Pre-Orders for Turtle Beach's Eagerly Anticipated VelocityOne Flight Simulation Control System Sell Out in Minutes – Additional Inventory Inbound

WHITE PLAINS, N.Y.–(BUSINESS WIRE)–Nov. 3, 2021– Leading gaming accessory maker **Turtle Beach Corporation** (Nasdaq: HEAR) announced its Designed for Xbox **VelocityOne™ Flight** simulation control system has become one of the brand's most pre-ordered products from www.turtlebeach.com. VelocityOne Flight had over 21,000 fans signed-up and awaiting word on when the new flight simulation controller would be available to reserve, and after going live for pre-order earlier today, the highly sought-after controller sold out quickly. Turtle Beach's U.S., UK, and German supply sold out in under 15 minutes, with the remaining global units snatched up in under an hour.

"VelocityOne Flight pre-orders from our site selling out globally is a wonderful start to our entry into the rapidly growing flight simulation hardware market," said Juergen Stark, Chairman and CEO, Turtle Beach Corporation. "If you were not able to reserve a unit via pre-order, there will be additional quantities available in waves following VelocityOne Flight's November 14 launch."

Announced during E3 2021, VelocityOne Flight garnered a "**Best of Show**" from **Android Authority** and boldly marks Turtle Beach's foray into the gaming simulation hardware market. VelocityOne Flight is the complete flight control system, developed in collaboration with aeronautical engineers and pilots, and by a dedicated Turtle Beach team with over two decades of experience creating many premier flight and racing simulation controllers.

Gamers looking for the ultimate flight simulator experience on Xbox Series X|S and Windows 10 PCs need look no further than the groundbreaking **Turtle Beach VelocityOne Flight** simulation control system. **VelocityOne Flight** offers intuitive and realistic controls and equips users across all experience levels with an all-inclusive system to experience the thrill of flight. A true-to-life 180° yoke handle with built-in rudder controls at your fingertips provide precise control of any aircraft. The included modular throttle quadrant with integrated trim wheel, both lever and vernier controls, and swappable lever handles offers at-home aviators enhanced customization and a realistic flight experience for both light and heavy aircraft.
