

**Investor Supplement
First Quarter 2024**

Caution Regarding Forward-Looking Statements

This Investor Supplement may contain or incorporate by reference information that includes or is based on forward-looking statements within the meaning of the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995. We caution investors that these forward-looking statements are not guarantees of future performance, and actual results may differ materially. Such statements involve known and unknown risks, uncertainties, and other factors, including but not limited to:

- changes in the frequency and severity of insurance claims;
- claim development and the process of estimating claim reserves;
- the impacts of inflation;
- changes in the interest rate environment;
- supply chain disruption;
- product demand and pricing;
- effects of governmental and regulatory actions;
- litigation outcomes and trends;
- investment risks;
- cybersecurity risks;
- impact of catastrophes; and
- other risks and uncertainties detailed in Kemper's Annual Report on Form 10-K and subsequent filings with the Securities and Exchange Commission ("SEC").

Non-GAAP Financial Measures

This document contains non-GAAP financial measures to analyze the Company's operating performance for the periods presented. Because the Company's calculation of these measures may differ from similar measures used by other companies, investors should be careful when comparing the Company's non-GAAP financial measures to those of other companies. For detailed disclosures on non-GAAP financial measures please refer to the "Definitions of Non-GAAP Financial Measures" on pages 28-31.

¹In the first quarter of 2024, the Company changed its presentation of the details of investment performance to report interest expense incurred on Federal Home Loan Bank ("FHLB") borrowings as an offset to interest on fixed income securities since FHLB borrowings are used for spread lending purposes. The interest expense incurred on FHLB borrowings was previously reported within Other Investment Expenses. The prior period amounts presented above have been updated to reflect this change in presentation.

²Reduced by interest expense incurred on FHLB borrowings used for spread lending purposes of \$5.2 million, \$5.2 million, \$5.3 million, \$7.5 million, \$4.7 million, for the three months ended March 31, 2024, December 31, 2023, September 30, 2023, June 30, 2023 and March 31, 2023, respectively.

Kemper Corporation
Definitions of Non-GAAP Financial Measures

The Company believes that investors' understanding of Kemper's performance is enhanced by the disclosure of the following non-GAAP financial measures. The methods for calculating these measures may differ from those used by other companies and therefore comparability may be limited.

Adjusted Consolidated Net Operating Income (Loss) is an after-tax, non-GAAP financial measure and is computed by excluding from Net Income (Loss) attributable to Kemper Corporation the after-tax impact of:

- (i) Change in Fair Value of Equity and Convertible Securities;
- (ii) Net Realized Investment Gains (Losses);
- (iii) Impairment Losses;
- (iv) Acquisition and Disposition Related Transaction, Integration, Restructuring and Other Costs;
- (v) Debt Extinguishment, Pension Settlement and Other Charges;
- (vi) Goodwill Impairment Charges;
- (vii) Non-Core Operations; and
- (viii) Significant non-recurring or infrequent items that may not be indicative of ongoing operations;

Significant non-recurring items are excluded when (a) the nature of the charge or gain is such that it is reasonably unlikely to recur within two years, and (b) there has been no similar charge or gain within the prior two years. The most directly comparable GAAP financial measure is Net Income (Loss) attributable to Kemper Corporation. There were no applicable significant non-recurring items that the Company excluded from the calculation of Adjusted Consolidated Net Operating Income (Loss) for the three months ended March 31, 2024 or 2023.

The Company believes that Adjusted Consolidated Net Operating Income (Loss) provides investors with a valuable measure of its ongoing performance because it reveals underlying operational performance trends that otherwise might be less apparent if the items were not excluded. Change in Fair Value of Equity and Convertible Securities, Net Realized Investment Gains (Losses) and Impairment Losses related to investments included in the Company's results may vary significantly between periods and are generally driven by business decisions and external economic developments such as capital market conditions that impact the values of the Company's investments, the timing of which is unrelated to the insurance underwriting process. Acquisition and Disposition Related Transaction, Integration, Restructuring and Other Costs may vary significantly between periods and are generally driven by the timing of acquisitions and business decisions which are unrelated to the insurance underwriting process. Debt Extinguishment, Pension Settlement and Other Charges relate to (i) loss from early extinguishment of debt, which is driven by the Company's financing and refinancing decisions and capital needs, as well as external economic developments such as debt market conditions, the timing of which is unrelated to the insurance underwriting process; (ii) settlement of pension plan obligations which are business decisions made by the Company, the timing of which is unrelated to the underwriting process; and (iii) other charges that are non-standard, not part of the ordinary course of business, and unrelated to the insurance underwriting process. Goodwill Impairment Charges are excluded because they are infrequent and non-recurring charges. Non-Core Operations includes the results of our Preferred Insurance business which we expect to fully exit. These results are excluded because they are irrelevant to our ongoing operations and do not qualify for Discontinued Operations under Generally Accepted Accounting Principles ("GAAP"). Significant non-recurring items are excluded because, by their nature, they are not indicative of the Company's business or economic trends. The preceding non-GAAP financial measures should not be considered a substitute for the comparable GAAP financial measures, as they do not fully recognize the profitability of the Company's businesses.

Kemper Corporation
Definitions of Non-GAAP Financial Measures (continued)

A reconciliation of Net Income (Loss) attributable to Kemper Corporation to Adjusted Consolidated Net Operating Income (Loss) is presented below:

<i>Dollars in Millions (Unaudited)</i>	Three Months Ended

Kemper Corporation
Definitions of Non-GAAP Financial Measures (continued)

Return on Tangible Shareholders' Equity is a calculation that uses a non-GAAP financial measure. It is calculated by dividing the period's net income attributable to Kemper Corporation by the average shareholders' equity excluding net unrealized gains and losses on fixed maturities, the change in discount rate on future life policyholder benefits and goodwill. Return on Shareholders' Equity is the most directly comparable GAAP measure. We use this non-GAAP measure to identify and analyze the change in performance attributable to management efforts between periods. The Company believes this non-GAAP financial measure is useful to investors because it eliminates the effect of items that can fluctuate significantly from period to period and are generally driven by economic developments, primarily capital market conditions, the magnitude and timing of which are not influenced by management. The Company believes it enhances understanding and comparability of performance by highlighting underlying business activity and profitability drivers.

A reconciliation of Return on Shareholders' Equity to Return on Tangible Shareholders' Equity is presented below:

<i>Dollars in Millions (Unaudited)</i>	Three Months Ended				
	Mar 31, 2024	Dec 31, 2023	Sep 30, 2023	Jun 30, 2023	Mar 31, 2023
Numerator:					
Annualized Net Income (Loss) attributable to Kemper Corporation	\$ 285.2	\$ 205.6	\$ (585.2)	\$ (388.4)	\$ (320.4)
Denominator:					
Average Shareholders' Equity ¹	\$ 2,547.5	\$ 2,433.3	\$ 2,436.8	\$ 2,579.6	\$ 2,658.8
Less: Average Net Unrealized Gains and Losses on Fixed Maturities	576.1	716.9	770.3	607.3	645.5
Less: Average Change in Discount Rate on Future Life Policyholder Benefits	(216.3)	(286.7)	(303.6)	(174.3)	(197.7)
Less: Average Goodwill	(1,250.7)	(1,250.7)	(1,250.7)	(1,275.5)	(1,300.3)
Average Tangible Shareholders' Equity ¹	<u>\$ 1,656.6</u>	<u>\$ 1,612.8</u>	<u>\$ 1,652.8</u>	<u>\$ 1,737.1</u>	<u>\$ 1,806.3</u>
Return on Shareholders' Equity:					
Return on Shareholders' Equity	11.2 %	8.4 %	(24.0)%	(15.1)%	(12.1)%
Return on Tangible Shareholders' Equity	17.2 %	12.7 %	(35.4)%	(22.4)%	(17.7)%

¹Average shareholders' equity and average tangible shareholders' equity for the three months ended is the simple average of the beginning and ending balances for the period. Average shareholders' equity and average tangible shareholders' equity on a year-to-date basis is the (a) the sum of the balance at the beginning of the year and the ending balance for each quarter within that year divided by (b) the number of quarters in the period presented plus one.

Underlying Combined Ratio is a non-GAAP financial measure. It is computed by adding the Current Year Non-catastrophe Losses and LAE Ratio with the Insurance Expense Ratio. The most directly comparable GAAP financial measure is the Combined Ratio, which is computed by adding Total Incurred Losses and LAE Ratio, including the impact of catastrophe losses and loss and LAE reserve development from prior years, with the Insurance Expense Ratio.

The Company believes Underlying Losses and LAE and the Underlying Combined Ratio are useful to investors and uses these financial measures to reveal the trends in the Company's Property & Casualty Insurance segment that may be obscured by catastrophe losses and prior-year reserve development. These catastrophe losses may cause the Company's loss trends to vary significantly between periods as a result of their incidence of occurrence and magnitude and can have a significant impact on incurred losses and LAE and the Combined Ratio. Prior-year reserve developments are caused by unexpected loss development on historical reserves. Because reserve development relates to the re-estimation of losses from earlier periods, it has no bearing on the performance of the Company's insurance products in the current period. The Company believes it is useful for investors to evaluate these components separately and in the aggregate when reviewing the Company's underwriting performance.

Kemper Corporation
Definitions of Non-GAAP Financial Measures (continued)

Tangible Book Value Per Share is a calculation that uses a non-GAAP financial measure. It is calculated by dividing shareholders' equity after excluding the after-tax impact of net unrealized gains and losses on fixed income securities, the change in discount rate on future life policyholder benefits and goodwill by total Common Shares Issued and Outstanding. Book value per share is the most directly comparable GAAP financial measure. The Company uses the trends in book value per share excluding the after-tax impact of net unrealized gains and losses on fixed income securities, the change in discount rate on future life policyholder benefits and goodwill in conjunction with book value per share to identify and analyze the change in net worth excluding goodwill attributable to management efforts between periods. The Company believes the non-GAAP financial measure is useful to investors because it eliminates the effect of items that can fluctuate significantly from period to period and are generally driven by economic developments, primarily capital market conditions, the magnitude and timing of which are not influenced by management. The Company believes it enhances understanding and comparability of performance by highlighting underlying business activity and profitability drivers.

A reconciliation of Book Value Per Share to Tangible Book Value Per Share is presented below:
