US Army Awards L3Harris Nearly \$300 Million for Resilient Communications Program

2025-01-27

ROCHESTER, N.Y.--(BUSINESS WIRE)-- The U.S. Army has awarded L3Harris Technologies (NYSE:LHX) full-rate Manpack and Leader radio production orders under the Handheld, Manpack & Small Form Fit (HMS) program totaling nearly \$300 million.

These orders continue the proliferation of critical resilient communication solutions for U.S. soldiers and provide seamless interoperability from the tactical edge to the aerial tier in all operational environments, regardless of adversarial electronic warfare attacks.

“Effective, resilient communication dictates the operations tempo, and our solutions support the required comms-on-the-move to enable Combined Joint All-Domain Command and Control,” said Sam Mehta, President, Communication Systems, L3Harris. “Our battle-proven resilient communications systems deliver the latest capabilities to keep pace with the emerging threats on the modern battlefield, providing commanders greater flexibility.”

The modern cryptographic compliant L3Harris **AN/PRC-158** and **AN/PRC-163** radios can switch between Secure But Unclassified – Encrypted (SBU-E) and high-assurance levels of encryption, enabling interoperability with coalition partners. This capability meets the latest NSA encryption and decryption standards for Communications Security and Transmission Security.

This award follows **similar production orders** from 2023 totaling more than \$247 million under the same IDIQs.

The Army also selected L3Harris to deliver Mobile User Objective System-capable AN/PRC-158s for the service's MQ-1C Gray Eagle unmanned aircraft systems and the CH-47 Chinook rotary-wing fleet as part of the **Air-to-Ground Networking Radio program**.

About L3Harris Technologies

L3Harris Technologies is the Trusted Disruptor in the defense industry. With customers' mission-critical needs always in mind, our employees deliver end-to-end technology solutions connecting the space, air, land, sea and cyber domains in the interest of national security.
