

NEWS RELEASE

Jacobs Awarded Three Contracts from Texas Department of Transportation

2015-02-03

Supporting Projects Statewide

PASADENA, Calif.--(BUSINESS WIRE)-- **Jacobs Engineering Group Inc.** (NYSE:JEC) announced today that it received three contracts from the **Texas Department of Transportation** (TXDOT) to provide services for various projects statewide.

Officials did not disclose the contract values.

Under the terms of the first contract, Jacobs is providing traffic engineering and planning studies primarily in the El Paso District. Jacobs' scope of work includes corridor analysis for subarea/corridor and land planning, feasibility and corridor studies, traffic counts, travel time analysis, travel demand modeling and simulation, traffic projections, intelligent transportation systems, regional toll analysis and toll feasibility analysis.

Under the second contract, Jacobs is providing engineering services for the preparation of plans, specifications and estimates (PS&E) and related documents for various On-System and Off-System Bridge Replacements statewide. Jacobs' scope of work includes preparing roadway and bridge design, hydrologic and hydraulic design, traffic signal design, survey, geotechnical data collection, and construction phase services.

Under the third contract, Jacobs is providing professional land surveying services within and along state right-of-way easements in support of preliminary engineering, construction engineering and maintenance work. Projects covered under this contract are primarily located in the Austin and San Antonio Districts.

In making the announcement, Jacobs Group Vice President Randy Pierce stated, "We are pleased to help enhance safety and mobility in the state of Texas by continuing to support TxDOT on a wide variety of projects from the conceptual stage to full project delivery."

Jacobs is one of the world's largest and most diverse providers of technical professional and construction services.

Statements made in this release that are not based on historical fact are forward-looking statements. We base these forward-looking statements on management's current estimates and expectations as well as currently available competitive, financial and economic data. Forward-looking statements, however, are inherently uncertain. There are a variety of factors that could cause business results to differ materially from our forward-looking statements. For a description of some of the factors which may occur that could cause actual results to differ from our forward-looking statements please refer to our 2014 Form 10-K, and in particular the discussions contained under Items 1 - Business, 1A - Risk Factors, 3 - Legal Proceedings, and 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations. We do not undertake to update any forward-looking statements made herein.
