NASA Names Jacobs Large Business Prime Contractor of the Year

2021-08-26

DALLAS, Aug. 26, 2021 /PRNewswire/ -- **Jacobs** (NYSE:J) was selected as NASA's Agency-Level 2020 Small Business Industry Award (SBIA) Large Business Prime Contractor of the Year for NASA Kennedy Space Center (KSC). The Agency-Level award follows Jacobs' FY-20 Center-Level SBIA Large Business Prime Contractor of the Year Award at two NASA Centers: Langley Research Center (LaRC) and Kennedy Space Center (KSC).

"Jacobs' relationship with NASA goes back 60-plus years, and we truly value our longstanding collaboration to help to solve the most complex and hazardous challenges of space exploration," said Jacobs Critical Mission Solutions Executive Vice President and President Dawne Hickton. "As NASA's largest service provider, we are committed to providing integrated solutions in support of the agency's mission and the nation's space program."

Jacobs was nominated for its most recent award by NASA KSC, where the company serves as the prime contractor for NASA's Exploration Ground Systems program, responsible for the development and operations of flight vehicle components. The KSC nomination acknowledged Jacobs for its ground and flight application software team efforts **in support of the Artemis program** and critical missions to **resupply the International Space Station**, as well as overall service to the Test and Operations Support Contract.

NASA's goal of traversing space resonates strongly with Jacobs' workforce. As part of NASA's team at nine different facilities across the country (Wallops, Goddard, Langley, Kennedy, Marshall, Johnson, White Sands, Ames and Glenn), Jacobs is a provider and integrator of full lifecycle aerospace capability. This includes design and construction; base, mission and launch operations; sustaining capital maintenance; and secure and intelligent asset management, development, modification, and testing processes for fixed assets supporting national government, military, defense and NASA, as well as commercial space companies.

Certain statements contained in this press release constitute forward-looking statements as such term is defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and such statements are intended to be covered by the safe harbor provided by the same. Statements made in this release that are not based on historical fact are forward-looking statements. We base these forward-looking statements on management's current estimates and expectations as well as currently available competitive, financial and economic data. Forward-looking statements, however, are inherently uncertain. There are a variety of factors that could cause business results to differ materially from our forward-looking statements, including, but not limited to, the impact of the COVID-19 pandemic, including the emergence and spread of variants of COVID-19, and the related reaction of governments on global and regional market conditions and the company's business. For a description of some additional factors that may occur that could cause actual results to differ from our forward-looking statements, see our Annual Report on Form 10-K for the year ended October 2, 2020, and in particular the discussions contained under Item 1 - Business; Item 1A - Risk Factors; Item 3 - Legal Proceedings; and Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations, and our Quarterly Report on Form 10-Q for the quarter ended July 2, 2021, and in particular the discussions contained under Part I, Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations; Part II, Item 1 - Legal Proceedings; and Part II, Item 1A - Risk Factors, as well as the company's other filings with the Securities and Exchange Commission. The company is not under any duty to update any of the forward-looking statements after the date of this press release to conform to actual results, except as required by applicable law.
