MuleSoft is the Only Company Named a Leader in Both the Gartner Magic Quadrant for Enterprise Integration Platform as a Service (iPaaS) and the Magic Quadrant for Full Life Cycle API Management

SAN FRANCISCO – April 25, 2019 – MuleSoft, provider of the leading platform for building [application networks](#), today announced that Gartner has positioned MuleSoft as a Leader in its 2019 Magic Quadrant for Enterprise Integration Platform as a Service ([iPaaS](#)). MuleSoft has also been named a Leader times in a row in Gartner's 2018 Magic Quadrant for Full Life Cycle API Management, making it the only vendor recognized as a Leader in both of those reports. Both reports, including the Magic Quadrant graphics, are available at <https://www.mulesoft.com/lp/reports/gartner-magic-quadrant-leader>.

Integration is one of the most strategic initiatives a company can invest in today, and by combining API and integration capabilities in one product, MuleSoft is uniquely positioned as the engine for digital transformation. By using [APIs](#) to unlock data across nearly any system or application, MuleSoft customers can connect their technology building blocks in a standardized way. As a result, digital assets become pluggable and reusable, creating an application network that is scalable and built for change.

“Innovation velocity is the lifeblood of the enterprise, with APIs unlocking data and capabilities of every application and integrations enabling connectivity between these applications. Together, these APIs and integrations build our customers' application networks. With Anypoint Platform's breadth of capabilities, our customers can unlock the data trapped in their systems, gain new levels of visibility across their application networks, and make it easy to self-serve and collaborate across business and IT,” said Mark Dao, chief product officer, MuleSoft. “Anypoint Platform is built from the ground up to enable reuse so business users and developers can collaborate together to drive innovation across their company.”

Gartner, Inc., “Magic Quadrant for Enterprise Integration Platform as a Service” by Eric Thoo, Massimo Pezzini, Keith Guttridge, Bindi Bhullar, April 23, 2019.

Gartner, Inc., “Magic Quadrant for Full Life Cycle API Management,” by Paolo Malinverno, Mark O'Neill, April 30, 2018. The report was previously titled Magic Quadrant for Application Services Governance.
