

NEWS RELEASE

SIMPAS, SIMPAS applied Solutions Highlighted in Farm Journal Conservation Report

2020-12-16

SIMPAS™ and SIMPAS applied Solutions™ (SaS) are featured in a just-released special report of Farm Journal magazine titled "Conservation for Tomorrow."

Developed by AMVAC® Chemical Corporation and **available from Trimble® dealers** for corn planting in 2021, SIMPAS and SaS make it easy for farmers to prescriptively apply multiple insecticides, fungicides, nematicides, and micronutrients in furrow in one simple pass and only to parts of the field that need them.

Highlighted in the Farm Journal report is the fit SIMPAS and SaS have with precision agriculture and long-term sustainability as well as short-term profitability for farmers. Covered also is the wide range of conservation strategies currently in use by U.S. farmers. The report promotes the efforts of **Trust in Food**, a Farm Journal Initiative, and America's Conservation Ag Movement, of which SIMPAS is its **first Advocate Level Partner**.
