

NEWS RELEASE

Jacobs and London Transport Museum Launch 'Shape Your City' Exhibit

2018-10-16

Part of a new interactive gallery inviting future engineers to explore their curiosity

DALLAS, Oct. 16, 2018 /PRNewswire/ -- **Jacobs Engineering Group Inc.** (NYSE:JEC) and the **London Transport Museum** have teamed up with other partners to help bring the U.K.'s **Year of Engineering 2018** to life with a new interactive **Future Engineers gallery**, which opens to the public on 19 October 2018. The new gallery inspires an interest in STEM subjects and highlights the creativity, social value and sheer range of jobs available in engineering and related careers.

Jacobs worked with the museum to create the "Shape Your City" exhibit, which lets visitors play an interactive table-top game as they race against the clock to create a healthy and well-connected sustainable city. This urban planning jigsaw invites visitors to interact with different parts of the city such as housing, stations, green spaces and landmarks and to make them work together to create a successful city.

"The 'Shape Your City' exhibit encourages visitors to experiment with key elements needed to make a city like London greener, happier and better connected," said Jacobs Buildings and Infrastructure Europe Senior Vice President and General Manager Donald Morrison. "These are exactly the city and transport conundrums our engineers, designers and digital solutions experts are tackling every day.

"We hope the new gallery will foster learning and curiosity among our future talent and create a truly innovative and engaging experience for the next generation of creators."

Sam Mullins, Director of London Transport Museum, added: "From designing your city to having your palm scanned by the latest ticketing technology, our new Future Engineers gallery is great fun and challenges our visitors'

perceptions of engineering.

"The future London will be shaped by engineers; our new gallery asks how much of a dreamer, planner or fixer you are, creating a fresh view of the skills and mindsets needed to make a career as an engineer."

Other partners for the new Future Engineers gallery include: Bombardier Transportation, DCMS Wolfson Museums and Galleries Improvement Fund, Luke Rees-Pulley Charitable Trust, Cubic Transportation Systems, Mastercard and Microsoft.

London Transport Museum developed the Year of Engineering 2018 Future Engineers gallery as part of a U.K. government-led campaign to raise the profile of engineering among 7- to 16-year-olds and encourage young people to consider a career in engineering. About London Transport Museum

The Museum is situated in the heart of Covent Garden and filled with stunning exhibits; the Museum explores the powerful link between transport and the growth of modern London, culture and society since 1800. Historic vehicles, world-famous posters and the very best objects from the Museum's extraordinary collection are brought together to tell the story of London's development and the part transport played in defining the unique identity of the city. The Museum is a charity and the world's leading museum of urban transport and a place for everyone to come to understand and enjoy the story of London's journey. The Museum's charity number is 1123122. Learn more at www.ltmuseum.co.uk/future-engineers, and view Future Engineers gallery video live on Wednesday 17 October.

Statements made in this release that are not based on historical fact are forward-looking statements. We base these forward-looking statements on management's current estimates and expectations as well as currently available competitive, financial and economic data. Forward-looking statements, however, are inherently uncertain. There are a variety of factors that could cause business results to differ materially from our forward-looking statements. For a description of some of the factors which may occur that could cause actual results to differ from our forward-looking statements please refer to our Form 10-K for the year ended September 29, 2017, and in

particular the discussions contained under Items 1 - Business, 1A - Risk Factors, 3 - Legal Proceedings, and 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations. We do not undertake to update any forward-looking statements made herein.
