

# Jacobs Fiscal Fourth Quarter and Full Year Earnings Results

November 21, 2022

# Disclaimer

---

## Forward-Looking Statement Disclaimer

Certain statements contained in this presentation constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements that do not directly relate to any historical or current fact. When used herein, words such as “expects,” “anticipates,” “believes,” “seeks,” “estimates,” “plans,” “intends,” “future,” “will,” “would,” “could,” “can,” “may,” and similar words are intended to identify forward-looking statements. Examples of forward-looking statements include, but are not limited to, statements regarding our expectations as to our future growth, prospects, financial outlook, and business strategy for fiscal 2023 or future fiscal years, including our expectations for our fiscal 2023 adjusted EPS and adjusted EBITDA, revenue growth, adjusted operating profit to net revenue, interest expense; and the impact of foreign currency translation on our fiscal 2023 financial outlook. You should not place undue reliance on these forward-looking statements. Although such statements are based on management's current estimates and expectations and/or currently available competitive, financial and economic data, forward-looking statements are inherently uncertain, and you should not place undue reliance on such statements as actual results may differ materially. We caution the reader that there are a variety of risks, uncertainties and other factors that could cause actual results to differ materially from what is contained, projected or implied by our forward-looking statements. Such factors include our ability to execute on our three-year corporate strategy, including our ability to invest in the tools needed to implement our strategy, competition from existing and future competitors in our target markets, our ability to achieve the cost-savings and synergies contemplated by our recent acquisitions within the expected time frames or to achieve them fully and to successfully integrate acquired businesses while retaining key personnel, the impact of the COVID-19 pandemic, and any resulting economic downturn on our results, prospects and opportunities, measures or restrictions imposed by governments and health officials in response to the pandemic, the timing of the award of projects and funding under the Infrastructure Investment and Jobs Act, financial market risks that may affect the Company's funding obligations under defined benefit pension and postretirement plans, as well as general economic conditions, including inflation and the actions taken by monetary authorities in response to inflation, changes in interest rates and foreign currency exchange rates, changes in capital markets, the possibility of a recession and geopolitical events and conflicts, among others. The impact of such matters includes, but is not limited to, the possible reduction in demand for certain of our product solutions and services and the delay or abandonment of ongoing or anticipated projects due to the financial condition of our clients and suppliers or to governmental budget constraints or changes to governmental budgetary priorities; the inability of our clients to meet their payment obligations in a timely manner or at all; potential issues and risks related to a significant portion of our employees working remotely; illness, travel restrictions and other workforce disruptions that have and could continue to negatively affect our supply chain and our ability to timely and satisfactorily complete our clients' projects; difficulties associated with retaining and hiring additional employees; and the inability of governments in certain of the countries in which we operate to effectively mitigate the financial or other impacts of the COVID-19 pandemic on their economies and workforces and our operations therein. The foregoing factors and potential future developments are inherently uncertain, unpredictable and, in many cases, beyond our control. For a description of these and additional factors that may occur that could cause actual results to differ from our forward-looking statements, see the discussions contained under Item 1 - Business; Item 1A - Risk Factors; Item 3 - Legal Proceedings; and Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations in our most recently filed Annual Report on Form 10-K, and the discussions contained under Part I, Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations; Part II, Item 1 - Legal Proceedings; and Part II, Item 1A - Risk Factors, in our most recently filed Quarterly Report on Form 10-Q, as well as the Company's other filings with the Securities and Exchange Commission. The Company is not under any duty to update any of the forward-looking statements after the date of this presentation to conform to actual results, except as required by applicable law.

## Non-GAAP Financial Measures

To supplement the financial results presented in accordance with generally accepted accounting principles in the United States (“GAAP”), we present certain non-GAAP financial measures within the meaning of Regulation G under the Securities Exchange Act of 1934, as amended. These measures are not, and should not be viewed as, substitutes for GAAP financial measures. More information about these non-GAAP financial measures and reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures can be found at the end of this presentation. Reconciliation of fiscal year 2023: adjusted EBITDA and adjusted EPS, based on different FX rate scenarios, and the associated difference on net revenue between the two scenarios to the most directly comparable GAAP measure is not available without unreasonable efforts because the Company cannot predict with sufficient certainty all of the components required to provide such reconciliation, including with respect to the costs and charges relating to transaction expenses, restructuring and integration and other non-recurring or unusual items to be incurred in such periods.

# Today's agenda

## ■ Overview

- Strategy and performance update
- Data Solutions accelerator

## ■ Lines of business review

- Critical Mission Solutions
- People & Places Solutions
- PA Consulting

## ■ Financial review

- Q4 and Fiscal 2022 results
- Balance sheet and cash flow

## ■ Outlook & Summary

# Jacobs: Challenging today. Reinventing tomorrow.

## Strategy: Boldly Moving Forward

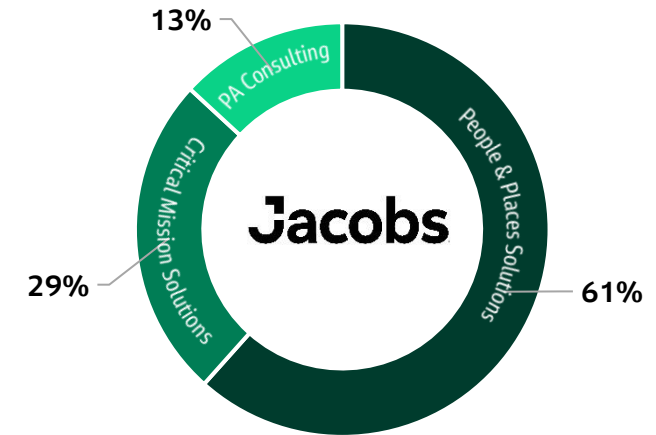

- Culture of inclusion, innovation and inspiration creates competitive advantage
- Diverse sector exposure with recurring revenue provides substantial visibility
- Climate Response, Consulting & Advisory and Data Solutions key accelerators
- Robust organic growth results in healthy balance sheet and strong cash flow

## Track record of execution

- Q4 net revenue increased 6% y/y and up 11% y/y in constant currency (cc)
- Q4 adjusted EBITDA up 13% y/y and up 17% y/y cc with margin of 10.7%
- Q4 backlog increased to \$28B, up 5% y/y and up 8% in cc
- P&PS revenue up 6% y/y and 10% y/y in cc with double-digit OP growth

Q4 2022 Line of Business Operating Profit

Net Revenue TTM  
As Reported  
(\$ in Billions)

Backlog  
As Reported

# Delivering Data Solutions Across Key Areas of Domain Expertise

## Transportation Platform

### StreetLight

Software as a Service (SaaS) platform providing human mobility, supply chain efficiency, Mobility Decarbonization and social value analytic through machine-learning.

### GeoPod

Integrated hardware (cameras and GPS/Inertial Measurement Unit) and custom software system enabling geographic image mapping.

### Track Record

Project management and software suite that provides permission, site team collaboration, approvals and automated workflows

### Aviation Suite – Navigation Data

Aeronautical navigation data solutions to commercial and government clients

## Water Platform

**Jacobs**

### Intelligent O&M

Data analytics solution aggregates and analyzes plant data to manage and optimize water and wastewater treatment plant operations and maintenance (O&M).

 **Palantir**

### AquaDNA

Predictive analytics platform that integrates innovative technologies for wastewater pump cleaning and sewer network performance using AI and algorithms.

### Flood Modeller

Industry-leading flood modelling software allowing you to confidently assess flood risk from rivers, surface water and urban drainage systems.

## National Security Platform

### BlackStack – SearchLynx

Software accelerating sensor collection and real-time analytics platform; processing at the edge.

### Extreme Search

Allows Enterprise IT to analyze all IT infrastructure event logs more completely, including the application of AI/ML algorithms.

### KnackStack

A Platform-as-a-Service (PaaS) flexible hybrid cloud that enables modern software development with an infrastructure to automate data management and security.

### Aviation Suite – Air Drop

Software used to plan and execute highly accurate cargo and personnel airdrops.

# People & Places Solutions

## Deep domain expertise + data-driven solutions + global scale

- Impact of expertise at scale driving differentiated solutions
- Global delivery model benefiting capacity demands and talent utilization
- Delivering higher margin digital solutions to existing and new customers

## Climate Change + Global Infrastructure Modernization + Supply Chain

- Climate, decarbonization and social value gaining momentum across sectors
- IIJA supported projects starting to convert from sales to delivery phase
- Double-digit operating profit growth in advanced facilities driven by supply chain investments

## Recent customer wins

- New South Wales Health Infrastructure and the Children's Hospital of Philadelphia
- Streamlining complex technology & data landscape with National Highways
- Establishing a new green hydrogen facility in South Korea with Elenergy
- Addressing climate adaptation for the Joint Base Pearl Harbor-Hickam
- Delivering transformational programs in the Middle East

## People & Places Solutions Snapshot

(Net Revenue Q4 2022)

U.S. / International	62% / 38%
Public / Private Sector	61% / 39%
Reimbursable and Lower Risk Fixed Price Services	~93%
Talent Force	~38k

## Net Revenue by Sector

(Q4 2022)

Sector mappings updated in Q3 2021

- Transportation
- Water
- Advanced Manufacturing
- Health and Life Sciences
- Energy & Environmental
- Cities & Places

## Backlog

(\$ in billions)

# Critical Mission Solutions

## Strong base of recurring revenue; new business pipeline margin-accretive

- Multi-year enterprise contracts provide long-term stability
- High-value solutions and efficient cost structure driving future margin expansion
- 24-month new business pipeline remains strong at ~\$30B; ~\$10B awaiting award
- Gross profit in backlog up 10% y/y and 12% y/y in constant currency

## Strategy aligned to critical national security, space and energy priorities

- Aligned to high priority areas in space, digital modernization, data, cyber, all-source intelligence, energy transition, environmental restoration, and 5G networks
- Positioned to grow through technology-enabled solutions such as strategic data utilization, space sensors, robotics and intelligent asset management

## Recent customer wins

- Navy Underwater Launch Test Facility
- Classified software development and sustainment
- U.S. Air Force Communication, Navigation, Surveillance & Air Traffic Management
- Naval Research Laboratory's Radar Division

## Critical Mission Solutions Snapshot

(TTM including BlackLynx)

U.S. / International	82% / 18%
Government	~88%
Reimbursable and Lower Risk Fixed Price Services	~93%
Recurring	~93%
Talent Force	~19k

## Revenue by Customer (TTM)

## Backlog (\$ in billions)

# PA Consulting

## Unique combination of outcome-driven strategic and digital consulting

- End-to-end innovation by combining strategists, scientists and digital experts
- Deep industry expertise across a diverse set of sectors and customers

## Bringing Ingenuity to Life to build a positive human future

- Purpose-driven strategy to address our clients' biggest challenges
- Well positioned for growth in various macro-economic scenarios
- Proprietary technology offerings
  - Oakdoor - cyber appliance for segmented network security
  - iPredict - AI system for predicting failures in critical electricity distribution
  - Pulpac – exclusive development partnership for sustainable packaging

## Recent customer wins

- Selected by Ministry of Defence for large multi-year contract providing crucial protection to the UK Armed Forces against improvised explosive devices (IEDs)
- Working for the UK government’s health department to help deliver a once-in-a-generation program for adult social care reform
- New projects won with Schiphol Airport including boardroom advisory and working with Jacobs to further optimize airside operations

## PA Consulting Snapshot

(Revenue Q4 2022)

UK / US / Other	78% / 13% / 9%
Public / Private Sector	51% / 49%

Revenue by Capability  
(Sept 2022 TTM)

- Strategy & Analytics
- Digital, Design & Delivery
- Performance Improvement

Revenue by Sector  
(Sept 2022 TTM)

- Health and Life Sciences
- Defense and Security
- Public Services
- Financial Services
- Consumer and Manufacturing
- Energy and Utilities
- Transport

PA Consulting investment closed March 2, 2021

# Fiscal 2022 Q4 results

Revenue up 8% y/y, Net Revenue up 6% y/y and up 11% in constant currency

GAAP Operating Profit (OP) of \$309M and OP Margin of 8%

Adj. OP of \$347M up 15% and up 19% in constant currency; Net Revenue Adj. OP Margin of 10.7%

GAAP Net Earnings from Continuing Operations of \$225M

GAAP EPS from Continuing Operations of \$1.75, impacted by:

- \$0.16 benefit from a third-party recovery receivable
- \$0.12 tax adjusted to align to effective tax rate
- \$(0.27) of expense net of NCI related to the amortization of acquired intangibles
- \$(0.06) of transaction, restructuring and other related costs

Adj. EPS of \$1.80 up 14% y/y and up 18% in constant currency

Adjusted EBITDA of \$350M, up 13% y/y and up 17% in constant currency

Adjusted EBITDA was 10.8% as a percentage of Net Revenue

Q4 revenue book-to-bill 0.94x and gross margin book-to-bill 1.05x

## Transportation platform

“*The Divergent Solutions Transportation platform leverages data throughout the entire transportation infrastructure process — from conception to build and maintenance, to performance and greenhouse gas emissions monitoring — to meet the dynamic moment and need in the sector.*”

Laura Schewel  
Jacobs, Streetlight Data CEO

# Fiscal 2022 results

Revenue up 6% y/y, Net Revenue up 8% y/y and up 10% in constant currency

GAAP Operating Profit (OP) of \$918M and OP Margin of 6.2%

Adj. OP of \$1,314M up 11% and up 14% in constant currency; Net Revenue Adj. OP Margin of 10.4%

GAAP Net Earnings from Continuing Operations of \$644M

GAAP EPS from Continuing Operations of \$4.98, impacted by:

- \$0.22 tax items to align to effective tax rate
- \$(1.02) of expense net of NCI related to the amortization of acquired intangibles
- \$(0.51) restructuring and other related costs
- \$(0.49) charge from the net settlement of the legacy CH2M matter and related legal costs
- \$(0.16) of transaction related costs

Adj. EPS of \$6.93 up 10% y/y and up 13% in constant currency

Adjusted EBITDA of \$1,364M, up 10% y/y and up 12% in constant currency

Adjusted EBITDA was 10.8% as a of percentage Net Revenue

TTM revenue book-to-bill 0.97x and gross margin book-to-bill 1.05x

## National security

“The National Security Platform provides accelerated edge processing, mission planning, and delivery and search capabilities to ensure clients have the data, tools and supplies needed to support various defense and intelligence missions.”

Gwen Clavon  
Jacobs, GM, National Security  
Platform

# Balance sheet and cash flow

## Strong cash flow generation

- FY22 cash flow from operations (CFFO) \$475M and FCF<sup>1</sup> of \$347M; includes net one-time cash headwinds of \$526M; comprised of \$475M Inpex legal matter, \$55M CARES Act repayment and a net benefit of \$4M from other items
- Achieved 97% FY22 adj. FCF to adj. net income; expect ~100% underlying FY23 cash conversion
- **Balance sheet strength affords capital deployment**
- Executed \$282M of share repurchases in fiscal 2022
- Q4 dividend of \$0.23/share an increase of 10% y/y, was paid October 28, 2022

## Robust cash flow enables financial flexibility

- Q4 cash and equivalents of \$1.1B and gross debt of \$3.4B; net debt of \$2.3B resulting in 1.6x of net debt to FY23E adjusted EBITDA
- Repaid \$481M private notes at par on October 7<sup>th</sup>
- Entered into 10-year interest rate lock for notional \$500M at 2.7% rate in Q4 2022

Q4 Leverage Metrics (\$ billions)	FY22 Q4
Q4 Net Debt Position	\$2.3B
Q4 net debt to adjusted FY23E EBITDA	1.6*
Fixed/Floating Mix	~40%/60%
Weighted average interest rate	3.6%

## Water Platform

*“From enhancing watershed management in California to removing harmful sewer overflows in Manchester, the Divergent Solutions Water Platform aids in the digital transformation of the entire global water cycle. ”*

Gregg Kennedy  
Jacobs, VP Water Platform

# Outlook & Summary

## Initiating Fiscal 2023 Outlook

- Diverse portfolio of recurring revenue provides opportunity to grow under multiple economic scenarios with upside from Climate Response, Consulting & Advisory and Data Solutions accelerators
- Based on fiscal 2022 average rates, the company's outlook for fiscal 2023 adj. EBITDA is \$1,465M to \$1,545M, and adj. EPS of \$7.60 to \$7.90, up 10% and 12% respectively at the midpoints.
- Based on FX rates in early November, the company's outlook for fiscal 2023 adj. EBITDA is \$1,400M to \$1,480M and adjusted EPS of \$7.20 to \$7.50, up 6% at the midpoints.
- On a net revenue basis, the difference between these two scenarios is approximately \$430 million.
- Expect low to mid single digit year-over-year adjusted EPS growth in 1H 2023 due to FX impact, with the FX impact moderating in 2H 2023
- Remain committed to double-digit multi-year constant currency earnings growth driven by accelerating revenue, strong backlog and robust global sales pipeline, consistent with our strategic accelerators

FY23 net interest expense & other income	(~\$120M)
FY23 effective tax rate	~23%
FY23 non-controlling interest	(~\$100M)
Q1 2023 fully diluted average share count	~130M
Annual CAPEX	~1% of net revenue

## Aqua DNA

*"Aqua DNA combines our industry-leading domain knowledge with our cutting edge digital capability to transform network operations and deliver a lasting impact through improved service levels and enhanced environmental protection."*

Susan Moisie  
Jacobs, Global Water Director

**Challenging today.  
Reinventing tomorrow.**

Our passion and commitment to take immediate action on climate change comes from our leadership and our 60,000 employees who, together, are pushing the limits of what's possible by creating sustainable solutions that leave no one behind.

**We do things right.**

**We challenge the accepted.**

**We aim higher.**

**We live inclusion.**

# Office of Global Climate Response and Environmental, Social & Governance (ESG)

## Energy Transition

- Clean energy generation
- Grid modernization & energy storage
- Water-energy nexus

## Decarbonization

- Clean & smart mobility
- Net zero buildings & campuses
- Business & industrial decarbonization

## Adaptation & Resilience

- Climate risk & vulnerability assessments
- Asset & infrastructure resilience
- Disaster planning, response & recovery

## Natural Resource Stewardship

- Integrated water management
- Nature-based solutions
- Circular economy

## ESG Business Transformation

- Sustainable business strategies
- Social value & equity
- Governance

## Climate Response

Climate change: the greatest challenge and opportunity of our generation

*“With our future in the balance, the planning, commitments and sustainability steps we take today are critical to leading the world to a more climate-resilient existence for generations to come.”*

**Jan Walstrom**  
SVP, Office of Global Climate Response & ESG and Enterprise Risk Management

# Delivering sustainable solutions

Member of Dow Jones Sustainability™ North America Index

## Nature-based Solutions

**Tyndall Air Force Base, FL:** Jacobs is partnering with The Nature Conservancy and the University of Florida on the modeling, engineering, design and permitting of nature-based solutions at Tyndall, including oyster reefs, living shorelines, shoreline enhancement, and seagrass restoration.

## Wind Farm

**Squadron Energy, Australia:** owner's engineer for the Clarke Creek Wind Farm, one of Queensland's largest renewable energy projects. The wind farm will power an estimated 660,000 homes or about 40% of homes across Queensland, Australia.

## Green Fleets

**New York City Metropolitan Transportation Authority:** supporting New York MTA as North America's largest transit agency leading the transition to zero emissions for one of the largest bus fleets in the world by 2040

## Nuclear Decommissioning

**Tokyo Electric Power Company, Japan:** project management support, long-term decommissioning strategy planning, management and implementation of supply chain resources and fuel debris retrieval program definition for the Fukushima Daiichi Nuclear Power Plant.

## Pumped Hydro

**Origin Energy, Australia:** prepared the feasibility study, developed the reference design and now delivering the Environmental Impact Statement for the Shoalhaven hydro power station pumped storage expansion of ~235MW of added capacity in New South Wales.

## EV Infrastructure

**Nevada Department of Transportation:** together with StreetLight, helped NDOT develop and submit a state EV infrastructure deployment plan, making Nevada eligible to receive funds through the National Electric Vehicle Infrastructure Formula Program; plan implementation will enhance EV charging infrastructure and networks and transform the alternative fuel landscape

## Justice40

**Confidential Client, US:** review and advisory for a Department of Transport on Justice40 and social equity in the US West, supporting advancement of environmental justice for marginalized communities impacted by the climate crisis, pollution and socioeconomic inequality

## Climate Adaptation

**Irish Rail:** project design, statutory approval, environmental assessments and construction supervision for the biggest coastal resilience project in Northwestern Europe, to address and implement material protection of the East Coast Railway and coastal infrastructure against the effects of climate change, with design life of 100 years.

# Environmental, Social & Governance Summary

A sustainable business model aligning purpose and vision with both growth and positive impact:

- Fully integrates purpose with profit and operationalizes sustainability across all aspects of our business.
- Drives how we can have the largest positive impact for society as a business.
- Leverages Jacobs' full suite of solutions to play a key role in advancing a net-zero economy.
- Achieved industry leading ISS Prime Status for our ESG corporate rating.
- Jacobs supports governmental clients in the delivery of critical missions which keep their citizens safe from nuclear attack, prevent large-scale war, and defend their global allies and partners. Jacobs does this by assisting governmental organizations to safely deliver their mission-critical infrastructure and tailored solutions in complex environments around the world.
- Jacobs does not manufacture nuclear warheads or nuclear weapons components.

# Sector description

Markets	Definitions
<b>Infrastructure</b>	<p>Addresses global national governments' focus on modernizing aging infrastructure and post-pandemic economic stimulus. As an example, over 80% of the \$550B US Infrastructure Investment and Jobs Act is aligned with our Infrastructure markets (Water, Transportation, Telecom), with a further ~12% aligned with other Jacobs markets (Energy &amp; Environment, Advanced Manufacturing).</p> <p>Capitalizes on Jacobs' advanced design, engineering, program management, urban and transportation planning, scientific and technology services.</p>
<b>National Security</b>	<p>Encompasses solutions for public and private sector institutions, systems, and programs that serve to create, secure, and defend national interests and infrastructure against foreign and domestic threats across multiple domains.</p> <p>Leverages Jacobs leading capabilities and deep expertise in cyber, intelligence, defense, analytics, geospatial technology, and threat protection.</p>
<b>Advanced Manufacturing</b>	<p>Captures the supercycle in electronics in response to the global supply chain disruption affecting the full range of specialized manufacturing sectors.</p> <p>Differentiating capabilities include Jacobs' highly advanced design and engineering in the electrification ecosystem, data centers, and semiconductor manufacturing – deployed through a global integrated delivery platform.</p>
<b>Health &amp; Life Sciences</b>	<p>Underpinned by the aging population and ever-increasing health equity and access concerns, this market focuses on the growth of digital health and need for increased speed-to-market of new medicines – resulting in increased contract manufacturing to respond to demand for enhanced health system readiness.</p> <p>Jacobs' deep subject matter expertise across diverse scientific, infrastructure, environmental and digital domains in biopharmaceutical manufacturing, health governance, health infrastructure, and operations advisory provides market differentiation and distinct competitive advantage.</p>
<b>Energy &amp; Environment</b>	<p>Centered on responding to global challenges driven by climate change, urbanization, resource scarcity, digital proliferation and energy security, including the global energy diversification and transition efforts by both public and private sector clients in response to the shift from fossil fuel to clean and renewable energy sources.</p> <p>As the world's largest environmental consulting firm – and backed by decades of cross-market delivery in natural sciences and engineering – Jacobs is at the forefront of solving the planet's most critical environmental challenges from impact assessment and natural systems modeling to remediation and compliance.</p>
<b>Cities &amp; Places</b>	<p>Recognizes the need for holistic, balanced urban and placemaking solutions around the globe.</p> <p>Jacobs integrates and leverages data, technology, mobility and connectivity to improve economic and social equity, and overall resiliency of cities and communities, and includes combined domain expertise from strategic planning, architecture, design, engineering, natural sciences, and the arts.</p>
<b>Space</b>	<p>Represents an industry at an inflection point: government and private sector space agencies worldwide are experiencing widespread industry disruption and innovation.</p> <p>Jacobs delivers high-end solutions for remote sensing and earth observation, intelligence gathering, communications and navigation, and space-enabled science and exploration through its decades of experience and capabilities in scientific, engineering, and technology innovation.</p>

# Use of Non-GAAP financial measures and operating metrics

Net revenue is calculated excluding pass-through revenue of the Company's People & Places Solutions segment from the Company's revenue from continuing operations. Adjusted net earnings from continuing operations, adjusted EPS from continuing operations, adjusted operating profit and adjusted operating profit margin are calculated by (i) excluding recoveries, costs and other charges associated with restructuring activities implemented in connection with the acquisitions of CH2M, John Wood Group nuclear business, Buffalo Group, BlackLynx, and StreetLight Data, the strategic investment in PA Consulting, the sale of the ECR business and other related cost reduction initiatives, which included involuntary terminations, costs associated with co-locating offices of acquired companies, separating physical locations of ECR and continuing operations, professional services and personnel costs, amounts relating to certain commitments and contingencies relating to discontinued operations of the CH2M business, including the final settlement charges relating to the Legacy CH2M Matter, net of previously recorded reserves; (ii) excluding the costs and other charges associated with our Focus 2023 transformation initiatives, which included costs and charges associated with the re-scaling and repurposing of physical office space, employee separations, contractual termination fees and related expenses (the amounts referred in (i) and (ii) are collectively referred to as the "Restructuring, transaction costs and other (recoveries)" or "Restructuring, transaction costs and other charges"); (iii) excluding transaction costs and other charges incurred in connection with closing of Buffalo Group, BlackLynx and StreetLight Data acquisitions and the strategic investment in PA Consulting, including advisor fees, change in control payments, the impact of the quarterly adjustment to the estimated future payout of contingent consideration to the sellers in connection with acquisitions; certain consideration amounts for PA Consulting that were required to be treated as post-completion compensation expense given retention related requirements applicable to the distribution of such funds to PA Consulting employees, and impacts resulting from the non-cash purchase accounting adjustment related to the investment in PA Consulting to reflect a change in the preliminary purchase price allocation for the redeemable non-controlling interests, certain equity based compensation expenses associated with PA Consulting's benefit programs, and similar transaction costs and expenses (collectively referred to as "transaction costs"); (iv) adding back amortization of intangible assets; (v) the removal of fair value adjustments and dividend income related to the Company's investments in Worley and C3 stock and certain foreign currency revaluations relating to ECR sale proceeds; (vi) excluding charges resulting from the revaluation of certain deferred tax assets/liabilities in connection tax rate increases in the United Kingdom during fiscal 2021; (vii) charges associated with the impairment of our AWE ML investment; (viii) charges to interest expense associated with one-time deal related bank fees; (ix) certain non-routine income tax adjustments for the purposes of calculating the Company's annual non-GAAP effective tax rate to facilitate a more meaningful evaluation of the Company's current operating performance and comparisons to the Company's operating performance in other periods; and (x) other income tax adjustments associated with the pre-tax income adjustments above. Adjustments to derive adjusted net earnings from continuing operations, and adjusted EPS from continuing operations are calculated on an after-tax basis.

# Use of Non-GAAP financial measures and operating metrics (cont.)

Adjusted EBITDA, and the resulting calculation of adjusted EBITDA margin, is calculated by adding income tax expense, depreciation expense and adjusted interest expense, and deducting interest income from adjusted net earnings from continuing operations. Adjusted interest expense excludes one-time fees related on our debt facilities that are included in our interest expense under GAAP.

Free cash flow is calculated using the reported statement of cash flows, provided from operations less additions to property and equipment. Adjusted free cash flow is calculated by taking free cash flow (calculated as previously described) adjusted for the cash payments/receipts related to the adjustments made to GAAP net earnings to arrive at adjusted net earnings from continuing operations. In addition, in fiscal 2022, adjusted free cash flow excluded the repayment of \$55M of payroll tax deferral which was permitted by the CARES Act.

Certain percentage changes are quantified on a constant currency basis, which provides information assuming that foreign currency exchange rates have not changed between the prior and current periods. The constant currency impact on the fourth quarter and fiscal year 2022 adjusted EPS results is calculated by applying the FX rates from the prior period to operating profit and utilizing our adjusted income tax rate and fully diluted share count. The constant currency impact on the fourth quarter and fiscal year 2022 adjusted EBITDA results is calculated by applying the FX rates from the prior period to operating profit. For purposes of constant currency calculations, we use the prior period average exchange rates as applied to the current period adjusted amounts.

We believe that the measures listed above are useful to management, investors and other users of our financial information in evaluating the Company's operating results and understanding the Company's operating trends by excluding or adding back the effects of the items described above and below, the inclusion or exclusion of which can obscure underlying trends. Additionally, management uses such measures in its own evaluation of the Company's performance, particularly when comparing performance to past periods, and believes these measures are useful for investors because they facilitate a comparison of our financial results from period to period.

This presentation also contains certain operating metrics which management believes are useful in evaluating the Company's performance. We regularly monitor these operating metrics to evaluate our business, identify trends affecting our business, and make strategic decisions. Backlog Revenue is the total dollar amount of revenues we expect to record in the future as a result of performing work under contracts that have been awarded to us. Backlog Gross Profit is the gross profit associated with the backlog contract. Book-to-bill ratio is an operational measure representing the ratio of change in backlog revenue, or backlog gross margin, since the prior reporting period plus reported revenue or reported gross margin for the reporting period to the reported revenues or gross margin for the same period. Cash conversion is the ratio of cash flow from operations to GAAP net earnings from continuing operations. Adjusted cash conversion is the ratio of adjusted free cash flow to adjusted net earnings from continuing operations (calculated as previously described).
