\$3 million will support energy bill assistance and home weatherization improvements

CAYCE, S.C. (Oct. 12, 2026) – Dominion Energy South Carolina is expanding its year-round assistance program with a three-year, \$3 million commitment to help eligible customers with their energy bill and reduce monthly usage through weatherization and other energy efficiency upgrades.

As part of its commitment to customers, Dominion Energy dedicated additional shareholder-funded dollars to EnergyShare following stakeholder feedback earlier this year.

“EnergyShare is one of the ways we can lend a helping hand to our neighbors across the Palmetto State, including older adults and people living with disabilities, and reinforce our commitment to the customers and communities we’re privileged to serve,” said Kaytee Watson, manager of customer assistance for Dominion Energy South Carolina. “Whether it’s helping someone through a tough month or making lasting changes to their home that can help them use less energy for years to come, we are here to help.”

In addition to direct bill assistance and weatherization, EnergyShare supports critical health and safety repairs and energy-saving improvements for eligible Dominion Energy South Carolina residential electric customers. Since 2020, the program has helped more than 7,000 customers in South Carolina.

Program funds will be administered through the South Carolina Office of Economic Opportunity and community action agencies serving Dominion Energy South Carolina customers. To apply or learn more about EnergyShare and local community action agencies, visit DominionEnergy.com/EnergyShareSC.
