TURTLE BEACH DOUBLES-DOWN ON ITS ALL-NEW ELITE PRO LINE OF GAMING AUDIO GEAR AND COMMITMENT TO ESPORTS – PARTNERS WITH PROFESSIONAL ESPORTS ORGANIZATION FAZE CLAN

2016-06-07

Visit Turtle Beach's Booth at MLG Anaheim to Experience the Elite Pro First-Hand, Win Prizes

and Meet Members of eSports Powerhouses FaZe Clan and OpTic Gaming

San Diego, CA – June 7, 2016 – In their second major eSports partnership announcement of the year, **Turtle Beach Corporation** (NASDAQ: **HEAR**) has doubled-down on its all-new **Elite Pro** line of tournament-grade gaming audio gear and the Company's commitment to competitive gamers by partnering with another top professional eSports organization – **FaZe Clan**. Hot on the heels of last month's **Elite Pro and OpTic Gaming partnership announcement**, FaZe Clan is one of the world's largest and most well-known eSports and gaming entertainment brands and is now using Turtle Beach's Elite Pro Tournament Gaming Headset, Elite Pro Tactical Audio Controller (T.A.C.) and other Elite Pro accessories as the team's official audio gear of choice. Turtle Beach's entire Elite Pro lineup is designed from the ground-up to meet the demands of today's professional and aspiring pro teams and players, establishing a new standard for eSports gaming audio performance and comfort.

Additionally, FaZe Clan, as well as OpTic Gaming will be competing in this weekend's Call of Duty® MLG Anaheim Open, and fans attending the tournament who visit the Turtle Beach booth will be able meet members of the

teams, as well as have the opportunity to experience the Elite PRO first-hand, win prizes and more. Held at the Anaheim Convention Center on June 10-12, 2016, the tournament will feature over 100 amateur and pro teams competing head-to-head in Call of Duty®: Black Ops III on PlayStation®4 for a prize pool of \$100,000. For more information and for tickets to see FaZe Clan and OpTic Gaming compete, visit the official **MLG Anaheim website**.

“This new partnership with FaZe, in addition to OpTic, is an amazing testament to how great a headset the Elite PRO is,” said Juergen Stark, CEO, Turtle Beach Corporation. “The Elite PRO is the culmination of our position as true innovators in the market, and has allowed us to deliver a powerful one-two punch by teaming-up with not one, but two of the biggest and best eSports teams with FaZe and OpTic. The Elite PRO launches this weekend on June 12th, so the timing of FaZe and OpTic’s participation at MLG Anaheim aligns perfectly, and we wish both teams the best of luck.”

FaZe Clan CEO Thomas “Temperrr” Oliveira added, “We’ve been exploring options for a gaming audio partner for a while now, and Turtle Beach’s Elite PRO simply blew us away when they brought it out to show both our Call of Duty and Counter Strike: Global Offensive teams. The headset itself sounds great and is super comfortable to wear, and when combined with the Elite PRO T.A.C. and Tournament Noise-Cancelling Microphone it’s the best professional gaming audio setup around, and one that every top gamer should have.”

Turtle Beach’s all-new Elite PRO line defines the future of eSports gaming audio equipment. The Elite PRO Headset’s journey began in 2013. Seeing the consistent growth and popularity of eSports, Turtle Beach launched a comprehensive scientific research program to deeply examine the needs of professional and hardcore gamers as it pertained to game audio, communicating with teammates, and overall comfort. The result is the all-new Elite PRO Tournament Gaming Headset – a ground-up redesign of the competitive gaming headset that brings to market multiple first-and-only innovations in the core mechanics of headset design, weight and fit. Not only does the Elite PRO Headset provide Turtle Beach’s best-in-class game audio and chat performance, but also delivers groundbreaking comfort-driven technologies, including the ComforTec™ Fit System with multiple adjustment points for a truly personalized headset fit and feel, AeroFit™ Ear Cushions that stay cool in the heat of battle, and Turtle Beach’s all-new patented ProSpecs™ Glasses Relief System that finally makes wearing a gaming headset comfortable for players who wear glasses.

Additionally, the Elite Pro T.A.C. is the most powerful audio controller ever designed for eSports, combining cutting-edge audio technology like DTS™ Headphone:X 7.1 Surround Sound and Superhuman Hearing™ with incredibly powerful chat and microphone tuning tools, giving eSports athletes everything they need to win. The Elite Pro Headset, T.A.C. and accessories are planned to launch globally on June 12, 2016, and are currently available for pre-order at participating retail outlets worldwide.
