

Correction -- United Natural Foods, Inc.

July 15, 2002

In the news release, United Natural Foods, Inc. Provides Outlook For 2003, issued earlier today by United Natural Foods, Inc. over PR Newswire, we are advised by a representative of the company that the first paragraph, first sentence, should read "in the range of \$1.15 billion to \$1.17 billion with net income" rather than "\$1.15 million to \$1.17 million" as originally issued inadvertently.
