

NEWS RELEASE

Turtle Beach Launches New Stealth 600 Gen 2 MAX Teal & Pink Colorways as the Leading Gaming Accessory Maker's First Carbon Neutral Products

2023-03-07

WHITE PLAINS, N.Y.-(BUSINESS WIRE)-Mar. 7, 2023- Leading gaming accessories maker **Turtle Beach Corporation** (NASDAQ: HEAR) today announced two new colorways, Teal and Pink, are now available for its Designed for Xbox Stealth 600 Gen 2 MAX wireless gaming headset. The new Stealth 600 Gen 2 MAX Teal and Pink colorways are also Turtle Beach's first certified CarbonNeutral® products, with emissions reduced and offset in line with **The CarbonNeutral Protocol**, marking an important milestone in the Company's ongoing sustainability efforts. The Stealth 600 Gen 2 MAX upped the series' already impressive offering with a massive 48+ hour battery life and multiplatform connectivity with more gaming systems, in addition to the powerful 3D spatial surround sound*, crystal-clear mic performance, and unmatched comfort that's made the Stealth 600 series headsets top-selling products since their debut. The Stealth 600 Gen 2 MAX Teal and Pink join the Black, Midnight Red, and Arctic Camo colorways for the same \$129.99 MSRP, and all options are available now at www.turtlebeach.com and participating retailers worldwide.

Since their August 2020 debut, Turtle Beach's Stealth 600 Gen 2 has been the #1 best-selling

headset series. Additionally, popular gaming publication **MP1st** reviewed the Designed for Xbox Stealth 600 Gen 2 MAX and awarded it their Editor's Choice designation, saying, "They're excellent, and maybe in fact amongst the best headsets I have ever used on consoles."

“Stealth 600 Gen 2 MAX Teal and Pink not only give gamers more color options – which we know they love, but also the peace of mind knowing one of their most used gaming accessories is carbon neutral,” said Juergen Stark, Chairman and CEO, Turtle Beach Corporation. “Stealth 600 Gen 2 MAX Teal and Pink are Turtle Beach’s first CarbonNeutral® products, and their launch is another important and significant step forward in our sustainability efforts.”

Stark continued, “Last year we transitioned most of our gaming headsets to use sustainably sourced paper trays and packaging materials, and eliminated most plastics from the packaging, including up to 90% reduction in plastic in the packaging for some models. We also reduced overall packaging size on key models, which further reduces paper use and lowers carbon output during transportation. In addition to incorporating sustainability into new and future products, Turtle Beach is also proud to be part of Climate Impact Partners’ Million Mangroves program, where we contribute to helping develop new mangrove forests which help combat carbon.”

Mangroves are a high-impact, carbon-dense, natural climate solution that also provide important protection in coastal areas, enable fish and water species to thrive, and create valuable timber products which are resistant to rot and insects. Over 35% of Mangroves, named the “wonder tree” due to their ability to store four times more carbon than a rainforest, have already been deforested. Climate Impact Partners, specialist in carbon market solutions for climate action, created the **Million Mangroves** program to showcase companies’ commitment to climate action today and deliver immediate results by financing one of the highest impact climate and blue carbon solutions available.

Turtle Beach’s Designed for Xbox Stealth 600 Gen 2 MAX wireless multiplatform gaming headset delivers incredible battery life and high-quality game audio. A monster 48+ hour battery life keeps the headset going for days while a low-latency, lossless connection to your game system is handled by Turtle Beach’s proprietary lag-free 2.4GHz wireless USB transmitter. With the simple flip of a switch, players can select their favorite game system and experience immersive, 3D spatial surround sound* through large and powerful 50mm speakers, and crystal-clear chat with the Gen 2’s flip-to-mute microphone. Soft, ProSpecs™ glasses-friendly ear cushions offer plush comfort, and easy access controls let players adjust their settings and activate features like Superhuman Hearing™ for a proven competitive advantage.

Cautionary Note on Forward-Looking Statements

This press release includes forward-looking information and statements within the meaning of the federal securities laws. Except for historical information contained in this release, statements in this release may constitute forward-looking statements regarding assumptions, projections, expectations, targets, intentions, or beliefs about future events. Statements containing the words "may", "could", "would", "should", "believe", "expect", "anticipate", "plan", "estimate", "target", "goal", "project", "intend" and similar expressions, or the negatives thereof, constitute forward-looking statements. Forward-looking statements involve known and unknown risks and uncertainties, which could cause actual results to differ materially from those contained in any forward-looking statement. Forward-looking statements are based on management's current beliefs and expectations, as well as assumptions made by, and information currently available to, management.

While the Company believes that its expectations are based upon reasonable assumptions, there can be no assurances that its goals and strategy will be realized. Numerous factors, including risks and uncertainties, may affect actual results and may cause results to differ materially from those expressed in forward-looking statements made by the Company or on its behalf. Some of these factors include, but are not limited to, risks related to logistic and supply chain challenges, the substantial uncertainties inherent in the acceptance of existing and future products, the difficulty of commercializing and protecting new technology, the impact of competitive products and pricing, general business and economic conditions, risks associated with the expansion of our business including the integration of any businesses we acquire and the integration of such businesses within our internal control over financial reporting and operations, our indebtedness, liquidity, and other factors discussed in our public filings, including the risk factors included in the Company's most recent Annual Report on Form 10-K, Quarterly Report on Form 10-Q, and the Company's other periodic reports filed with the Securities and Exchange Commission. Except as required by applicable law, including the securities laws of the United States and the rules and regulations of the Securities and Exchange Commission, the Company is under no obligation to publicly update or revise any forward-looking statement after the date of this release whether as a result of new information, future developments or

otherwise.
