The Recon Camo Blends a Vintage Camouflage Design to Match the Pop Culture

Resurgence of WWII Films and Games with Large 50mm Drivers, a High-Sensitivity Mic, and Durable Comfort to Deliver the Immersive Game Audio Needed to Secure Multiplayer Victory

San Diego, CA – August 22, 2017 – Leading gaming headset and audio accessory brand **Turtle Beach Corporation** (NASDAQ: **HEAR**) today unveiled the new Recon Camo multiplatform gaming headset for Xbox One, PlayStation®4 and PC. Additionally, the **Recon Camo's** standard 3.5mm connection makes it great for using with PC, Mac® and mobile/tablet devices. With films like Dunkirk and the upcoming Call of Duty®: World War II video game on the horizon, clearly a collective fascination for World War II has re-emerged, and the Recon Camo deftly incorporates the style of the era with its evocative camouflage and military green design. Not only does the Recon Camo look great, but it sounds amazing and produces richer, louder and more precise game audio thanks to its large, high-quality 50mm speakers with over 50% more surface area compared to the 40mm drivers found in other similarly priced headsets. The Recon Camo is built on one of Turtle Beach's fan-favorite designs with a comfortable yet durable frame, and features Turtle Beach's renowned high-sensitivity mic to deliver the essential crystal clear chat needed to secure victory on the multiplayer battlefield. The Recon Camo will be available this fall at participating retailers for a MSRP of \$69.95.

"It's clear gamers are excited to return to the WWII theatres of war in Europe and the Pacific, so we set out to deliver a high-quality gaming headset with the look and feel to match that passion," said Juergen Stark, CEO, Turtle Beach. "The Recon Camo headset is a great looking headset with a style that matches their favorite game, with amazing

game and chat audio that clearly helps to secure victories, and ultimate comfort for those long gaming sessions.”
