Modine Innovation Tour Travels to Loxley, Ala.

Cutting-edge HVAC manufacturer to host professional development seminars and provide exclusive access to the latest HVAC technology in Loxley, about 20 miles east of Mobile, March 7

LOXLEY, Ala., Feb. 28, 2017 /PRNewswire/ -- [Modine Manufacturing Company](#) (NYSE: MOD), a technology leader in the HVAC industry, will be in Loxley, Alabama, about 20 miles east of Mobile, on Tuesday, March 7 from 9 a.m. to 2 p.m., at Mingledorff's, for their latest stop on the [2017 Innovation Tour](#).

Traveling across North America, Modine's 2017 Innovation Tour will feature professional development seminars and showcase the latest products in the HVAC industry such as the new high efficiency residential geothermal unit, commercial rooftop HVAC units, and some of the quietest classroom HVAC products on the market. Also featured are Modine's unit heater and infrared heater lines.

"Loxley is almost directly in between Mobile and Pensacola," said Kimberly Raduenz, marketing communications manager for Modine. "That means there's a good opportunity for specifying engineers and contractors from Mobile Bay to Pensacola Beach to stop in and learn about the latest HVAC solutions for their customers."

In addition to the product showcase, continuing education will be provided for CEU credits with the following courses:

- | Sound Principles of HVAC Equipment
- | Indoor Air Quality and Design Strategies to Resolve Economizer Code Conflicts
- | Venting of Unit Heaters

"We've added new classes to this year's tour, and specifically, we're excited to roll out our class on indoor air quality and design strategies," said Raduenz. "We want to help contractors and specifying engineers better understand IAQ codes and offer strategies for code compliance."

Mingledorff's is located at 30020 County Road 49, Loxley, AL 36551. To see the complete agenda and register for the Loxley, Alabama event March 7, visit <https://modineinnovationtour.com/tour-detail/al/mobile>.
