

NEWS RELEASE

Leading Specialist Material Handling Company, Titan Cranes and Rigging Pty Ltd., Adopts Intelligent Fingerprinting Drug Screening System

2023-11-30

NEW YORK, Nov. 30, 2023 (GLOBE NEWSWIRE) -- **Intelligent Bio Solutions Inc.** (NASDAQ: INBS) ("INBS" or the "Company"), a medical technology company delivering intelligent, rapid, non-invasive testing solutions, today announced that **Titan Cranes and Rigging Pty Ltd.** ("Titan") has adopted the Company's unique **Intelligent Fingerprinting Drug Screening System**.

Since 2001, Titan has secured its spot as Australasia's leading specialist material handling company, providing state-of-the-art lifting equipment and labor to the country's largest construction projects. Australia's construction industry is a key economic driver and employer for approximately 9.6% of workers¹. The industry generates over \$360 billion in annual revenue, producing about 9% of Australia's gross domestic profit². Titan has adopted INBS' system across its operations as a new screening solution for its 350-plus employees.

The Intelligent Fingerprinting Drug Screening System is a fast and accurate testing solution that utilizes fingerprint sweat to screen for specific drugs of abuse and provide results within minutes. A small tamper-proof cartridge collects the sweat samples, which are then analyzed by a reader to determine if an employee is fit for duty. The Company's comprehensive solution also includes a lab-based confirmation service for non-negative on-site test results.

Harry Simeonidis, President and Chief Executive Officer at Intelligent Bio Solutions, said, "Our drug screening product's reputation is growing globally as a sound and reliable screening solution. We're pleased to see our system being implemented by Titan as a non-invasive, clean, fast screening test, providing quick on-site results and supporting operational efficiency. We're motivated to expand our reach further within the construction industry

and assist more companies with mitigating drug use and potential impairment at work.”

An introductory video demonstrating the Intelligent Fingerprinting Drug Screening System is available [here](#).

About **Intelligent Bio Solutions Inc.**

Intelligent Bio Solutions Inc. (NASDAQ: INBS) is a medical technology company delivering innovative, rapid, non-invasive testing solutions. The Company believes that its Intelligent Fingerprinting Drug Screening System will revolutionize portable testing through fingerprint sweat analysis, which has the potential for broader applications in additional fields. Designed as a hygienic and cost-effective system, the test screens for recent use of drugs commonly found in the workplace, including opiates, cocaine, methamphetamine, and cannabis. With sample collection in seconds and results in under ten minutes, this technology would be a valuable tool for employers in safety-critical industries. Additionally, the Company's biosensor platform has the potential to test for up to 130 indications, ranging from glucose to immunological conditions and communicable diseases. The Company's current customer segments include construction, manufacturing and engineering, transport and logistics firms, drug treatment organizations, and coroners.
