones for gamers, streamers, professionals, and students that embrace cutting-edge technology and design. Turtle Beach's shares are traded on the Nasdaq Exchange under the symbol: **HEAR**.

Cautionary Note on Forward-Looking Statements

This press release includes forward-looking information and statements within the meaning of the federal securities laws. Except for historical information contained in this release, statements in this release may constitute forward-looking statements regarding assumptions, projections, expectations, targets, intentions, or beliefs about future events. Statements containing the words "may", "could", "would", "should", "believe", "expect", "anticipate", "plan", "estimate", "target", "goal", "project", "intend" and similar expressions, or the negatives thereof, constitute forward-looking statements. Forward-looking statements involve known and unknown risks and uncertainties, which could cause actual results to differ materially from those contained in any forward-looking statement. Forward-looking statements are based on management's current belief and expectations, as well as assumptions made by, and information currently available to, management.

While the Company believes that its expectations are based upon reasonable assumptions, there can be no assurances that its goals and strategy will be realized. Numerous factors, including risks and uncertainties, may affect actual results and may cause results to differ materially from those expressed in forward-looking statements made by the Company or on its behalf. Some of these factors include, but are not limited to, risks related to logistic and supply chain challenges, risks related to capital markets activities, the substantial uncertainties inherent in the acceptance of existing and future products, the difficulty of commercializing and protecting new technology, the impact of competitive products and pricing, the impact of the coronavirus (COVID-19) pandemic on consumer demands and manufacturing capabilities; delays or disruptions in the supply of components for our products; risks relating to, and uncertainty caused by or resulting from, the COVID-19 pandemic, general business and economic conditions, risks associated with the expansion of our business including acquisitions, the integration of any businesses we acquire and the integration of such businesses within our internal control over financial reporting and operations, our indebtedness, the Company's liquidity, and other factors discussed in our public filings, including the risk factors included in the Company's most recent Annual Report on Form 10-K, Quarterly Report on Form 10-Q, and the Company's other periodic reports. Except as required by applicable law, including the securities laws of the United States and the rules and regulations of the Securities and Exchange Commission, the Company is under no obligation to publicly update or revise any forward-looking statement after the date of this release

whether as a result of new information, future developments or otherwise.
