The Chemours Company Awards Jacobs Long-Term Field Services Contract

2017-02-28

Success continues field services growth in the US, eighth win in two months

DALLAS--(BUSINESS WIRE)-- **Jacobs Engineering Group Inc.** (NYSE:JEC) received a five-year field services contract from The Chemours Company FC LLC for its Washington Works Facility in West Virginia. The Washington Works Facility is Chemours' largest production facility, producing fluoroproducts for construction, semiconductor, automotive, aerospace and household goods industries. This is the eighth field services win in two months as Jacobs continues to enhance its capabilities and presence in North America.

Jacobs will provide small capital construction, ongoing maintenance and turnaround development for the entire Chemours facility. The staff and trades professionals executing the contract will join a team of engineers and planners supporting the Chemours facility from Jacobs' Charleston, West Virginia office.

"We have a long and extensive history delivering maintenance services across North America and the U.K.," said Jacobs Global Field Services Senior Vice President Valerie Roberts. "This contract builds on the trust Chemours has in our engineering teams and reputation in maintenance services. It brings us one step closer to providing end-to-end solutions support – creating the best possible value for this facility and Chemours."

Jacobs is one of the world's largest and most diverse providers of full-spectrum technical, professional and construction services for industrial, commercial and government organizations globally. The company employs over 54,000 people and operates in more than 25 countries around the world. For more information, visit www.jacobs.com.

Statements made in this release that are not based on historical fact are forward-looking statements. We base these forward-looking statements on management's current estimates and expectations as well as currently available competitive, financial and economic data. Forward-looking statements, however, are inherently uncertain. There are a variety of factors that could cause business results to differ materially from our forward-looking statements. For a description of some of the factors which may occur that could cause actual results to differ from our forward-looking statements please refer to our Form 10-K for the year ended September 30, 2016, and in particular the discussions contained under Items 1 - Business, 1A - Risk Factors, 3 - Legal Proceedings, and 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations. We do not undertake to update any forward-looking statements made herein.
