

# Jacobs Wins US Air Force Communication, Navigation, Surveillance/Air Traffic Management Software Contract

2017-09-28

DALLAS--(BUSINESS WIRE)-- **Jacobs Engineering Group Inc.** (NYSE:JEC) was awarded a continuation contract for the United States Air Force Communication, Navigation, Surveillance/Air Traffic Management (CNS/ATM) software development. The software supports the fleet of Air Mobility and Air Combat Command aircraft. The contract is valued at \$34.6 million over five years if all options are exercised. Work will be primarily performed at the Jacobs Software Engineering Center in Nashua, NH.

Under this contract, Jacobs will continue software development previously done under the Global Mobility and Special Mission Mission Planning Software Development and Sustainment contract. Jacobs will design, develop and deliver CNS/ATM compliant software which produces aircraft readable navigational databases for the C-5, C-17, KC-10, KC-135, E-3 DRAGON and EC-130H aircraft. The contract also includes data validation of National Geospatial Agency aviation datasets and support for Foreign Military Services aircraft platforms.

"Building on our long history of supporting the U.S. armed forces, this contract continues Jacobs' legacy in providing safety of flight software to the Air Force, specifically its navigational data needs," said Jacobs Aerospace and Technology Senior Vice President Darren Kraabel. "The software suite Jacobs is providing will enable more precise navigation of U.S. Air Force aircraft for continued operations to continue operations without restriction in controlled airspace around the world."

Jacobs is one of the world's largest and most diverse providers of full-spectrum technical, professional and construction services for industrial, commercial and government organizations globally. The company employs over

54,000 people and operates in more than 25 countries around the world. For more information, visit [www.jacobs.com](http://www.jacobs.com).

Statements made in this release that are not based on historical fact are forward-looking statements. We base these forward-looking statements on management's current estimates and expectations as well as currently available competitive, financial and economic data. Forward-looking statements, however, are inherently uncertain. There are a variety of factors that could cause business results to differ materially from our forward-looking statements. For a description of some of the factors which may occur that could cause actual results to differ from our forward-looking statements please refer to our Form 10-K for the year ended September 30, 2016, and in particular the discussions contained under Items 1 - Business, 1A - Risk Factors, 3 - Legal Proceedings, and 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations. We do not undertake to update any forward-looking statements made herein.
