Cyber & Intelligence Transformational Journey

Addressable market

$752B DEFENSE

$86B INTELLIGENCE

$769B FEDERAL CIVILIAN

$20B CYBERSECURITY

*President FY22 Budget Request

MISSION CRITICAL FOCUS

Growth-Oriented Strategic M&A: *People, Capabilities, Customers, Contract Vehicles, Past Performance*

2014 — Expands capabilities within the **Intelligence Community**

Federal Network Systems

2016 — Adds **Cyber** capabilities within the **Intelligence Community**

VanDyke Technology Group

2017

- Expands **cyber, data analytics, and application development** capabilities.
- Presence within the **Federal Civilian Market**

BlueCanopy

2019 — Expands **ISR, advanced engineering** and technology solutions in the key growth areas of **intelligence, cyber and counterterrorism.**

KeyW

2020 — Broadens and deepens our **cyber, analytics, DevSecOps, All Source Intelligence and Digital services** in the **Intelligence Community** and **Combatant Commands**

The Buffalo Group

2021 — **Explore** Cyber & Intelligence **Products** and/or **Enhanced Capabilities** that make us a **Market Leader**

Cyber

Service offerings focused on an information environment that includes assets such as networks, technology, infrastructure and data

Intelligence

Service offerings focused on all-source intelligence, counterterrorism, air & space convergence, and open source & social media analysis

Who We Are

Our combined **Cyber & Intelligence** footprint allows us to become true enablers for **delivering and operationalizing** the next generation solutions into **Joint All Domain** operations for mission-critical clients giving them the **information advantage**.

Key Capabilities

PREPARING
your people, processes, and technologies to withstand adversary advances and remain ready throughout the contested domains.

DELIVERING
proactive and reactive mission-tailored operations.

PROVIDING
data-centric solutions that create key insights and transform data into actionable intelligence.

Differentiated Solutions

- Advanced Training
- Digital Solutions
- Enabling Technologies and Solutions
- Cyber Resilience

- Information Operations
- Defensive & Offensive Operations
- Space/Counter Space Operations
- Mission Operations

- All Source/Multi-INT Fusion
- Open-Source Intelligence & PAI Analysis
- Biometrics & Identify Intelligence
- Advanced Analytics
- Collection Automation

Supporting Key Missions

- Counterterrorism / Counterinsurgency
- Space / Counterspace
- Watchlisting / Threat Detection
- Counterintelligence
- Cyber Terrorism
- Counter Proliferation
- Defensive & Offensive Cyber Operations
- Insider Threats
- Indications & Warnings (I&W)

By the Numbers

Recent Wins

$302.4M

7 years

The National Geospatial-Intelligence Agency (NGA) provides mission driven and data centric solutions in support of Geospatial-Intelligence Enterprise OpenDataSource (GEODS) services.

Providing wide-ranging cyber, digital services and modern software engineering that support geospatial intelligence (GEOINT) for accessing and delivering intelligence and collection automation.

$234M

5 years

The U.S. Army Intelligence and Security Command (INSCOM) provides counterintelligence, counterterrorism and human intelligence support to the 902nd Military Intelligence Group.

This contract will perform work that enables cortical sensitive activities in the areas of cyber intrusion damage assessment, geospatial intelligence, language-enabled socio-cultural analysis, digital media forensics and human intelligence targeting.

$184M

5 years

DIA's Defense Combating Terrorism Center (DCTC) is a critical warfighting support element that produces integrated, all-source intelligence in support of U.S. combating terrorism plans and operations.

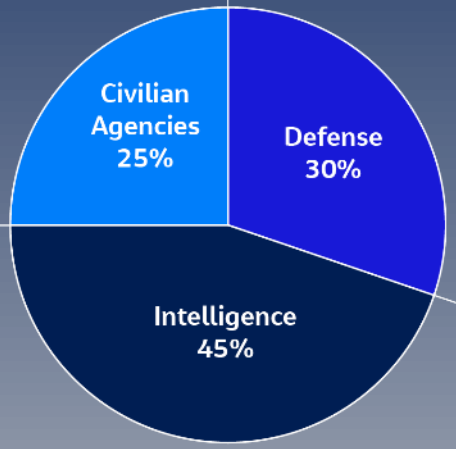

Providing strategic and tactical warning, exposing and exploiting terrorist vulnerabilities, supporting DOD combating terrorism operations, and preventing terrorists from acquiring increased capabilities.

Intelligence Community (IC) is 45% of our business

Cyber Threat hunting for over 250+ systems and 24x7 continuous monitoring to protect and defend the Enterprise Networks and stand-alone systems from malicious attacks.

24x7 cyber and all source intelligence analysis support for global and domestic terrorism — **Daily Briefings to high-level government officials .**

We provide Cyber & Intelligence assets to support real world mission operations. We manage and operate one of the **worlds largest, highly secured network enterprises supporting 800 locations globally**

High proficiency Cyber training development and delivery of Offensive and Defensive **training for over 1,000** government personnel annually. Facilities include multi-media production rooms and Student Center.

©Jacobs 2021

Department of Defense (DoD) is 30% of our business

24x7 Joint Intelligence Operations Center support for **missile warning, geolocation and navigation, target identification** and tracking of adversarial activities leveraging critical sensor & platform data to create **AI/ML models used for threat intelligence**.

All-source research and analysis of **biometric collection & exploitation supporting watchlisting**, counterintelligence, targeting, and human intelligence operations.

We train over **2,000 government officials annually** on defensive cyber-crime techniques (incident response, forensic analysis, network traffic correlation). The "**first responders**" to major DoD cyber crime events

24x7 Joint Intelligence Operations Center support for **intelligence, surveillance and reconnaissance** across an Area of Responsibility of **20 nations – Southwest Asia.**

©Jacobs 2021

Federal Civilian is 25% of our business

Design, develop, deploy, and maintain IT systems in support of the **nation's watchlisting effort known as Terrorist Screening Database** commonly referred to as the "**Watchlist".**

Cyber support services protecting **$1.5 trillion loan portfolios and 150M Americans PII**, **13M students** globally and 6500+ post secondary institutions — **over 1B events annually (500K daily).**

Cyber support for over **10 million US Patents** award and over 600k submitted worldwide each year. **12,000 end users in over 83 locations.**

24x7 **cyber analytic and mission support**, analyze data feeds and connect information **across the counterterrorism community.**
