## **Results of Operations**

**GAAP Results:** Total revenue for the fourth quarter of 2025 was \$323.1 million, a 2.0% increase when compared to revenue of \$316.7 million for the fourth quarter of 2024. Total revenue for the full year 2025 was \$1,223.3 million, a 2.2% increase when compared to revenue of \$1,197.2 million for the full year 2024. The increases in revenue can be mainly attributed to the continued growth of CSG’s SaaS and related solutions.

GAAP operating income for the fourth quarter of 2025 was \$29.1 million, or 9.0% of total revenue, compared to \$42.3 million, or 13.4% of total revenue, for the fourth quarter of 2024. GAAP operating income for the full year 2025 was \$118.7 million, or 9.7% of total revenue, compared to \$131.3 million, or 11.0% of total revenue, for the full year 2024. The decreases in GAAP operating income can mainly be attributed to the impact of the Merger transaction-related costs and higher stock-based compensation as a result of accelerating the vesting of certain stock awards.

GAAP EPS for the fourth quarter of 2025 was \$0.25, compared to \$1.21 for the fourth quarter of 2024. GAAP EPS for the full year 2025 was \$1.98, compared to \$3.03 for the full year 2024. The decreases in GAAP EPS are mainly attributed to the lower GAAP operating income, discussed above, and a higher GAAP effective income tax rate, as 2024 EPS benefited from a lower effective tax rate due to the release of valuation allowances related to certain U.S. and foreign deferred tax assets and certain one-time benefits.

**Non-GAAP Results:** Non-GAAP operating income for the fourth quarter of 2025 was \$65.8 million, or a non-GAAP adjusted operating margin of 22.3%, compared to \$58.3 million, or a non-GAAP adjusted operating margin of 20.1% for the fourth quarter of 2024. Non-GAAP operating income for the full year 2025 was \$226.2 million, or a non-GAAP adjusted operating margin of 20.3%, compared to \$199.4 million, or a non-GAAP adjusted operating margin of 18.1% for the full year 2024. The increases in non-GAAP operating margin can be mainly attributed to cost efficiency actions taken during 2024 and 2025.

Non-GAAP EPS for the fourth quarter of 2025 was \$1.53, compared to \$1.65 for the fourth quarter of 2024. The decrease in non-GAAP EPS is mainly due to a higher non-GAAP effective tax rate and foreign currency movements. Non-GAAP EPS for the full year 2025 was \$5.14, compared to \$4.72 for the full year 2024. The increase in non-GAAP EPS for the full year is mainly due the higher non-GAAP operating income, discussed above, offset by foreign currency movements and a higher non-GAAP effective income tax rate in 2025.

### **Balance Sheet and Cash Flows**

Cash and cash equivalents as of December 31, 2025 were \$180.0 million compared to \$158.4 million as of September 30, 2025 and \$161.8 million as of December 31, 2024. CSG had net cash flows provided by operations for the fourth quarters ended December 31, 2025 and 2024 of \$59.2 million and \$82.5 million, respectively, and had non-GAAP adjusted free cash flow of \$55.8 million and \$76.6 million, respectively. For the year ended December 31, 2025 and 2024, CSG generated net cash flows from operations of \$155.9 million and \$135.7 million, respectively, and had non-GAAP adjusted free cash flow of \$146.4 million and \$113.3 million, respectively.

### **Forward-Looking Statements**

This news release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act").

Forward-looking statements relate to future events and typically address our expected future business and financial performance. All statements in this news release that are not historical facts are forward-looking statements. Words such as "expect," "anticipate," "intend," "plan," "aspire," "believe," "seek," "see," "will," "would," "may," "target," and similar expressions and variations or negatives of these words, typically identify such forward-looking statements. These forward-looking statements include, but are not limited to, statements relative to the Company's future plans and prospects, our financial condition, and our expectations concerning our business and the industries we serve, and the Company's expectations, plans, intentions, strategies or prospects with respect to the proposed Merger.

Such forward-looking statements are neither promises nor guarantees, but involve a number of known and unknown risks, uncertainties and assumptions that may cause our actual results, performance or achievements to differ materially from those expressed or implied in the forward-looking statements due to various factors, including, but not limited to: we derive a significant portion of our revenue from a limited number of customers; fluctuations in credit market conditions, general global economic and political conditions, and foreign currency exchange rates; our ability to maintain a reliable, secure computing environment; continued market acceptance of our products and services; our ability to continuously develop and enhance products in a timely, cost-effective, technically advanced and competitive manner; our ability to deliver its solutions in a timely fashion within budget, particularly large and complex software implementations; our dependency on the global telecommunications industry, and in particular, the North American telecommunications industry; our ability to meet our financial expectations; increasing competition in our market from companies of greater size and with broader presence; our ability to successfully integrate and manage acquired businesses or assets to achieve expected strategic, operating and financial goals; our ability to protect its intellectual property rights; our ability to conduct business in the international marketplace; our ability to comply with applicable U.S. and International laws and regulations; the ability of the parties to the Merger to complete the proposed Merger on the anticipated terms and timing, or at all; the satisfaction or waiver of other conditions to the completion of the proposed Merger; the risk that our stock price may fluctuate during the pendency of the proposed Merger and may decline if the proposed Merger is not completed; potential litigation relating to the proposed Merger that could be instituted against us or our directors, managers or officers, including the delay, expense or other effects of any outcomes related thereto; the risk that disruptions from the proposed Merger will harm our business, including current plans and operations, including during the pendency of the proposed Merger; our ability to retain, motivate, and hire key personnel; the diversion of management's time and attention from ordinary course business operations to completion of the proposed Merger and integration matters; potential adverse reactions or changes to business relationships resulting from the announcement, pendency or completion of the proposed Merger; legislative, regulatory and economic developments; potential business uncertainty, including changes to existing business relationships, during the pendency of the proposed Merger that could affect our financial performance; certain restrictions during the pendency of the proposed Merger that may impact our ability to pursue certain business opportunities or strategic transactions; unpredictability and severity of catastrophic events, including but not limited to acts of terrorism, outbreaks of war or hostilities or global pandemics, as well as management's response to any of the aforementioned factors; the possibility that the proposed Merger may be more expensive to complete than anticipated, including as a result of unexpected factors or events; unexpected costs, liabilities or delays associated with the Merger; the response of competitors to the Merger; the occurrence of any event, change or other circumstance that could give rise to the termination of the proposed Merger, including in circumstances requiring us to pay a termination fee; the ability to realize the anticipated benefits of the Merger, including the expected synergies and cost saving; the possibility that competing or superior acquisition proposals for the Company will be made; the risks identified Part I, Item 1A. "Risk Factors" of our most recent Annual Report on Form 10-K and in other filings we make with the Securities and Exchange Commission.

Forward-looking statements are based on management's beliefs, assumptions and expectations of future events and trends that are subject to risks and uncertainties. Forward-looking statements speak only as of the date made, and actual future results and trends may differ materially from historical results or those reflected in any such forward-looking statements depending on a variety of factors. We assume no obligation to update or revise any forward-looking statements except as required by federal securities laws.

**DISCLOSURES FOR NON-GAAP FINANCIAL MEASURES**

**Use of Non-GAAP Financial Measures and Limitations**

To supplement its condensed consolidated financial statements presented in accordance with generally accepted accounting principles (GAAP), CSG uses non-GAAP operating income, non-GAAP adjusted operating margin percentage, non-GAAP EPS, non-GAAP adjusted EBITDA, and non-GAAP adjusted free cash flow. CSG believes that these non-GAAP financial measures, when reviewed in conjunction with its GAAP financial measures, provide investors with greater transparency to the information used by CSG's management in its financial and operational decision making. CSG uses these non-GAAP financial measures for the following purposes:

- Certain internal financial planning, reporting, and analysis;
- Forecasting and budgeting;
- Certain management compensation incentives; and
- Communications with CSG's Board of Directors, stockholders, financial analysts, and investors.

These non-GAAP financial measures are provided with the intent of providing investors with the following information:

- A more complete understanding of CSG's underlying operational results, trends, and cash generating capabilities;
- Consistency and comparability with CSG's historical financial results; and
- Comparability to similar companies, many of which present similar non-GAAP financial measures to investors.

Non-GAAP financial measures are not measures of performance under GAAP, and therefore should not be considered in isolation or as a substitute for GAAP financial information. Limitations with the use of non-GAAP financial measures include the following items:

- Non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles;
- The way in which CSG calculates non-GAAP financial measures may differ from the way in which other companies calculate similar non-GAAP financial measures;
- Non-GAAP financial measures do not include all items of income and expense that affect CSG's operations and that are required by GAAP to be included in financial statements;
- Certain adjustments to CSG's non-GAAP financial measures result in the exclusion of items that are recurring and will be reflected in CSG's financial statements in future periods; and
- Certain charges excluded from CSG's non-GAAP financial measures are cash expenses, and therefore do impact CSG's cash position.

CSG compensates for these limitations by relying primarily on its GAAP results and using non-GAAP financial measures as a supplement only. Additionally, CSG provides specific information regarding the treatment of GAAP amounts considered in preparing the non-GAAP financial measures and reconciles each non-GAAP financial measure to the most directly comparable GAAP measure.

## Non-GAAP Financial Measures: Basis of Presentation

The table below outlines the exclusions from CSG's non-GAAP financial measures:

Non-GAAP Exclusions	Operating Income	Adjusted Operating Margin Percentage	EPS
Transaction fees .....	—	X	—
Restructuring and reorganization charges .....	X	X	X
Executive transition costs .....	X	X	X
Acquisition-related expenses:			
Amortization of acquired intangible assets ....	X	X	X
Earn-out compensation .....	X	X	X
Transaction-related costs .....	X	X	X
Stock-based compensation .....	X	X	X
Gain (loss) on debt extinguishment/conversion ..	—	—	X
Gain (loss) on acquisitions or dispositions .....	—	—	X
Unusual income tax matters .....	—	—	X

CSG believes that excluding certain items in calculating its non-GAAP financial measures provides meaningful supplemental information regarding CSG's performance and these items are excluded for the following reasons:

- Transaction fees are primarily comprised of fees paid to third-party payment processors and financial institutions and interchange fees under CSG's payment services contracts. Transaction fees are included in revenue in CSG's Income Statement (and not netted against revenue) because CSG maintains control and acts as principal over the integrated service provided under its payment services customer contracts. However, CSG excludes expense associated with transaction fees from the numerator and denominator in calculating its non-GAAP adjusted operating margin percentage in order to provide comparability with historical and future periods and with its peer group and competitors.
- Restructuring and reorganization charges are expenses that result from cost reduction initiatives and/or significant changes to CSG's business, to include such things as involuntary employee terminations, changes in management structure, divestitures of businesses, facility consolidations and abandonments, and fundamental reorganizations impacting operational focus and direction. These charges are not considered reflective of CSG's recurring business operating results. The exclusion of these items in calculating CSG's non-GAAP financial measures allows management and investors an additional means to compare CSG's current financial results with historical and future periods.
- Executive transition costs include expenses incurred related to a departure of a CSG executive officer under the terms of the related separation agreement. These types of costs are not considered reflective of CSG's recurring business operating results. The exclusion of these costs in calculating CSG's non-GAAP financial measures allows management and investors an additional means to compare CSG's current financial results with historical and future periods.

- Acquisition-related expenses include amortization of acquired intangible assets, earn-out compensation, and transaction-related costs. Transaction-related costs, which typically include expenses related to legal, accounting, and other professional services, are direct and incremental expenses related to business acquisitions and mergers, and thus, are not considered reflective of CSG's recurring business operating results. The total amount of acquisition-related expenses can vary significantly between periods based on the number and size of acquisition activities, previously acquired intangible assets becoming fully amortized, and ultimate realization of earn-out compensation. In addition, the timing of these expenses may not directly correlate with underlying performance of CSG's operations. Therefore, the exclusion of acquisition-related expenses in calculating CSG's non-GAAP financial measures allows management and investors an additional means to compare CSG's current financial results with historical and future periods.
- Stock-based compensation results from CSG's issuance of equity awards to its employees under incentive compensation programs. The amount of this incentive compensation in any period is not generally linked to the level of performance by employees or CSG. The exclusion of these expenses in calculating CSG's non-GAAP financial measures allows management and investors an additional means to evaluate the non-cash expense related to compensation included in CSG's results of operations, and therefore, the exclusion of this item allows investors to further evaluate the cash generating capabilities of CSG's business.
- Gains and losses related to the extinguishment/conversion of debt can be as a result of the refinancing of CSG's credit agreement and/or repurchase, conversion, or settlement of CSG's convertible notes. These activities, to include any derivative activity related to debt conversions, are not considered reflective of CSG's recurring business operating results. Any resulting gain or loss is generally non-cash income or expense, and therefore, the exclusion of these items allows investors to further evaluate the cash impact of these activities for cash flow and liquidity purposes. In addition, the exclusion of these gains and losses in calculating CSG's non-GAAP EPS allows management and investors an additional means to compare CSG's current operating results with historical and future periods.
- Gains or losses related to the acquisition or disposition of certain of CSG's business activities are not considered reflective of CSG's recurring business operating results. Any resulting gain or loss is generally non-cash income or expense, and therefore, the exclusion of these items allows investors to further evaluate the cash impact of these activities for cash flow and liquidity purposes. In addition, the exclusion of these gains and losses in calculating CSG's non-GAAP EPS allows management and investors an additional means to compare CSG's current operating results with historical and future periods.
- Unusual items within CSG's quarterly and/or annual income tax expense can occur from such things as income tax accounting timing matters, income taxes related to unusual events, or as a result of different treatment of certain items for book accounting and income tax purposes. Consideration of such items in calculating CSG's non-GAAP financial measures allows management and investors an additional means to compare CSG's current financial results with historical and future periods.

CSG also reports non-GAAP adjusted EBITDA and non-GAAP adjusted free cash flow. Management believes non-GAAP adjusted EBITDA is a useful measure to investors in evaluating CSG's operating performance, debt servicing capabilities, and enterprise valuation. CSG defines non-GAAP adjusted EBITDA as income before interest, income taxes, depreciation, amortization, stock-based compensation, foreign currency transaction adjustments, acquisition-related expenses, and unusual items, such as restructuring and reorganization charges, executive transition costs, gains and losses related to the extinguishment of debt, and gains and losses on acquisitions or dispositions, as discussed above. Additionally, management uses non-GAAP adjusted free cash flow, among other measures, to assess its financial performance and cash generating capabilities, and believes that it is useful to investors because it shows CSG's cash available to service debt, make strategic acquisitions and investments, repurchase its common stock, pay cash dividends, and fund ongoing operations. CSG defines non-GAAP adjusted free cash flow as net cash flows from operating activities before earn-out compensation payments related to acquisitions less the purchases of software, property, and equipment.

- (1) Restructuring and reorganization charges include stock-based compensation, which is not included in the stock-based compensation line in the tables above and following, and depreciation, which has not been recorded to the depreciation line item on CSG's Income Statement.
- (2) Transaction fees are primarily comprised of fees paid to third-party payment processors and financial institutions and interchange fees under CSG's payment services contracts. Transaction fees are included in revenue in CSG's Income Statement (and not netted against revenue) because CSG maintains control and acts as principal over the integrated service provided under its payment services customer contracts. However, CSG excludes expense associated with transaction fees from the numerator and denominator in calculating its non-GAAP adjusted operating margin percentage in order to provide comparability with historical and future periods and with its peer group and competitors.

Non-GAAP EPS:

The reconciliations of GAAP EPS to non-GAAP EPS for the indicated periods are as follows (in thousands, except per share amounts):

(3) The GAAP effective income tax rates for the fourth quarters of 2025 and 2024 were approximately 69% and 16%, respectively, and for the years ended December 31, 2025 and 2024 were approximately 38% and 23%, respectively. The increase in the GAAP effective income tax rate for the fourth quarter of 2025 is mainly due to the tax impact of accelerated vesting of certain stock awards and the disallowance of transaction-related costs associated with the Merger. The 2025 full year GAAP effective income tax rate is also reflective of the impact of earn-out compensation recognized in 2025, for which a valuation allowance has been established for income tax purposes. The 2024 full year GAAP effective tax rate benefited from the release of valuation allowances related to certain U.S. and foreign deferred tax assets and certain one-time benefits recognized in 2024.

The non-GAAP effective income tax rates for the fourth quarter and year ended December 31, 2025 were 27% in each period and for the fourth quarter and year ended December 31, 2024 were 17% and 25%, respectively. The increases in the fourth quarter and full year 2025 non-GAAP effective income tax rates are primarily due to 2024 rates reflecting the benefits of the release of valuation allowances related to certain U.S. and foreign deferred tax assets and the utilization of foreign tax credits.

(4) The outstanding diluted shares for the fourth quarter and year ended December 31, 2025 were 28.5 million and 28.2 million, respectively, and for the fourth quarter and year ended December 31, 2024 were 28.5 million and 28.7 million, respectively.

Non-GAAP Adjusted EBITDA:

CSG's calculation of non-GAAP adjusted EBITDA and the reconciliation of CSG's non-GAAP adjusted EBITDA measure to GAAP net income is provided below for the indicated periods (in thousands, except percentages):
