NEWS RELEASE

Jacobs selected to support BGE's Konrad Repository project in Germany

2026-09-22

Advisory services support delivery of Germany's first final repository for low- and intermediate-level radioactive waste

DALLAS--(BUSINESS WIRE)-- **Jacobs** (NYSE: J) has been awarded a contract by **Bundesgesellschaft für Endlagerung mbH** (BGE), Germany's federal company for radioactive waste disposal, to provide project support services for the Konrad Repository project in Salzgitter, Germany. The project will help strengthen schedule accuracy, cost reliability and overall project execution for one of the country's key national infrastructure initiatives.

Under the contract, Jacobs will deliver advisory services to assess construction progress, validate planning assumptions and support project delivery optimization. The scope includes evaluating existing construction processes, reviewing and updating schedules and cost plans, and developing implementation of efficiency improvements.

Jacobs Executive Vice President Fiachra Ó Cléirigh said: "Delivering complex infrastructure projects in Germany requires a strong understanding of local regulatory frameworks, construction practices and site conditions. By combining on-the-ground insight with global project delivery experience, our team is helping BGE strengthen alignment between planning and execution while supporting efficient, predictable outcomes."

BGE Technical Managing Director Jürgen Korth added: "We appreciate that we have found very experienced senior advisors with expertise in construction management and schedule management over a public tender offer. They support our team in the implementation of our very challenging project — the conversion of an existing mine into Germany's first final repository for low- and intermediate-level radioactive waste approved under nuclear law. We aim to support this project with best practice knowledge from other international infrastructure projects. This project is of great social significance to us."

As construction progresses, the project faces complex technical and regulatory requirements, including work within existing structures, seismic considerations and compliance with mining and nuclear regulations. Jacobs' role will support alignment of construction activities, timelines and cost structures with on-site realities while incorporating best practices from comparable large-scale infrastructure programs.

This contract builds on Jacobs' work supporting **nuclear** decommissioning and radioactive waste management programs across Europe. Jacobs has supported **Sellafield**, one of the U.K.'s most complex nuclear sites, for more than two decades. The company also supports radioactive waste treatment and storage **projects in Belgium**, drawing on experience across the nuclear waste lifecycle, from decommissioning and treatment to storage and long-term disposal.

At Jacobs, we're challenging today to reinvent tomorrow – delivering outcomes and solutions for the world's most complex challenges. With approximately $12 billion in annual revenue and a team of approximately 47,000, we provide end-to-end services in advanced manufacturing, cities & places, energy, environmental, life sciences, transportation and water. From advisory and consulting, feasibility, planning, design, program and lifecycle management, we're creating a more connected and sustainable world. See how at **jacobs.com** and connect with us on **LinkedIn**, **Instagram**, **X** and **Facebook**. Jacobs employs more than 300 people across Germany, operating from three offices.

Building on experience delivering major programs such as **SuedLink** — one of the world's largest underground high-voltage direct current (HVDC) transmission projects — Jacobs helps shape and deliver Germany's most critical infrastructure, energy, environmental and community programs, creating social value by improving resilience, driving economic growth and enhancing quality of life.

Certain statements contained in this press release constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements that do not directly relate to any historical or current fact. When used herein, words such as "expects," "anticipates," "believes," "seeks," "estimates," "plans," "intends," "future," "will," "would," "could," "can," "may," and similar words are intended to identify forward-looking statements. We base these forward-looking statements on management's current estimates and expectations, as well as currently available competitive, financial and economic data. Forward-looking statements, however, are inherently uncertain. There are a variety of factors that could cause business results to differ materially from our forward-looking statements including, but not limited to, uncertainties as to, the timing of the award of projects and funding and potential changes to the amounts provided for under the Infrastructure Investment and Jobs Act and other legislation and executive orders related to governmental spending, including any directive to federal agencies to reduce federal spending or the size of the federal workforce, and changes in U.S. or foreign tax laws, including the tax legislation enacted in the U.S. in July 2025, statutes, rules, regulations or ordinances, including the impact of, and changes to tariffs and retaliatory tariffs or trade policies, that may adversely impact our future financial positions or results of operations, as well as general economic conditions, including inflation and the actions taken by monetary authorities in response to inflation, changes in interest rates and foreign currency exchange rates, changes in capital markets, the possibility of a recession or economic downturn, and increased uncertainty and risks, including policy risks and potential civil unrest, relating to the outcome of elections across our key markets and elevated geopolitical tension and conflicts, among others. For a description of these and additional factors that may occur that could cause actual results to differ from our forward-looking statements, see our filings with the U.S. Securities and Exchange Commission. The company is not under any duty to update any of the forward-looking statements after the date of this press release to conform to actual results, except as required by applicable law.
