

NEWS RELEASE

Jacobs Receives Contract from New Jersey Turnpike Authority to Provide Supervision of Construction Services on the NJ Turnpike

2015-09-01

PASADENA, Calif.--(BUSINESS WIRE)-- Jacobs Engineering Group Inc. (NYSE:JEC) announced today that it was awarded a contract from the New Jersey Turnpike Authority (Authority) to provide resident engineering and construction inspection services for roadwide guide sign improvements on the New Jersey Turnpike.

Officials estimate the construction value to be \$26 million. Construction began July 2015 with substantial completion anticipated for the fall of 2017.

This project is being implemented as part the Authority's 10-year capital investment program. The primary purpose is to replace and/or upgrade the roadway signs and sign legends to be consistent with the Manual for Uniform Traffic Control Devices (MUTCD).

Under the terms of the contract, Jacobs is providing supervision of construction for Construction Contract No. T600.319, roadwide guide sign improvements on the New Jersey Turnpike including replacement of existing guide sign panels; fabrication and installation of new sign structures; removal of existing sign structures; relocation of existing cantilever sign structures at new locations; constructing foundations for new and relocated structures; sign lighting work; installation of roadway safety features; and associated maintenance and protection of traffic (MPT) work. This project also includes fabrication and installation of a new VMS structure on the Turnpike; reconnecting signs and ITS devices to the existing system; and testing and final commissioning.

In making the announcement, Jacobs Group Vice President Randy Pierce stated, "We are delighted to continue in

our role assisting the Authority in achieving its capital investment goals along the NJ Turnpike. The toll-paying, traveling patrons who utilize the Turnpike will closely monitor this highly visible project. Through our long-standing relationship with the Authority and proactive responsiveness to the traveling patrons, we will work closely with the Authority to deliver a quality project.”

Jacobs is one of the world's largest and most diverse providers of technical professional and construction services.
