

TIC Solutions to Host and Webcast 2026 Investor Day on May 19, 2026

2026-05-06

HOLLYWOOD, Fla.--(BUSINESS WIRE)-- TIC Solutions, Inc. (NYSE: TIC) (the “Company” or “TIC Solutions”), a leading provider of tech-enabled Testing, Inspection, Certification, and Compliance (TICC), engineering, and geospatial services, today announced it will host and webcast its inaugural 2026 Investor Day beginning at 9:00 a.m. ET on Tuesday, May 19, 2026. The event is expected to conclude at approximately 12:00 p.m. ET.

The event will include presentations by Ben Heraud, Chief Executive Officer; Kristin Schultes, Chief Financial Officer; Robert A.E. Franklin, Executive Chairman; and other members of TIC Solutions’ senior leadership team. Presentations will highlight the Company’s positioning as a premier integrated asset lifecycle solutions provider, provide insight into its operating segments, and discuss its long-term financial outlook. The event will conclude with a question-and-answer session.

The webcast of the presentations, as well as copies of the accompanying slides, will be available in the “Events & Presentations” section of the Investor Relations page of TIC Solutions’ website at www.ticsolutions.com. Users may register for the live webcast through the event page available there.

A replay of the webcast will be available following the event on the Investor Relations page of TIC Solutions’ website. For additional information regarding TIC Solutions Investor Day, please email TIC@investorrelations.com.

About TIC Solutions:

TIC Solutions is a leading provider of tech-enabled Testing, Inspection, Certification, and Compliance (TICC), engineering, and geospatial services. The Company delivers mission-critical services that support the safety, reliability, and efficiency of industrial assets, buildings, and public infrastructure. Operating across North America

and select international markets, TIC Solutions serves private- and public-sector clients across industrial, infrastructure, utilities, construction, commercial real estate end markets, and federal, state, and local agencies, with exposure to data centers and other high-growth industries.

TIC Solutions supports clients across the full asset lifecycle, from planning and design to commissioning and compliance, through three reportable segments: Inspection and Mitigation; Consulting Engineering; and Geospatial, providing asset integrity services, engineering and advisory solutions, and data-driven asset intelligence capabilities. The Company's services are frequently compliance-driven and typically recurring in nature, delivered by more than 12,000 professionals across over 250 locations.
