Retail Fund performance rankings for each fund are measured on a consistent basis against the most appropriate peer group or index. Peer groupings of Columbia funds are defined by Lipper category and are based on the Primary Share Class (i.e., Institutional if available, otherwise Institutional 3 share class), net of fees. Peer groupings of Threadneedle are defined by either IA or Morningstar index and are based on Primary Share Class. Comparisons to Index are measured Gross of Fees.					
To calculate asset weighted performance, the sum of the total assets of the funds with above median ranking are divided by total assets of all funds. Funds with more assets will receive a greater share of the total percentage above or below median.					
Aggregated Asset Allocation Funds may include funds that invest in other Columbia or Threadneedle branded mutual funds included in both equity and fixed income.					
Morningstar as of 03/31/25. Columbia funds are available for purchase by U.S. customers. Out of 89 Columbia funds rated (based on primary share class), 3 received a 5-star Overall Rating and 37 received a 4-star Overall Rating. Out of 136 Threadneedle funds rated (based on highest-rated share class), 15 received a 5-star Overall Rating and 46 received a 4-star Overall Rating. The Overall Morningstar Rating is derived from a weighted average of the performance figures associated with its 3-, 5- and 10-year (if applicable) Morningstar Rating metrics.
