**BOSTON** - July 30, 2026 - Acadian Asset Management Inc. (NYSE: AAMI) reports its results for the second quarter ended June 30, 2026.

Kelly Young, Acadian Asset Management Inc.'s President and Chief Executive Officer, said, "Acadian achieved its tenth consecutive quarter of positive net client cash flows in the second quarter of 2026 with \$4.3 billion, ending the quarter with \$232.7 billion of AUM as of June 30, 2026, up 54% from Q2'25. Alongside these flows, we realized another record amount of quarterly recurring management fees with \$176.5 million, up 44% from the second quarter of 2025.

As we progress through our 40th year, we have continued to see organic growth, reflecting strength and momentum in the business driven by long-term outperformance, as well as product and distribution initiatives. Acadian has been a leading systematic manager since the 1980s, providing our clients with sustained outperformance through various and complex market cycles. Going forward, Acadian will remain focused on our time-tested investment process and the execution of our growth strategy, including distribution initiatives and new product offerings, as well as ongoing expense discipline.

ENI for the second quarter of 2026 was \$47.5 million, up 107% compared to \$22.9 million in the second quarter of 2025, while ENI earnings per share was \$1.33, up 108% compared to \$0.64 in the second quarter of last year. The year-over-year increase in ENI was primarily driven by strong management fee growth.

Acadian's long-term investment performance remained strong. As of June 30, 2026, 96% of Acadian's strategies by revenue beat their respective benchmarks over the prior 3-, 5-, and 10- year periods, respectively.

Turning to capital management, we had a cash balance of \$65 million as of June 30, 2026. In the second quarter of 2026, we paid down our seasonal revolver borrowings, and repurchased 0.2 million shares, or \$10.6 million, of common stock."
