Thumzup Surpasses \$1 Million in Regulation A+ Subscriptions after Unveiling Positive User and Advertiser Data from Posts Made on its AdTech App

2023-10-04

Thumzup recently released data showing that posts made on its app had a potential reach of more than 24 million Instagram users [1]

Its proprietary AdTech platform achieved an estimated cost per reach of 0.0063 across more than 10,000 paid posts made since inception [2]

Thumzup's platform boasted an estimated cost-per-like of \$0.76 for posts made in August 2023, notably lower than the publicly-stated benchmarks from major social media advertising platforms [3]

Total capital raised since inception is now more than \$4.25 million dollars

Los Angeles, CA, Oct. 04, 2023 (GLOBE NEWSWIRE) -- **Thumzup Media Corporation** ("Thumzup" or the "Company") (OTCQB: TZUP) is pleased to announce that it has surpassed \$1 million in funded subscriptions through its qualified Regulation A+ offering [4]. This milestone comes on the heels of earlier data revealing that posts made through its disruptive adtech platform had a potential reach of more than 24 million Instagram users, based on the aggregate of followers among all Thumzup users. The latest funding elevates Thumzup's total capital raised since inception to more than \$4.25 million.

The Thumzup mobile app, which is available for download in the App Store and Google Play, enables advertisers to garner user generated content from customers and fans, incentivizing them to become social media advocates for the brands they enjoy by paying them cash for approved posts.

"We believe that Thumzup's Regulation A+ offering is continuing to gain momentum and that our vision to democratizing the \$208 billion online advertising industry is resonating with investors [1]," said Robert Steele, Chief Executive Officer of Thumzup. "Metrics released earlier this month underscore Thumzup's potential rapid scalability, which we believe positions us on the verge of mainstream adoption. We are thankful to Thumzup's

investors for their continued support and look forward to reporting back on our progress.”

Robert Steele further commented, “We find the recently disclosed data particularly encouraging. Over approximately 10,000 posts made via our platform had a potential reach of more than 24 million Instagram users, based on aggregate followers among all Thumzup users. Equally compelling is our estimated Cost per Reach at \$0.0063, based on our comparative analysis. Moreover, our 'Cost per Like' for posts in August 2023 stood at roughly \$0.76, which is notably below the publicly-stated benchmarks on major social media advertising platforms [3] , targeting a highly valuable and authentic demographic.” Steele stated, “We believe that the data speaks for itself and that Thumzup has proven to be a scalable ‘Digital Word of Mouth’ platform, backed by compelling, demonstrated metrics and user acceptance.”

Selection of Broker-Dealer

Thumzup recently engaged Dalmore Group, LLC (“Dalmore”), a member of both FINRA and SIPC, to conduct a qualified offering under Regulation A+.
