Albuquerque, N.M. Next Stop for Modine Innovation Tour

Cutting-edge HVAC manufacturer to host hands-on event with the latest HVAC technology and professional development seminars in Albuquerque Feb. 16

ALBUQUERQUE, N.M., Feb. 13, 2017 /PRNewswire/ -- [Modine Manufacturing Company](#) (NYSE: MOD), a technology leader in the HVAC industry, will be in Albuquerque, New Mexico on Thursday, Feb. 16 from 8:30 a.m. to 3:30 p.m., at Work Force Training Center, for their latest stop on the [2017 Innovation Tour](#).

Traveling across North America, Modine's 2017 Innovation Tour will feature professional development seminars and showcase the latest products in the HVAC industry such as the new high efficiency residential geothermal unit, commercial rooftop HVAC units, and some of the quietest classroom HVAC products on the market. Also featured are Modine's unit heater and infrared heater lines.

"Our goal is to offer as many specifying engineers and contractors in the Albuquerque area a chance to see what the future of HVAC technology holds," said Kimberly Raduenz, marketing communications manager for Modine. "And more importantly, how they can apply it to better serve their customers."

In addition to the product showcase, continuing education will be provided for CEU and NATE credits with the following courses:

- | Venting of Unit Heaters (CEU/NATE)
- | Dedicated Outdoor Air System Basics (CEU)
- | Basics of Make-up Air (CEU)

"When engineers and contractors can see and touch the equipment in person, that's when that knowledge translates into better service for their customers," said Raduenz. "That's really the main focus of the innovation tour. It's important that we not only showcase the latest in HVAC technology but also give attendees hands-on experience with our products."

Work Force Training Center is located at 5600 Eagle Rock Avenue Northeast, Albuquerque, NM 87113. To see the complete agenda and register for the Albuquerque, New Mexico event Feb. 16, visit <https://modineinnovationtour.com/tour-detail/nm/albuquerque>.
