New ISC® ICEGARD Presented At Autopromotec

RACINE, Wis., June 26, 2017 /PRNewswire/ -- [Modine Manufacturing Company](#) (NYSE: MOD), a diversified global leader in thermal management technology and solutions, recently exhibited at Autopromotec in Bologna, Italy, where its Commercial & Industrial Solutions group launched the ISC® ICEGARD line of machines for maintenance of vehicle air conditioning systems.

This European tradeshow gathers a wide variety of automotive aftermarket product groups under one roof, from tires to car service and workshop equipment to spare parts. This year, Autopromotec had over 1,700 exhibitors, hosted 420 specialized journalists, and over 110,000 registered attendees.

At the event, Modine introduced its new line of ISC® ICEGARD machines designed for the maintenance of vehicle air conditioning systems. ICEGARD has four completely automatic and semi-automatic versions: Oro, Rosso, Blu and Verde, dedicated to both R134a and R1234yf. The range was engineered to manage A/C systems for cars, heavy commercial vehicles, and farm and nautical sector machinery. A new user interfaces and simplified maintenance procedures were introduced on the ICEGARD range to ease operation.

"ISC products are well-known internationally for their exceptional durability and reliability," said Giovanni Micelli, Sales Manager ISC Cleaners. "Our customers value our products for their quality, simplicity and easy maintenance."

ICEGARD is the result of many years of experience, and combines a solid structure with the most advanced technological solutions to facilitate the job of the end user. Modine offers equipment that is technically rich, able to operate intuitively, and compatible with the two most widely-used gas coolers on the market - R134a and R1234yf. The premium versions are equipped with the latest generation of Gas Analyzer to protect equipment against improper use and enable the operator to assess possible critical issues. ICEGARD complies with rigorous safety and environmental regulations.

Modine Manufacturing Company was established over 100 years ago with the passion for excellence and innovation of its visionary founder, Arthur B. Modine. Today, products like the ISC® ICEGARD continue to promote that innovative spirit. ISC customers know they can count on top quality instruments, designed to remain reliable and precise over the years.

About Modine

Modine, with fiscal 2017 revenues of \$1.5 billion, specializes in thermal management systems and components, bringing highly engineered heating and cooling components, original equipment products, and systems to diversified global markets through its three complementary business units: Vehicular Thermal Solutions (VTS); Commercial & Industrial Solutions (CIS); and Building HVAC Systems (BHVC).
