Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Preferred Physicians Medical Risk Retention Group, a Mutual Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the Missouri Department of Commerce and Insurance.

The Missouri Department of Insurance recognizes only statutory accounting practices (SAP) prescribed or permitted by the State of Missouri for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Missouri Insurance Law. The National Association of Insurance Commissioners (NAIC) Accounting Practices and Procedures manual, as amended from time to time, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Missouri.

Although the Director of Insurance has the right to permit other specific practices that deviate from prescribed practices, no prescribed or permitted practices were used in the preparation of the accompanying financial statements.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by State of Missouri is shown below:

	SSAP #	F/S Page	F/S Line #	2025	2024
Net Income					
(1) State basis (Page 4, Line 20, Columns 1 & 2)	XXX	XXX	XXX	\$ (33,226)	\$
(2) State prescribed practices that are an increase / (decrease) from NAIC SAP:					
(3) State permitted practices that are an increase / (decrease) from NAIC SAP:					
(4) NAIC SAP (1-2-3=4)	XXX	XXX	XXX	<u>\$ (33,226)</u>	<u>\$</u>
Surplus					
(5) State basis (Page 3, Line 37, Columns 1 & 2)	XXX	XXX	XXX	\$ 5,000,000	\$ 5,000,000
(6) State prescribed practices that are an increase / (decrease) from NAIC SAP:					
(7) State permitted practices that are an increase / (decrease) from NAIC SAP:					
(8) NAIC SAP (5-6-7=8)	XXX	XXX	XXX	<u>\$ 5,000,000</u>	<u>\$ 5,000,000</u>

The term "none" or "no significant change" is used in the following notes to indicate that the Company does not have any items requiring disclosure under the respective note.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are generally computed by pro rata methods for direct business and are based on internal reports. The Company provides policyholders with an extended reporting endorsement at no additional charge in the event of the policyholder's death, permanent disability or retirement (DDR). Unearned premiums reserves for DDR premiums are determined actuarially. The Company offers on a limited basis a pre-funded extended reporting endorsement policy. Premiums collected in excess of the claims made policy for the pre-funded feature remain unearned until the extended reporting endorsement is issued.

Expenses in connection with acquiring new business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company also uses the following accounting policies:

- (1) Short-term investments are securities with an original maturity greater than three months but less than one year. Short-term investments are reported at amortized cost. Cash and cash equivalents includes all short-term, highly liquid investments that are readily convertible to cash and were acquired with an original maturity of three months or less.
- (2) Bonds not backed by loans are reported at amortized cost or at the lower of amortized cost or fair value, if rated NAIC 3 or below, in accordance with SSAP No. 26 - Bonds, Excluding Loan-Backed and Structured Securities. Premiums and discounts on bonds are amortized or accreted, respectively, over the life of the related debt security as an adjustment to yield using the scientific method. Interest income is recognized when it is earned. Additionally, per SSAP No. 26R, SVO-identified investments are reported at fair value.
- (3) Common stocks - None
- (4) Preferred stocks - None
- (5) The Company has no investment in mortgage loans.
- (6) Loan-backed securities are reported at amortized cost provided that the SVO's designation is 1 or 2. If the SVO's designation is 3 or greater, the security is reported at the lower of amortized cost or fair value. The Company uses the prospective method to make valuation adjustments when necessary.
- (7) Investments in subsidiaries, controlled and affiliated entities - None

(2) Fair value measurements in Level 3 of the fair value hierarchy - None

(3) The Company's policy is to recognize transfers between levels at the end of the reporting period.

(4) The Company values securities in the Level 2 category using market data obtained from sources independent of the reporting entity (observable inputs). Level 2 inputs generally include quoted prices in markets that are not active, quoted prices for similar assets or liabilities, and results from pricing models that use observable inputs such as interest rates and yield curves that are generally available at commonly quoted intervals.

The fair values for securities included in the Level 2 category have been developed by third party, nationally recognized pricing services. These services use complex methodologies to determine values for securities and subject the values they develop to quality control reviews. Management reviews service-provided values for reasonableness by comparing data among pricing services and to available market and trade data. Values that appear inconsistent are further reviewed for appropriateness. If a value does not appear reasonable, the valuation is discussed with the service that provided the value and would be adjusted, if necessary. No such adjustments have been necessary to date.

The Company values assets classified as Level 3 in the Fair Value Hierarchy using the Company's own assumptions about market participant assumptions based on the best information available in the circumstances (non-observable inputs). Level 3 inputs are used in situations where little or no Level 1 or 2 inputs are available or are inappropriate given the particular circumstances. Level 3 inputs include results from pricing models for which some or all of the inputs are not observable, discounted cash flow methodologies, single non-binding broker quotes and adjustments to externally quoted prices that are based on management judgment or estimation.

Additional information regarding the valuation methodologies used by the pricing services by security type is included in C. *Fair values of financial instruments* below.

Cash Equivalents	11,171,650	11,171,650	11,171,650

The Company values securities in the Level 1 category using unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

Issuer Credit Obligations in Level 1 are comprised of Debt Fund and are reported at systematic value.

Cash equivalents in Level 1 are comprised of money market mutual funds that are reported at fair value using net asset value as a practical expedient as prescribed by the NAIC.

Level 2 Valuation Methodologies

Below is a summary description of the valuation methodologies primarily used by the pricing services for Issuer Credit Obligations included in the Level 2 category, by security type:

U.S. Government obligations, including treasury bills classified as cash equivalents and/or short term investments, are valued based on quoted prices for identical assets, or, in markets that are not active, quotes for similar assets, taking into consideration adjustments for variations in contractual cash flows and yields to maturity.

Level 3 Valuation Methodologies

Below is a summary description of the valuation methodologies primarily used by the pricing services for Issuer Credit Obligations included in the Level 3 category, by security type:

Corporate Debt consists of corporate bonds. Valuations are determined using dealer quotes for similar securities or discounted cash flow models using yields currently available for similar securities. Similar securities are defined as securities having like terms and payment features that are of comparable credit quality. Assessments of credit quality are based on nationally recognized statistical rating organization (NRSRO) ratings, if available, or are subjectively determined by management if not available.

SCHEDULE P INTERROGATORIES

- 1. The following questions relate to yet-to-be-issued Extended Reporting Endorsements (EREs) arising from Death, Disability, or Retirement (DDR) provisions in Medical Professional Liability Claims Made insurance policies. EREs provided for reasons other than DDR are not to be included.
- 1.1 Does the company issue Medical Professional Liability Claims Made insurance policies that provide tail (also known as an extended reporting endorsement, or "ERE") benefits in the event of Death, Disability, or Retirement (DDR) at a reduced charge or at no additional cost? If the answer to question 1.1 is "no", leave the following questions blank.
If the answer to question 1.1 is "yes", please answer the following questions:..... YES
- 1.2 What is the total amount of the reserve for that provision (DDR Reserve), as reported, explicitly or not, elsewhere in this statement (in dollars)?..... \$ 1,500,000
- 1.3 Does the company report any DDR reserve as Unearned Premium Reserve per SSAP No. 65?..... YES
- 1.4 Does the company report any DDR reserve as loss or loss adjustment expense reserve?..... NO

- 1.6 If the company reports DDR reserve as loss or loss adjustment expense reserve, please complete the following table corresponding to where these reserves are reported in Schedule P:

Years in Which Premiums Were Earned and Losses Were Incurred	DDR Reserve Included in Schedule P, Part 1F, Medical Professional Liability Column 24: Total Net Losses and Expenses Unpaid

- 2. The definition of allocated loss adjustment expenses (ALAE) and, therefore, unallocated loss adjustment expenses (ULAE) was changed effective January 1, 1998. This change in definition applies to both paid and unpaid expenses. Are these expenses (now reported as "Defense and Cost Containment" and "Adjusting and Other") reported in compliance with these definitions in this statement?..... YES
- 3. The Adjusting and Other expense payments and reserves should be allocated to the years in which the losses were incurred based on the number of claims reported, closed and outstanding in those years. When allocating Adjusting and Other expense between companies in a group or a pool, the Adjusting and Other expense should be allocated in the same percentage used for the loss amounts and the claim counts. For reinsurers, Adjusting and Other expense assumed should be reported according to the reinsurance contract. For Adjusting and Other expense incurred by reinsurers, or in those situations where suitable claim count information is not available, Adjusting and Other expense should be allocated by a reasonable method determined by the company and described in Interrogatory 7, below. Are they so reported in this Statement?..... YES

Schedule P must be completed gross of non-tabular discounting. Work papers relating to discount calculations must be available for examination upon request.

Discounting is allowed only if expressly permitted by the state insurance department to which this Annual Statement is being filed.

 - 5.2. Surety..... \$
- 6. Claim count information is reported per claim or per claimant (indicate which)..... CLAIM
If not the same in all years, explain in Interrogatory 7.
- 7.1. The information provided in Schedule P will be used by many persons to estimate the adequacy of the current loss and expense reserves, among other things. Are there any especially significant events, coverage, retention or accounting changes that have occurred that must be considered when making such analyses?..... YES
- 7.2. An extended statement may be attached
Claim count has been revised to be more consistent with ProAssurance group, which counts files by claim, not by claimant. Count triangles have been restated. The payments and reserves attributable to these are in Schedule P. The reserve for "DDR" detailed in line 1.2 above is the gross amount which is ceded in its entirety to NORCAL Insurance Company.
