Trump Media Successfully Launches Global TV Streaming

Newsmax Now Available Internationally on Truth+ Apps and the Web

SARASOTA, Fla., July 07, 2025 (GLOBE NEWSWIRE) -- Trump Media and Technology Group Corp. (Nasdaq, NYSE Texas: DJT) ("Trump Media" or the "Company"), operator of the social media platform Truth Social, the streaming platform Truth+, and the FinTech brand Truth.Fi, announced today that the Company has successfully launched the Truth+ platform globally.

Streaming channels and video on demand content are now available globally on Truth+ apps for iOS and Android devices, on the Web, and on Truth+ apps for Apple TV, Android TV, Amazon Fire, and Roku connected TVs.

Additionally, the flagship Newsmax channel is now available on all international Truth+ apps and on the Web, which will greatly contribute to Newsmax's ongoing international expansion efforts.

Trump Media's CEO and Chairman Devin Nunes said, "We're gratified by the fast introduction of Truth+ to international markets and look forward to completing the rollout across all devices and operating systems. I'd like to thank Newsmax in particular for partnering with Trump Media for this expansion, which will bring the network's unique programming to major new markets. There is clearly a need globally for fresh perspectives on the great issues of our day, and we're laying the groundwork to challenge the woke news monolith with hard-hitting, non-woke reporting and commentary."

Newsmax CEO Chris Ruddy said, "Devin Nunes has done a remarkable job growing Truth Social and now Truth+ in the U.S., it's only natural they would grow globally and we're proud to partner with him and Trump Media on this expansion."

Truth+ apps will become available globally for LG and Samsung connect TVs as the apps are approved. Truth+ apps can be downloaded from the relevant app stores around the world.

Trump Media anticipates that, as the global Truth+ rollout progresses, the Company will continue to stress and beta test the streaming technology while collecting input from users and will announce when testing is finished and the rollout is complete.
