Jacobs Secures Engineering Role for the Kuala Lumpur to Singapore High Speed Rail Project

2017-08-15

DALLAS--(BUSINESS WIRE)-- **Jacobs Engineering Group Inc.** (NYSE:JEC) has secured one of six coveted Reference Design Consultant (RDC) packages for the high profile Kuala Lumpur - Singapore High Speed Rail project (KL-SG HSR), which was announced earlier this year.

Once completed, the 350-km high speed rail link will be the fastest city center to city center mode of travel between Kuala Lumpur and Singapore, with a journey time of 90 minutes.

Jacobs will deliver the RDC02 reference design package that includes the design of the five intermediate stations in Malaysia together with other HSR infrastructure associated with the station development, encompassing access roads, highway and pedestrian links into existing infrastructure.

“The win is another milestone for Jacobs and especially significant since this high-speed rail project is the first of its kind in Southeast Asia,” said Jacobs Buildings and Infrastructure Asia Pacific Senior Vice President Patrick Hill.

Jacobs is one of the world’s largest and most diverse providers of full-spectrum technical, professional and construction services for industrial, commercial and government organizations globally. The company employs over 54,000 people and operates in more than 25 countries around the world. For more information, visit www.jacobs.com.

Statements made in this release that are not based on historical fact are forward-looking statements. We base these forward-looking statements on management’s current estimates and expectations as well as currently available competitive, financial and economic data. Forward-looking statements, however, are inherently uncertain.

There are a variety of factors that could cause business results to differ materially from our forward-looking statements. For a description of some of the factors which may occur that could cause actual results to differ from our forward-looking statements please refer to our Form 10-K for the year ended September 30, 2016, and in particular the discussions contained under Items 1 - Business, 1A - Risk Factors, 3 - Legal Proceedings, and 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations. We do not undertake to update any forward-looking statements made herein.
