Modine to Present Latest Geothermal HVAC Solution at 2017 AHR Expo

Cutting-edge HVAC manufacturer will present their latest in HVAC solutions, including their innovative new vertical water-to-air heat pump, at the upcoming AHR Expo in Las Vegas on Jan. 30 - Feb. 1

RACINE, Wis., Jan. 26, 2017 /PRNewswire/ -- [Modine Manufacturing Company](#) (NYSE: MOD), a leader in technology in the HVAC industry, will be showcasing their latest HVAC solutions at booth No. C3815 at the [2017 AHR Expo](#), Jan. 30 - Feb. 1, 2017, at the Las Vegas Convention Center.

"The AHR Expo is the premier expo for showcasing the latest in HVAC solutions," said Kimberly Raduenz, marketing communications manager for Modine. "We'll be presenting a variety of our offerings, from our latest infrared heater line, to our groundbreaking school and ventilation products. Also on display will be our new GeoSync geothermal unit. This vertical water-to-air heat pump features our industry exclusive CF Microchannel Air Coil for increased 2-stage efficiency. The GeoSync also features an innovative, patent pending overall unit design with a vertical control panel. This design makes installation easier and faster by moving the wiring off the ground to where it is visible and accessible while standing."

Attendees will get an exclusive look at the GeoSync vertical water-to-air heat pump, which will be available for shipment in March 2017.

Modine's director of North American sales, Richard Boothman, will also be presenting Modine's ultimate classroom noise reduction solution, the ClassMate® with STUDY Package, at the AHR Expo New Product & Technology Theater, in Theater A - N253, Tuesday, Jan. 31 at 5:45 p.m. PST.

"We conducted extensive sound attenuation research to provide a product that is engineered to exceed the highest industry standards for classroom noise reduction," said Boothman. "We'll be discussing that research, and how it helped us create a classroom solution that offers first-in-class noise-reduction features which are designed, among other things, to meet the background noise pre-requisite for LEED-designed facilities."
