# Heathrow Airport Appoints Jacobs to Integrated Design Team

2016-12-13

Providing services to support airport's sustainable expansion

DALLAS--(BUSINESS WIRE)-- **Jacobs Engineering Group Inc.** (NYSE:JEC) has been awarded a four-year contract by London's **Heathrow Airport Ltd** to provide airport planning and engineering services to support the airport's sustainable expansion.

Jacobs joins Heathrow's new Integrated Design Team (IDT) of seven aviation planning and design organizations selected to develop plans for the airport's expansion. The team will collaborate to help deliver one of the most complex airport developments in the world. Heathrow Airport is the sixth busiest airport in the world by passenger traffic and the busiest airport in Europe.

Jacobs's role includes overseeing design activities for the airfield, highways and earthworks and supporting the IDT with a range of engineering, planning and environmental services.

"Jacobs has worked with Heathrow Airport for the past 15 years delivering both airside and landside projects," said Jacobs Senior Vice President Buildings and Infrastructure Bob Duff. "Around the world, we've worked in collaborative roles for several major terminal and runway expansion projects and, as a member of the IDT, we look forward to contributing our proven expertise to help Heathrow create resilient and efficient plans for sustainable expansion."

"With their institutional knowledge of Heathrow, and proven record in building complex infrastructure projects, Jacobs and the other members of the IDT will allow us to hit the ground running to deliver Heathrow expansion,"

said Heathrow Airport's Head of Design Barry Weekes. "Finalizing the IDT members is a significant milestone in what will be a fast paced design and engineering schedule. We are now well on our way to delivering Britain's newest runway, providing the additional capacity our country needs to maintain its place in the world as a prosperous, outward looking trading nation."

Jacobs also recently won a three-year framework contract with Heathrow Airport to provide inspection of civil engineering assets and heavy rail, design consultancy, and a wide range of other civil airport infrastructure works across the airport.

The company provides professional services to aviation markets globally, including supporting programs for international airports such as Denver, Dallas/Fort Worth, Chicago, Brisbane, Melbourne, and Manchester. Services range from strategic planning and financial consulting to planning, asset management, design, program management and construction management.

Jacobs is one of the world's largest and most diverse providers of full-spectrum technical, professional and construction services for industrial, commercial and government organizations globally. The company employs over 54,000 people and operates in more than 25 countries around the world. For more information, visit [www.jacobs.com](http://www.jacobs.com).
