TURTLE BEACH CONFIRMS LARGEST LINEUP OF BATTLE ROYALE READY GAMING HEADSETS FOR FORTNITE ON NINTENDO SWITCH

2018-06-18

San Diego, CA – June 18, 2018 – Leading gaming headset and audio accessory brand **Turtle Beach** (NASDAQ: HEAR), confirmed this morning that it has the largest lineup of gaming headsets available to help gamers get their Victory Royale in Fortnite on Nintendo Switch™. Last week at E3 2018, Nintendo and Epic Games launched Fortnite on Nintendo Switch, expanding the hugely popular Battle Royale game to all major gaming consoles, as well on PC, Mac and mobile devices. Epic Games also confirmed Fortnite has its own in-game voice chat functionality on Switch, which removes the need for gamers to use the mobile app-based chat solution. Turtle Beach, which already has the largest assortment of high-quality gaming headsets, has confirmed it now offers 25 headsets in its current product lineup (not including prior legacy models) that are fully compatible with Fortnite's in-game chat system on Switch.

For a complete list of Turtle Beach's current gaming headsets that work great with Fortnite on Nintendo Switch, visit www.turtlebeach.com/pages/nintendo-switch.

"Epic Games bringing their own in-game chat system to the Switch with Fortnite is a brilliant move, as gamers can now enjoy the best audio experience, which relies on the best gaming headsets for success," said Juergen Stark, CEO, Turtle Beach. "Epic's bold move seemingly opens the doors for developers of future online multiplayer titles coming to Nintendo Switch to follow their lead and implement in-game chat systems, which is great news overall for Nintendo, for Turtle Beach, and most importantly...for gamers."

Since Fortnite was made available on Nintendo Switch, the game was downloaded over 2 million times in the first 24-hours, according to Nintendo. The timing for this couldn't be better, as Turtle Beach just revealed two great new products at E3 – the **Recon 200** and **Stealth 300** – both optimally built for Fortnite on Nintendo Switch as well as other Battle Royale games, offering powerful amplified game audio, crystal-clear chat, and a wealth of features.

With the **Recon 200**, gamers get a sleek-looking new headset in black or white that delivers powerful amplified audio with enhanced bass. The **Recon 200** delivers high-quality game sound and crystal-clear chat through 40mm speakers and a high-sensitivity flip-to-mute mic. Additionally, the **Recon 200's** metal-reinforced headband and synthetic leather-wrapped memory foam ear cushions provide added durability and unmatched comfort. The **Recon 200** has a rechargeable battery that delivers over 12-hours of gaming per charge and features convenient onboard controls for Master Volume and Variable Mic Monitoring. The **Recon 200** headsets will be available at retail this fall for a MSRP of \$59.95.

Incorporating many key features from this year's top-selling headset in North America¹, the **Stealth 600**, the all-new **Stealth 300** headsets deliver the quality and features gamers want, including powerful amplified audio delivered through large 50mm speakers and crystal-clear chat via a high-sensitivity flip-to-mute mic. The **Stealth 300** headsets also feature a metal-reinforced headband, plus Turtle Beach's unique ProSpecs™ glasses friendly design with memory foam ear cushions, variable mic monitoring, EQ audio presets including bass boost, and a 40-hour rechargeable battery. The **Stealth 300** headsets are planned to launch at participating retailers in July 2018 for a MSRP of \$79.95.
