Caution Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q, including, but not limited to, Management’s Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”), Risk Factors and the accompanying unaudited Condensed Consolidated Financial Statements (including the notes thereto) of Kemper Corporation (“Kemper”) and its subsidiaries (individually and collectively referred to herein as the “Company”), as well as a variable interest entity (“VIE”) in which the Company is considered the primary beneficiary, may contain or incorporate by reference information that includes or is based on forward-looking statements within the meaning of the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995.

Forward-looking statements give expectations or forecasts of future events. The reader can identify these statements by the fact that they do not relate strictly to historical or current facts. They use words such as “believe(s),” “goal(s),” “target(s),” “estimate(s),” “anticipate(s),” “forecast(s),” “project(s),” “plan(s),” “intend(s),” “expect(s),” “might,” “may,” “could” and other terms of similar meaning. Forward-looking statements, in particular, include statements relating to future actions, prospective services or products, future performance or results of current and anticipated services or products, sales efforts, expenses, the outcome of contingencies such as legal proceedings, trends in operations and financial results.

Any or all forward-looking statements may turn out to be wrong, and, accordingly, Kemper cautions readers not to place undue reliance on such statements. Kemper bases these statements on current expectations and the current economic environment as of the date of this Quarterly Report on Form 10-Q. They involve a number of risks and uncertainties that are difficult to predict. These statements are not guarantees of future performance, and actual results could differ materially from those expressed or implied in the forward-looking statements. Forward-looking statements can be affected by inaccurate assumptions or by known or unknown risks and uncertainties that may be important in determining the Company’s actual future results and financial condition.

In addition to the factors discussed under Item 1A., “Risk Factors,” of Part I of Kemper’s Annual Report on Form 10-K, filed with the U.S. Securities and Exchange Commission (the “SEC”), for the year ended December 31, 2025 (the “2025 Annual Report”), the reader should consider the following list of factors that, among others, could cause the Company’s actual results and financial condition to differ materially from estimated results and financial condition.

Factors related to the legal and regulatory environment in which Kemper and its subsidiaries operate

- Evolving policies, practices and interpretations by regulators and courts that increase operating costs and potential liabilities, particularly any that involve retroactive application of new requirements;
- Adverse outcomes in litigation, investigations or other legal or regulatory proceedings involving Kemper or its subsidiaries or affiliates, including proceedings related to its business practices or business practices in the insurance industry;
- Governmental actions, including, but not limited to, implementation of new laws and regulations, and court decisions interpreting existing and future laws and regulations or policy provisions;
- Uncertainties related to regulatory approval of insurance rates, policy forms, insurance products, license applications, business withdrawals, dividends from insurance subsidiaries, reinsurance arrangements, acquisitions of businesses or strategic initiatives and other matters within the purview of insurance regulators;
- Increased costs required to address new legal and regulatory requirements; liabilities, costs and other impacts arising from investigations or developments related to cybersecurity, privacy and data governance, including, without limitation, cyber incidents that have occurred or may occur;

Factors relating to insurance claims and related reserves in the Company’s insurance businesses

- The incidence, frequency and severity of catastrophes occurring in any particular reporting period or geographic area, including natural disasters, pandemics and terrorist attacks or other man-made events;
- The frequency and severity of insurance claims (including those associated with catastrophe losses and pandemics);
- The interest rate environment, including proposed rate changes by the U.S. Federal Reserve, which may cause material fluctuations in our life policyholder benefit reserves;
- Changes in facts and circumstances affecting assumptions used in determining loss and loss adjustment expenses (“LAE”) reserves, including, but not limited to, the frequency and severity of insurance claims, changes in claims handling procedures and closure patterns, development patterns and the impacts of technological and other environmental conditions;
- The impact of inflation on insurance claims, including, but not limited to, the effects on material costs, the effects on personal injury claims of increasing medical costs and the effects on severity of claims resulting from a catastrophe;

- The effects on property claims attributed to supply chain disruption, in part potentially as a result of the impact of tariffs recently imposed by the US Government pursuant to the International Emergency Economic Power Act and scarcity of resources available to rebuild damaged structures and repair damaged property, including labor and materials and the amount of salvage value recovered for damaged property;
- The rising costs of insurance claims from increased and more targeted litigation, higher jury awards, broader definitions of liability, and other effects of legal and societal trends referred to as legal system abuse or social inflation;
- Developments related to insurance policy claims and coverage issues, including, but not limited to, interpretations, pronouncements or decisions by courts or regulators that may govern or influence losses incurred in connection with hurricanes and other catastrophes;
- Orders, interpretations or other actions by regulators that impact the reporting, adjustment and payment of claims;
- Changes in the pricing or availability of reinsurance, or in the financial condition of reinsurers and amounts recoverable therefrom;

Factors related to the Company's ability to compete

- Changes in the ratings of Kemper and/or its insurance company subsidiaries by rating agencies with regard to credit, financial strength, claims paying ability and other areas on which the Company is rated;
- The level of success and costs incurred in realizing or maintaining economies of scale, integrating acquired businesses and implementing significant business initiatives and the timing of the occurrence or completion of such events, including, but not limited to, those related to expense and claims savings, the operation of Kemper Reciprocal, consolidations, reorganizations and technology;
- Absolute and relative performance of the Company's products and services, including, but not limited to, the level of success achieved in designing and introducing new insurance products and services;
- Difficulties with technology, data and network security (including as a result of cyber attacks that have occurred or may occur), outsourcing relationships or cloud-based technology that could negatively impact the Company's ability to conduct business;
- The ability of the Company and its third-party service providers to maintain the availability and required performance of critical systems and manage technology initiatives cost-effectively to address insurance industry developments and regulatory requirements;
- Heightened competition, including, with respect to pricing, consolidations of existing competitors or entry of new competitors and alternate distribution channels, introduction of new technologies, use and enhancements of telematics, refinements of existing products and development of new products by current or future competitors;
- Expected benefits and synergies from mergers, acquisitions, divestitures and/or strategic initiatives that may not be realized to the extent anticipated, within expected time frames or at all, due to a number of factors including, but not limited to, the loss of key agents/brokers, customers or employees, increased costs, fees, expenses and related charges and delays caused by unanticipated developments or factors outside of the Company's control;
- The successful formulation and execution of the Company's plan with regard to corporate strategy and significant operational changes;
- Increase in competition as a result of new competitors to the property and casualty insurance industry, the existence of competitors that receive substantial infusion of capital or access to third-party capital, or the entry of established and well-capitalized property and casualty insurance companies into the specialty property and casualty automobile insurance market;

Factors related to the business environment in which Kemper and its subsidiaries operate

- Changes in general economic conditions, including those related to, without limitation, performance of financial markets, increased volatilities in financial market conditions, interest rates, inflation, unemployment rates, significant global catastrophes and/or pandemics, tariffs and international trade policies, such as the recent implementation of tariffs, and fluctuating values of particular investments held by the Company;
- Absolute and relative performance of investments made by the Company;
- Changes in insurance industry trends and significant industry developments;
- Changes in consumer trends, including changes in number of miles driven by automobile insurance policyholders, and significant consumer or product developments;
- Changes in capital requirements, including the calculations thereof, used by regulators and rating agencies;

- Regulatory, accounting or tax changes that may affect the Company's earnings, the cost of, or demand for, the Company's products or services or after-tax returns from the Company's investments;
- The impact of required participation in state windpools and joint underwriting associations, residual market assessments and assessments for insurance industry insolvencies;
- Changes in distribution channels, methods or costs resulting from changes in laws or regulations, legal proceedings or market forces;
- Increasing competition and higher costs for executive talent and employees with necessary skills and industry experience;
- Increased costs and risks related to cybersecurity that could materially affect the Company's operations including, but not limited to, data breaches, cyber attacks, virus or malware attacks, or other infiltrations or incidents affecting system integrity, availability and performance, and actions taken to minimize and remediate the risks of such events that have occurred or could occur;

Other risks and uncertainties described from time to time in Kemper's filings with the SEC

Kemper cannot provide any assurances that the results and outcomes contemplated in any forward-looking statements will be achieved or will be achieved in any particular timetable or that future events or developments will not cause such statements to be inaccurate. Kemper assumes no obligation to correct or update any forward-looking statements publicly for any changes in events or developments or in the Company's expectations or results subsequent to the date of this Quarterly Report on Form 10-Q. Kemper advises the reader, however, to consult any further disclosures Kemper makes on related subjects in its filings with the SEC.

Note 1 - Basis of Presentation and Accounting Policies

The unaudited Condensed Consolidated Financial Statements include the accounts of Kemper Corporation (“Kemper”) and its subsidiaries which include property and casualty insurance subsidiaries and life insurance subsidiaries (collectively referred to herein as the “Company”), and a variable interest entity (“VIE”) in which the Company is considered the primary beneficiary.

The unaudited Condensed Consolidated Financial Statements included herein have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”) on a basis consistent with reporting interim financial information pursuant to the rules and regulations for Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission (“SEC”) and include the accounts of Kemper Corporation, its subsidiaries, and a VIE in which the Company is considered the primary beneficiary. All intercompany accounts and transactions have been eliminated.

Certain financial information that is included in the annual financial statements, including certain financial statement footnote disclosures prepared in accordance with GAAP, is not required by the rules and regulations of the SEC for interim financial reporting and has been condensed or omitted. In the opinion of the Company’s management, the Condensed Consolidated Financial Statements include all adjustments necessary to fairly present the financial position, results of operations and cash flows for the periods presented. The preparation of financial statements requires significant management estimates. Due to this factor and other factors, such as the seasonal nature of some portions of the insurance business, annualizing the results of operations for the three months ended March 31, 2026 would not necessarily be indicative of the results expected for the full fiscal year. The accompanying Condensed Consolidated Financial Statements should be read in conjunction with the Company’s Consolidated Financial Statements and related notes included in Kemper’s Annual Report for the year ended December 31, 2025.

Adoption of New Accounting Guidance

The Company has adopted all recently issued accounting pronouncements with effective dates prior to April 1, 2026. There were no adoptions of such accounting pronouncements during the three months ended March 31, 2026 that had a material impact on the Company’s interim Condensed Consolidated Financial Statements.

Guidance Not Yet Adopted

In October 2023, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2023-06 *Disclosure Improvements: Codification Amendments in Response to the SEC’s Disclosure Update and Simplification Initiative*. This ASU amends the disclosure or presentation requirements related to various subtopics in the FASB Accounting Standards Codification. For SEC registrants, the effective date for each amendment will be the date on which the SEC’s removal of that related disclosure requirement from Regulation S-X or Regulation S-K becomes effective, with early adoption prohibited. The Company will monitor the removal of various requirements from the current regulations in order to determine when to adopt the related amendments, but does not anticipate the adoption of the new guidance will have a material impact on the Company’s Condensed Consolidated Financial Statements. The Company will continue to evaluate the impact of this guidance on its consolidated financial statements.

In November 2024, the FASB issued ASU 2024-03 *Disaggregation of Income Statement Expenses*, which requires companies to disclose, within the financial statement footnotes, the amount of inventory purchases, employee compensation, depreciation, intangible asset amortization, and depreciation, depletion, and amortization recognized as part of oil- and gas-producing activities that contribute to each income statement expense line item, as well as the amount of selling expenses incurred during each reporting period. ASU 2024-03 is effective for annual periods beginning after December 15, 2026 and interim periods within fiscal years beginning after December 15, 2027. The Company is currently evaluating the impact of this guidance on its consolidated financial statements.

In September 2025, the FASB issued ASU 2025-06 *Targeted Improvements to the Accounting for Internal-Use Software*, which replaces the existing project stage model with a principles-based approach. Software costs are capitalized when management has committed funding, and it is probable the project will be completed and used as intended. ASU 2025-06 also aligns disclosure requirements with those for property, plant, and equipment, eliminates separate intangible asset disclosures, and supersedes guidance on website development costs. ASU 2025-06 is effective for annual periods beginning after December 15, 2027, and interim periods within those fiscal years. The Company is currently evaluating the impact of this guidance on its consolidated financial statements.

Note 1 - Basis of Presentation and Accounting Policies (Continued)

In December 2025, the FASB issued ASU 2025-11 *Narrow-Scope Improvements*, which clarifies the scope and application of interim reporting requirements. The amendments enhance guidance on the form and content of interim financial statements, and consolidate required interim disclosures across the Codification, including a new disclosure principle requiring entities to describe events or changes since the last annual reporting period that have a material impact on interim results. ASU 2025-11 is effective for interim periods within annual reporting periods beginning after December 15, 2027. The Company is currently evaluating the impact of this guidance on its interim condensed consolidated financial statements.

In December 2025, the FASB issued ASU 2025-12 *Codification Improvements*, which include technical corrections, clarifications, and other minor amendments intended to improve the consistency and usability of the FASB Accounting Standards Codification. The Amendments address a variety of topics and are not intended to change existing accounting conclusions. ASU 2025-12 is effective for annual periods beginning after December 15, 2026, and interim periods within those fiscal years. The Company is currently evaluating the impact of this guidance on its consolidated financial statements.

Note 2 - Net (Loss) Income Per Unrestricted Share

A reconciliation of the numerator and denominator used in the calculation of Basic Net (Loss) Income Per Unrestricted Share and Diluted Net (Loss) Income Per Unrestricted Share for the three months ended March 31, 2026 and 2025 is presented below.

(Dollars in Millions, except per share amounts)	Three Months Ended	
	Mar 31, 2026	Mar 31, 2025
Net (Loss) Income attributable to Kemper Corporation	\$ (1.7)	\$ 99.7
Shares in Thousands		
Weighted-average Unrestricted Shares Outstanding	58,742.8	63,886.7
Equity-based Compensation Equivalent Shares	—	766.1
Weighted-average Unrestricted Shares and Equivalent Shares Outstanding Assuming Dilution	<u>58,742.8</u>	<u>64,652.8</u>
Net (Loss) Income attributable to Kemper Corporation per Unrestricted Share:		
(Per Unrestricted Share in Whole Dollars)		
Basic Net (Loss) Income Per Unrestricted Share	<u>\$ (0.03)</u>	<u>\$ 1.56</u>
Diluted Net (Loss) Income Per Unrestricted Share	<u>\$ (0.03)</u>	<u>\$ 1.54</u>

The number of shares of Kemper common stock that were excluded from the calculations of Equity-based Compensation Equivalent Shares and Weighted-average Unrestricted Shares and Equivalent Shares Outstanding Assuming Dilution because the effect of inclusion would be anti-dilutive was 2.1 million and 0.9 million for the three months ended March 31, 2026 and 2025, respectively.

Note 3 - Business Segments

The Company is engaged, through its subsidiaries, in the property and casualty insurance and life and health insurance businesses. The Company conducts its operations through two operating segments: Specialty Property & Casualty Insurance and Life Insurance.

The Specialty Property & Casualty Insurance segment's principal products are specialty personal automobile and commercial automobile insurance. These products are distributed primarily through independent agents and brokers. The Life Insurance segment's principal products are individual life, accident, supplemental health and property insurance. Career agents employed by the Company distribute these products. Corporate and Other operations include interest expense, board of directors' fees, general corporate expenses incurred by the Company which are not allocated to other businesses, and eliminations of certain inter-segment amounts. Non-Core Operations includes the results of the Preferred Insurance business which the Company expects to fully exit.

Segment Adjusted Net Operating Income

The Company analyzes the operating performance of each segment using segment adjusted net operating income. Segment adjusted net operating income does not equate to "net (loss) income" as determined in accordance with U.S. GAAP but is the measure of segment profit or loss used by the Company's Chief Operating Decision Maker ("CODM"), our interim President and CEO, to evaluate segment performance and allocate resources, and consistent with authoritative guidance, is the measure of segment performance presented below. Segment adjusted net operating income is calculated by adjusting each segment's income after income taxes for the following items:

- (i) Change in Fair Value of Equity and Convertible Securities;
- (ii) Net Realized Investment Gains;
- (iii) Impairment Losses;
- (iv) Acquisition and Disposition Related Transaction, Integration, Restructuring and Other Costs;
- (v) Debt Extinguishment, Pension Settlement and Other Charges;
- (vi) Goodwill Impairment Charges;
- (vii) Non-Core Operations; and
- (viii) Significant non-recurring or infrequent items that may not be indicative of ongoing operations

These items are important to an understanding of overall results of operations. Segment adjusted net operating income is not a substitute for income determined in accordance with U.S. GAAP, and the Company's definition of segment adjusted net operating income may differ from that used by other companies. The Company, however, believes that the presentation of segment adjusted net operating income, as measured for management purposes, enhances the understanding of results of operations by highlighting the underlying profitability factors of its businesses.

Total Segment, Corporate and Other, and Non-Core Operations assets at March 31, 2026 and December 31, 2025 were:

Note 4 - Property and Casualty Insurance Reserves

Property and Casualty Insurance Reserve activity for the three months ended March 31, 2026 and 2025 was:

(Dollars in Millions)	Three Months Ended	
	Mar 31, 2026	Mar 31, 2025
Property and Casualty Insurance Reserves:		
Gross of Reinsurance at Beginning of Year	\$ 2,910.8	\$ 2,611.9

Property and Casualty Insurance Reserves, Net of Reinsurance at Beginning of Year	2,885.2	2,587.6
Incurred Losses and LAE related to:		
Current Year	750.6	698.7
Prior Years	6.3	(1.1)
Total Incurred Losses and LAE	756.9	697.6
Paid Losses and LAE related to:		
Current Year	187.9	192.5
Prior Years	476.7	480.4
Total Paid Losses and LAE	664.6	672.9
Property and Casualty Insurance Reserves, Net of Reinsurance at End of Period	2,977.5	2,612.3
Plus: Reinsurance Recoverables at End of Period	22.0	25.3
Property and Casualty Insurance Reserves, Gross of Reinsurance at End of Period	<u>\$ 2,999.5</u>	<u>\$ 2,637.6</u>

Property and Casualty Insurance Reserves are estimated based on historical experience patterns and current economic trends. Actual loss experience and loss trends may differ from these historical experience patterns and economic conditions. Loss experience and loss trends emerge over several years from the dates of loss inception. The Company monitors such emerging loss trends on a quarterly basis. Changes in such estimates are included in the Condensed Consolidated Statements of (Loss) Income in the period of change. Additionally, the Company reviews if any premium revisions are appropriate as a result of any incurred losses and loss adjustment expenses (“LAE”) related to prior years recorded in the current period. For the three months ended March 31, 2026 and 2025, no premium revisions were deemed necessary solely as a result of any incurred losses or LAE related to prior years recorded in the current year.

For the three months ended March 31, 2026, the net adverse prior year development of \$6.3 million included \$6.2 million of adverse development on prior accident years attributable to evolving loss patterns and higher defense costs associated with attorney-represented bodily injury coverages in the Commercial Automobile product line, partially offset by favorable development on other Specialty Personal Automobile and Commercial Automobile coverages, particularly Specialty Personal Automobile bodily injury coverages, and fewer extra-contractual losses.

For the three months ended March 31, 2025, the Company recognized \$4.9 million of favorable reserve development on prior accident years attributable to improved loss patterns related to personal injury protection, property damage, and bodily injury coverages in the Specialty Personal Automobile product line. Additionally, the Company experienced \$1.4 million of favorable development driven by improved prior year catastrophe loss experience and lower prior year claim administrative costs within Non-Core Operations. This development was partially offset by adverse development on the Commercial Automobile product line of \$5.3 million, which was primarily attributable to evolving loss patterns and higher defense costs associated with attorney-represented bodily injury coverages.

The Company cannot predict whether loss and LAE reserves will develop favorably or unfavorably from the amounts reported in the Condensed Consolidated Financial Statements. Any such development could have a material effect on the Company’s consolidated financial results for a given period.

Note 5 - Liability for Future Policyholder Benefits

The Company's Life Insurance Reserves are reported using the Company's estimate of its liability for future policyholder benefits. The liability for future policyholder benefits is grouped by contract type and issue year into cohorts consistent with the grouping used in estimating the associated liability. Significant assumption inputs to the calculation of the liability for future policyholder benefits include mortality, lapses, and discount rates (both accretion and current). The liability is adjusted for differences between actual and expected experience.

The following tables summarize balances and changes in the present value of expected net premiums, present value of expected future policyholder benefits and net liability for future policyholder benefits as of and for the three months ended March 31, 2026 and 2025:

(Dollars in Millions)		Three Months Ended

Note 6 - Investments (Continued)

The Company's maximum exposure to loss at March 31, 2026 is limited to the total carrying value of \$176.1 million. In addition, the Company had outstanding commitments totaling approximately \$108.2 million to fund Equity Method Limited Liability Investments at March 31, 2026. At March 31, 2026, 3.7% of Equity Method Limited Liability Investments were reported without a reporting lag, 1.5% of the total carrying value were reported with a one-month lag, and the remainder were reported with a greater than one-month but less than or equal to three-month lag.

There were no unsettled purchases and \$2.2 million of unsettled sales of Equity Method Limited Liability Investments at March 31, 2026. As of December 31, 2025, there were no unsettled purchases or sales of Equity Method Limited Liability Investments. Unsettled purchases and sales of Equity Method Limited Liability Investments are carried within Accrued Expenses and Other Liabilities and Other Receivables, respectively, on the Condensed Consolidated Balance Sheets.

Loans to Policyholders

Loans to Policyholders represents funds loaned to policyholders up to the cash surrender value of the associated insurance policies and are carried at the unpaid principal balances due to the Company from the policyholders. Interest income on policy loans is recognized in Net Investment Income at the contract interest rate when earned. Policy loans are fully collateralized by the cash surrender value of the associated insurance policies.

The carrying values of the Company's Loans to Policyholders at Unpaid Principal investment at March 31, 2026 and December 31, 2025 were \$279.6 million and \$279.9 million, respectively.

Other Investments

The carrying values of the Company's Other Investments at March 31, 2026 and December 31, 2025 were:

(Dollars in Millions)	Mar 31, 2026	Dec 31, 2025
Equity Securities at Modified Cost	\$ 21.2	\$ 21.7
Real Estate at Depreciated Cost	92.9	92.7
Mortgage Loans	161.4	149.8
Other	8.4	7.1
Total Other Investments	\$ 283.9	\$ 271.3

Investments in Equity Securities at Modified Cost were \$21.2 million and \$21.7 million at March 31, 2026 and December 31, 2025, respectively. The Company performs a qualitative impairment analysis on a quarterly basis consisting of various factors such as earnings performance, current market conditions, changes in credit ratings, changes in the regulatory environment and other factors. If the qualitative analysis identifies the presence of impairment indicators, the Company estimates the fair value of the investment. If the estimated fair value is below the carrying value, the Company records an impairment in the Condensed Consolidated Statements of (Loss) Income to reduce the carrying value to the estimated fair value. When the Company identifies observable transactions of the same or similar securities to those held by the Company, the Company increases or decreases the carrying value to the observable transaction price. The Company did not recognize any changes in carrying value due to observable transactions for the three months ended March 31, 2026 and 2025. The Company did not recognize any impairment on Equity Securities at Modified Cost for the three months ended March 31, 2026 and 2025, respectively, as a result of the Company's impairment analysis. As of March 31, 2026 and December 31, 2025, the Company recognized no cumulative increases or decreases in the carrying value due to observable transactions and \$2.2 million and \$3.2 million, respectively, of cumulative impairments on Equity Securities at Modified Cost.

Note 7 - Fair Value Measurements

The Company classifies its Investments in Fixed Maturities as available-for-sale and reports these investments at fair value. The Company reports equity investments with readily determinable fair values as Equity Securities at Fair Value. Certain investments that are measured at fair value using the net asset value (“NAV”) practical expedient are not required to be classified using the fair value hierarchy, but are presented in the following two tables to permit reconciliation of the fair value hierarchy to the amounts presented in the Condensed Consolidated Balance Sheets.

The valuation of assets and liabilities measured at fair value in the Company’s Condensed Consolidated Balance Sheets at March 31, 2026 is summarized below. The Company had no material liabilities that are measured and reported at fair value.

Note 7 - Fair Value Measurements (Continued)

The Company's investments in Fixed Maturities that are classified as Level 1 primarily consist of U.S. Treasury Bonds and Notes. The Company's investments in Equity Securities at Fair Value that are classified as Level 1 consist of either investments in mutual funds or exchange traded funds. The Company's investments in Fixed Maturities that are classified as Level 2 primarily consist of investments in corporate bonds, obligations of states and political subdivisions, collateralized loan obligations, and mortgage-backed securities of U.S. government agencies. The Company's investments in Equity Securities at Fair Value that are classified as Level 2 consist of investments in preferred stocks. The Company uses a leading, nationally recognized provider of market data and analytics to price the vast majority of the Company's Level 2 measurements. The provider utilizes evaluated pricing models that vary by asset class and incorporate available trade, bid and other market information. Because many fixed maturity securities do not trade on a daily basis, the provider's evaluated pricing applications apply available information through processes such as benchmark curves, benchmarking of like securities, sector groupings and matrix pricing to prepare evaluations. In addition, the provider uses model processes to develop prepayment and interest rate scenarios. The pricing provider's models and processes also take into account market convention. For each asset class, teams of its evaluators gather information from market sources and integrate relevant credit information, perceived market movements and sector news into the evaluated pricing applications and models. The Company generally validates the measurements obtained from its primary pricing provider by comparing them with measurements obtained from one additional pricing provider that provides either prices from recent market transactions, quotes in inactive markets or evaluations based on its own proprietary models.

The Company investigates significant differences related to the values provided. On completion of its investigation, management exercises judgment to determine the price selected and whether adjustments, if any, to the price obtained from the Company's primary pricing provider would warrant classification of the price as Level 3. In instances where a measurement cannot be obtained from either pricing provider, the Company generally will evaluate bid prices from one or more binding quotes obtained from market makers to value investments in inactive markets and classified by the Company as Level 2. The Company generally classifies securities when it receives non-binding quotes or indications as Level 3 securities unless the Company can validate the quote or indication against recent transactions in the market.

The tables below present quantitative information about the significant unobservable inputs utilized by the Company in determining fair values for fixed maturity investments classified as Level 3 at March 31, 2026 and December 31, 2025. Valuations for assets presented in the tables below are primarily based on broker/dealer quotes for which there is a lack of transparency as to inputs used to develop the valuations. The quantitative detail of these unobservable inputs is neither provided nor reasonably available to the Company. The weighted average yield is calculated based on fair value.

Note 7 - Fair Value Measurements (Continued)

For an investment in a fixed maturity security, an increase in the yield used to determine the fair value of the security will decrease the fair value of the security. A decrease in the yield used to determine fair value will increase the fair value of the security, but for callable securities the fair value increase is generally limited to par, unless security is currently callable at a premium.

Information by security type pertaining to the changes in the fair value of the Company's investments classified as Level 3 for the three months ended March 31, 2026 is presented below.

Senior Debt	Funds with investments in senior or first lien debt and potentially minority equity securities typically issued by private companies.
Distressed Debt	Funds with debt or minority equity investments that are made opportunistically in companies that are in or near default or under financial strain with potential to have an active role in restructuring the company.
Secondary Transactions	Funds that focus on purchasing third party fund interests from investors seeking liquidity within their own portfolio.
Leveraged Buyout	Funds with control equity investments in more mature, positive cash flowing, private companies that are typically purchased with the use of financial leverage.
Growth Equity	Funds that invest in early or venture stage companies with high growth potential with view towards generating realizations through sale or initial public offering of company.
Real Estate	Funds with investments in multi-family housing properties.
Other	Consists of direct investments of preferred equity or minority common equity investments into private companies structured as limited partnerships or limited liability companies.

Presented below are the carrying values and fair value estimates of financial instruments not carried at fair value.

(Dollars in Millions)	Level	March 31, 2026		December 31, 2025	
		Carrying Value	Fair Value	Carrying Value	Fair Value
Financial Assets:					
Loans to Policyholders	Level 3	\$ 279.6	\$ 279.6	\$ 279.9	\$ 279.9
Short-term Investments	Level 1	296.6	296.6	313.5	313.5
Mortgage Loans	Level 3	161.4	161.4	149.8	149.8
Company-Owned Life Insurance	Level 2	586.2	586.2	579.2	579.2
Equity Securities at Modified Cost	Level 3	21.2	21.2	21.7	21.7
Financial Liabilities:					
Long-term Debt	Level 2	\$ 944.0	\$ 846.7	\$ 943.5	\$ 868.0
Policyholder Obligations	Level 2	475.0	475.0	513.8	513.8

Loans to policyholders are carried at unpaid principal balance which approximates fair value and are categorized as Level 3 within the fair value hierarchy. The nature of policy loans is to have a negligible default risk as the loans are fully collateralized by the value of the policy. Policy loans do not have a stated maturity and the balances and accrued interest are repaid either by the policyholder or with proceeds from the policy. Due to the collateralized nature of policy loans and unpredictable timing of payments, the Company believes the carrying value of policy loans approximates fair value. The fair value measurement of Short-term Investments is estimated using inputs that are considered Level 1 measurements. The Mortgage Loans fair value measurement is considered equal to amortized cost given the short-term nature of the investments. The fair value measurement of Equity Securities at Modified Cost is estimated using inputs that are considered Level 3 measurements. The cash surrender value of Company-Owned Life Insurance approximates fair value and is considered to be a Level 2 investment. The fair value of Long-term Debt is estimated using quoted prices from brokers and dealers for similar liabilities in markets that are not active. The inputs used in the valuation are considered Level 2 measurements. Policyholder Obligations presented in the preceding table consist of advances from the FHLB of Chicago, and the inputs used in the valuation are considered Level 2 measurements.

Note 8 - Variable Interest Entities

A VIE is a legal entity that does not have sufficient equity at risk to finance its activities without additional subordinated financial support or is structured such that equity investors lack the ability to make significant decisions relating to the entity's operations through voting rights or do not substantively participate in the gains and losses of the entity. The Company consolidates VIEs in which the Company is deemed the primary beneficiary. The primary beneficiary is the entity that has both (1) the power to direct the activities of the VIE that most significantly affect that entity's economic performance and (2) the obligation to absorb losses or the right to receive benefits that could be potentially significant to the VIE.

Reciprocal Exchange

The Company has formed a management company that acts as attorney-in-fact ("AIF") for Kemper Reciprocal (the "Reciprocal Exchange" or "Exchange"), an Illinois-domiciled reciprocal insurance exchange. The Exchange principally writes specialty personal automobile policies sold to subscribers of the Exchange. The establishment of Kemper Reciprocal was completed in the third quarter of 2023.

The Company consolidates the Exchange since (1) the AIF manages the business operations of the Exchange and therefore has the power to direct the activities that most significantly impact the economic performance of the Exchange and (2) the Company has provided capital to the Exchange and would absorb any expected losses that could potentially be significant to the Exchange. The Exchange's anticipated economic performance is the product of its underwriting and investment results. The AIF receives a management fee for the services provided to the Reciprocal Exchange. The management fee revenues are based upon all premiums written or assumed by the Exchange. The AIF determines the management fee rate to be paid by the Exchange. The AIF can charge a management fee of up to 30% of the Exchange's gross written and assumed premiums.

The assets of the Reciprocal Exchange can be used only to settle the obligations of the Reciprocal Exchange for which creditors and other beneficial owners have no recourse to the Company. The Company has no obligation related to any underwriting and/or investment losses experienced by the Exchange. As of December 31, 2025, the Company had contributed \$36.0 million of surplus to the Reciprocal Exchange. During the first three months of 2026, the Company did not contribute additional surplus to the Reciprocal Exchange. The effects of the transactions between the Company and the Reciprocal Exchange are eliminated in consolidation to derive consolidated Net (Loss) Income. However, the management fee income earned by the AIF is reported in Net (Loss) Income attributable to Kemper Corporation and is included in basic and diluted earnings per share.

Noncontrolling interest is the portion of equity (net assets) not attributable, directly or indirectly, to a parent. Since the Company has no ownership interest in Kemper Reciprocal, the difference between the carrying value of the Exchange's assets and liabilities represents noncontrolling interest and any income or loss generated by the net assets of the Exchange is presented as income or loss attributable to noncontrolling interest.

¹ Includes \$1.5 million and \$1.1 million attributable to Kemper Reciprocal as of March 31, 2025 and December 31, 2024, respectively, which is reported as a consolidated variable interest entity.

²The Life Insurance segment includes increases to amortization expense related to experience adjustments of \$0.9 million for the three months ended March 31, 2025.

Costs directly associated with the successful acquisition of business, principally commissions and certain premium taxes and policy issuance costs, are deferred. Costs deferred on property and casualty insurance contracts are amortized over the period in which premiums are earned. Costs deferred on traditional life insurance products and other long-duration insurance contracts are amortized on a constant level basis over the expected life of the contracts in accordance with the assumptions used to estimate the liability for future policyholder benefits for nonparticipating traditional and limited-payment contracts. The underlying assumptions for deferred policy acquisition costs and the liability for future policyholder benefits are updated concurrently.

The Company did not make any changes to future assumptions for the three months ended March 31, 2026 and 2025.

Note 12 - Shareholders' Equity

Common Stock Repurchases

On August 5, 2025, Kemper's Board of Directors approved a share repurchase authorization, under which the Company can repurchase up to \$500.0 million of its common stock (the "2025 Repurchase Program"). As of March 31, 2026, the remaining share repurchase authorization under the 2025 Repurchase Program was \$304.2 million.

No shares were repurchased during the three months ended March 31, 2026.

During the three months ended March 31, 2025, Kemper repurchased and retired approximately 64,000 shares of its common stock in open market transactions under its share repurchase authorization for an aggregate cost of \$4.0 million and an average cost per share of \$62.91.

Employee Stock Purchase Plan

During the three months ended March 31, 2026 and 2025, the Company issued approximately 25,000 and 12,000 shares under the Kemper Employee Stock Purchase Plan ("ESPP"), respectively, at an average discounted price of \$25.98 and \$56.82 per share. Compensation costs charged against income were \$0.1 million for the three months ended March 31, 2026 and 2025, respectively.

Note 13 - Amortization of Intangible Assets

The following table presents the amortization expense on definite life intangible assets incurred by the Company for the three months ended March 31, 2026 and 2025:

(Dollars in Millions)	Three Months Ended

FHLB Funding Agreements

Kemper's subsidiary, United Insurance Company of America ("United Insurance") has entered into funding agreements with the FHLB of Chicago in exchange for cash, which it uses for spread lending purposes. During the three months ended March 31, 2026, United Insurance received no advances from the FHLB of Chicago and made repayments of \$38.8 million under the spread lending program.

KEMPER CORPORATION AND SUBSIDIARIES
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

Note 14 - Policyholder Obligations (Continued)

When a funding agreement is issued, United Insurance is required to post collateral in the form of eligible securities including mortgage-backed, government, and agency debt instruments for each of the advances that are entered. The fair value of the collateral pledged must be maintained at certain specified levels above the borrowed amount, which can vary depending on the assets pledged. If the fair value of the collateral declines below these specified levels of the amount borrowed, United Insurance would be required to pledge additional collateral or repay outstanding borrowings. Upon any event of default by United Insurance, the FHLB's recovery on the collateral is limited to the amount of United Insurance's liability under the funding agreements to the FHLB of Chicago.

United Insurance's liability under the funding agreements with the FHLB of Chicago, the amount of collateral pledged under such agreements and FHLB of Chicago common stock owned by United Insurance at March 31, 2026 and December 31, 2025 is presented below.

(Dollars in Millions)	Mar 31, 2026	Dec 31, 2025
Liability under Funding Agreements	\$ 475.0	\$ 513.8
Fair Value of Collateral Pledged	618.5	661.3
FHLB of Chicago Common Stock Owned at Cost	17.5	17.7

Universal Life-type Policyholder Account Balances

The Company's weighted-average crediting rate for Universal Life-type Policyholder Account Balances was 5.1% as of March 31, 2026 and 2025, respectively. Guaranteed minimum benefit amounts in excess of the current account balances for these contracts were \$256.1 million and \$260.3 million as of March 31, 2026 and December 31, 2025, respectively. The cash surrender value of the Company's policyholder obligations for these contracts was \$93.2 million and \$94.2 million as of March 31, 2026 and December 31, 2025, respectively.

Note 15 - Debt

Amended and Extended Credit Agreement

On March 15, 2022, the Company entered into an amended and extended credit agreement. The amended and extended credit agreement increased the borrowing capacity of the existing unsecured credit agreement to \$600.0 million and extended the maturity date to March 15, 2027. Furthermore, the amended and extended credit agreement provides for an accordion feature whereby the Company can increase the revolving credit borrowing capacity by an additional \$200.0 million for a total maximum capacity of \$800.0 million. There were no outstanding borrowings under the credit agreement at either March 31, 2026 or December 31, 2025.

Subsequently, on May 4, 2026, the Company reduced the borrowing capacity under the credit agreement from \$600.0 million to \$350.0 million in accordance with terms of the agreement. The accordion feature remains unchanged and permits the Company to increase total borrowing capacity up to \$550.0 million.

Long-term Debt

The Company designates debt obligations as either short-term or long-term based on maturity date at issuance. Total amortized cost of Long-term Debt, Non-Current outstanding at March 31, 2026 and December 31, 2025 was:

(Dollars in Millions)	Mar 31, 2026	Dec 31, 2025

Note 15 - Debt (Continued)

Redemption of 4.350% Senior Notes Due 2025

On January 15, 2025, Kemper issued a notice of redemption for the entire \$450.0 million aggregate principal of 4.350% senior notes originally due February 15, 2025 (the “2025 Senior Notes”) at a redemption price equal to 100% of the principal amount of the Notes, plus accrued and unpaid interest on the redemption date. On February 11, 2025, Kemper completed the redemption and the 2025 Senior Notes were repaid in full.

2.400% Senior Notes Due 2030

Kemper has \$400.0 million aggregate principal of 2.400% senior notes due September 30, 2030 (the “2030 Senior Notes”). The net proceeds of issuance were \$395.8 million, net of discount and transaction costs for an effective yield of 2.52%. The 2030 Senior Notes are unsecured and may be redeemed in whole at any time or in part from time to time, at Kemper’s option, at specified redemption prices.

3.800% Senior Notes Due 2032

On February 15, 2022, Kemper offered and sold \$400.0 million aggregate principal of 3.800% senior notes due February 23, 2032 (the “2032 Senior Notes”). The net proceeds of issuance were \$395.1 million, net of discount and transaction costs, for an effective yield of 3.950%. The 2032 Senior Notes are unsecured and may be redeemed in whole at any time or in part from time to time, at Kemper’s option, at specified redemption prices.

5.875% Fixed-Rate Reset Junior Subordinated Debentures Due 2062

On March 10, 2022, Kemper issued \$150.0 million aggregate principal amount of 5.875% Fixed-Rate Reset Junior Subordinated Debentures due March 15, 2062 (the “2062 Junior Debentures”). The net proceeds from issuance were \$144.7 million, net of discount and transaction costs. The 2062 Junior Debentures will bear interest from and including the date of original issue to, but excluding, March 15, 2027 (the “First Reset Date”) at the fixed rate of 5.875% per annum. The interest rate on the First Reset Date, and subsequent Reset Dates, will be equal to the Five-Year Treasury Rate as of the most recent Reset Date plus 4.140% to be reset on each Reset Date. Interest is due quarterly in arrears beginning on June 15, 2022. The Company has the option to defer interest payments for one or more optional deferral periods of up to five consecutive years, provided that no optional deferral period shall extend beyond March 15, 2062, or any earlier accelerated maturity date arising from an event of default or any earlier redemption of the 2062 Junior Debentures.

The 2062 Junior Debentures are unsecured and may be redeemed in whole or in part on the First Reset Date or any time thereafter, at a redemption price equal to the principal amount of the debentures being redeemed plus any accrued and unpaid interest.

Short-term Debt

Kemper’s subsidiaries, United Insurance, Trinity Universal Insurance Company (“Trinity”) and American Access Casualty Company (“AAC”), are members of the FHLBs of Chicago, Dallas and Chicago, respectively. The Company periodically uses short-term FHLB borrowings for cash management and risk management purposes, in addition to long-term FHLB borrowings for the spread lending program. The Company did not receive advances or make repayments of short-term debt during the three months ended March 31, 2026 and 2025 for cash and risk management purposes. There were no short-term debt advances from the FHLBs of Chicago or Dallas outstanding at March 31, 2026 or December 31, 2025. For information on United Insurance’s funding agreement with the FHLB of Chicago in connection with the spread lending program, see Note 14, “Policyholder Obligations,” to the Condensed Consolidated Financial Statements.

Note 16 - Income Taxes

The statute of limitations related to Kemper and its eligible subsidiaries’ consolidated Federal income tax returns is closed for all tax years up to and including 2011 as well as 2018, 2019 and 2021. As a result of the Company filing amended federal income tax returns, tax years 2012 and 2013 are under limited examination with respect to carryback adjustments associated with the amended returns. Tax years 2020 and 2022 are currently under examination and will remain open until the examination is complete. The statute of limitations related to tax years 2014, 2015, 2016, and 2017 has been extended to December 31, 2026. Tax years 2023 and 2024 are subject to a statute of three years from the extended due dates of October 15, 2024, and 2025, respectively. The extended due date for 2025 income tax returns is October 15, 2026.

(Unaudited)

Note 16 - Income Taxes (Continued)

The expiration of the statute of limitations related to the various state income tax returns that Kemper and its subsidiaries file varies by state.

The interim period tax expense or benefit is the difference between the year-to-date income tax provision and the amounts reported for the previous interim periods of the fiscal year. For the three months ended March 31, 2026, the income tax benefit attributable to Kemper Corporation was \$2.8 million, or 62.2% of loss before income taxes, compared to an income tax expense of \$23.5 million, or 19.1% of income before income taxes for the three months ended March 31, 2025.

There were no Unrecognized Tax Benefits at March 31, 2026, or December 31, 2025. The Company recognizes interest and penalties, if any, related to unrecognized tax benefits in Income Tax (Benefit) Expense. There were no liabilities for accrued interest and penalties for the three months ended March 31, 2026 and 2025.

For the three months ended March 31, 2026 and 2025, there were no federal, state, or foreign income taxes paid or received.

Note 17 - Commitments and Contingencies

In the ordinary course of its businesses, the Company is involved in legal proceedings including lawsuits, arbitration, regulatory examinations, audits and inquiries. Based on currently available information, the Company does not believe that it is reasonably possible that any of its pending legal proceedings will have a material effect on the Company's Condensed Consolidated Financial Statements and Notes to the Condensed Consolidated Financial Statements.

Note 18 - Subsequent Events

Subsequent to March 31, 2026, the Company completed the sale of Newins Insurance Agency Holdings, LLC and its subsidiaries ("Newins"), a small distribution business within its Specialty Property & Casualty Insurance segment, to Freeway Insurance Services America, LLC in a transaction that closed on April 1, 2026.

The sale includes approximately \$14.9 million of assets and \$5.3 million of liabilities, and the Company expects to recognize a preliminary pre-tax gain of approximately \$7.2 million in the second quarter of 2026, subject to final closing adjustments.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Non-GAAP Financial Measures

In this report, the Company presents certain measures of its performance on a consolidated and segment basis that are not calculated in accordance with GAAP. We believe that these non-GAAP financial measures enhance the understanding for the Company and our investors of our performance by highlighting the results of operations and the underlying profitability drivers of our business. Segment-specific financial measures are calculated using only the portion of consolidated results attributable to that specific segment.

Adjusted Consolidated Net Operating Income

The Company believes that the non-GAAP financial measure of Adjusted Consolidated Net Operating Income provides investors with a valuable measure of its ongoing performance because it reveals underlying operational performance trends that otherwise might be less apparent if the items were not excluded. The most directly comparable GAAP financial measure is Net (Loss) Income attributable to Kemper Corporation.

Adjusted Consolidated Net Operating Income is an after-tax, non-GAAP financial measure and is computed by excluding from Net (Loss) Income attributable to Kemper Corporation the after-tax impact of:

- (i) Change in Fair Value of Equity and Convertible Securities;
- (ii) Net Realized Investment Gains;
- (iii) Impairment Losses;
- (iv) Acquisition and Disposition Related Transaction, Integration, Restructuring and Other Costs;
- (v) Debt Extinguishment, Pension Settlement and Other Charges;
- (vi) Goodwill Impairment Charges;
- (vii) Non-Core Operations; and
- (viii) Significant non-recurring or infrequent items that may not be indicative of ongoing operations

Significant non-recurring items are excluded when (a) the nature of the charge or gain is such that it is reasonably unlikely to recur within two years, and (b) there has been no similar charge or gain within the prior two years. There were no applicable significant non-recurring items that the Company excluded from the calculation of Adjusted Consolidated Net Operating Income for the three months ended March 31, 2026 or 2025.

Change in Fair Value of Equity and Convertible Securities, Net Realized Investment Gains and Impairment Losses related to investments included in the Company’s results may vary significantly between periods and are generally driven by business decisions and external economic developments such as capital market conditions that impact the values of the Company’s investments, the timing of which is unrelated to the insurance underwriting process. Acquisition and Disposition Related Transaction Costs, Integration Costs, and Restructuring and Other Costs may vary significantly between periods and are generally driven by the timing of acquisitions and business decisions which are unrelated to the insurance underwriting process. In the third quarter of 2025, a restructuring program was launched to achieve operational and organizational efficiencies. The Company will continue to evaluate additional efficiency opportunities through 2027. Debt Extinguishment, Pension Settlement and Other Charges relate to (i) loss from early extinguishment of debt, which is driven by the Company’s financing and refinancing decisions and capital needs, as well as external economic developments such as debt market conditions, the timing of which is unrelated to the insurance underwriting process; (ii) settlement of pension plan obligations which are business decisions made by the Company, the timing of which is unrelated to the underwriting process; and (iii) other charges that are non-standard, not part of the ordinary course of business, and unrelated to the insurance underwriting process. Goodwill Impairment Charges are excluded because they are infrequent and non-recurring charges. Non-Core Operations includes the results of our Preferred Insurance business which we expect to fully exit. These results are excluded because they are irrelevant to our ongoing operations and do not qualify for Discontinued Operations under GAAP. Significant non-recurring items are excluded because, by their nature, they are not indicative of the Company’s business or economic trends.

Non-GAAP Financial Measures (Continued)

Underlying Losses and Loss Adjustment Expenses (“LAE”) and Underlying Combined Ratio

The following discussion uses the non-GAAP financial measures of (i) Underlying Losses and LAE and (ii) Underlying Combined Ratio. Underlying Losses and LAE (also referred to in the discussion as “Current Year Non-catastrophe Losses and LAE”) exclude the impact of catastrophe losses and loss and LAE reserve development from prior years from the Company’s Incurred Losses and LAE, which is the most directly comparable GAAP financial measure.

The Underlying Combined Ratio is computed by adding the Current Year Non-catastrophe Losses and LAE Ratio with the Insurance Expense Ratio. The most directly comparable GAAP financial measure is the Combined Ratio, which is computed by adding Total Incurred Losses and LAE Ratio, including the impact of catastrophe losses and loss and LAE reserve development from prior years, with the Insurance Expense Ratio.

The Company believes Underlying Losses and LAE and the Underlying Combined Ratio are useful to investors and uses these financial measures to reveal the trends in the Company’s Property & Casualty Insurance segment that may be obscured by catastrophe losses and prior-year reserve development. These catastrophe losses may cause the Company’s loss trends to vary significantly between periods as a result of their incidence of occurrence and magnitude and can have a significant impact on incurred losses and LAE and the Combined Ratio. Prior-year reserve developments are caused by unexpected loss development on historical reserves. Because reserve development relates to the re-estimation of losses from earlier periods, it has minimal bearing on the performance of the Company’s insurance products in the current period. The Company believes it is useful for investors to evaluate these components separately and in the aggregate when reviewing the Company’s underwriting performance.

The preceding non-GAAP financial measures should not be considered a substitute for the comparable GAAP financial measures, as they do not fully recognize the overall profitability of the Company’s businesses.

Summary of Results

Net Loss attributable to Kemper Corporation was \$1.7 million (\$0.03 per unrestricted common share) for the three months ended March 31, 2026, compared to Net Income attributable to Kemper Corporation of \$99.7 million (\$1.56 per unrestricted common share) for the same period in 2025.

A reconciliation of Net (Loss) Income attributable to Kemper Corporation to Adjusted Consolidated Net Operating Income (a non-GAAP financial measure) for the three months ended March 31, 2026 and 2025 is presented below.

Summary of Results (Continued)

Net (Loss) Income attributable to Kemper Corporation

Net (Loss) Income attributable to Kemper Corporation decreased by \$101.4 million for the three months ended March 31, 2026, compared to the same period in 2025, due primarily to lower Adjusted Consolidated Net Operating Income.

Adjusted Consolidated Net Operating Income decreased by \$93.9 million for the three months ended March 31, 2026, compared to the same period in 2025, due primarily to a deterioration in Specialty Personal Automobile's Underlying loss and LAE ratio driven by higher claim severity and frequency on bodily injury and property damage coverages in California, lower business volumes, and a Florida Statutory Profit Limit Refund (as further discussed below), partially offset by higher average earned premium per exposure resulting from rate increases.

Following the enactment of Florida insurance reform in 2023, the Company has experienced lower loss costs within its personal auto business, resulting in favorable loss reserve development and improved expected profitability for recent accident years. As of December 31, 2025, the Company concluded that it is probable Florida personal auto underwriting profit for the three most recent accident years ended December 31, 2025 will exceed the profit limitation established under Florida statute, and recorded a reduction to earned premiums representing its estimate of profits expected to be returned to policyholders. During the first quarter of 2026, the Company increased its estimate of profits expected to be returned to policyholders for the three most recent accident years ended December 31, 2025 by \$11.0 million given favorable development through March 31, 2026. During the first quarter of 2026, the Company also concluded that it is probable underwriting profit for the subsequent three-year accident period (2024 through 2026) will exceed the applicable profit limitation and recorded a reduction to earned premiums of \$17.0 million representing its estimate of profits expected to be returned to policyholders for that period. These actions resulted in a total reduction to earned premiums of \$28.0 million for the quarter. The estimate for accident years 2024 through 2026 remains subject to changes based on future development through March 31, 2027. The statute requires that excess profits for accident years 2023 through 2025 be returned to policyholders active as of December 31, 2025, and the Company expects to do so.

The loss from Non-Core Operations increased by \$3.3 million for the three months ended March 31, 2026, compared to the same period in 2025, primarily due to reduced earned premiums outpacing expense reductions as the business continues to run off, as well as higher adverse prior year development. Separately, on August 1, 2025, certain Non-Core Operations subsidiaries entered into a renewal rights agreement with a third party and certain of its affiliates (collectively, the "Third Party") whereby the Third Party will offer replacement policies for certain policies written by these subsidiaries in New York in accordance with the state's non-renewal rules. During the first quarter of 2026, these subsidiaries received regulatory approval from the New York Department of Financial Services for their withdrawal plans from the state.

Corporate and Other Adjusted Net Operating Loss decreased by \$3.1 million for the three months ended March 31, 2026, compared to the same period in 2025, primarily driven by lower interest expense due to the redemption of \$450 million of 4.350% senior notes in the first quarter of 2025.

Revenues

Total Revenues decreased by \$85.8 million to \$1,107.2 million for the three months ended March 31, 2026, compared to \$1,193.0 million for the same period in 2025. The decrease was primarily driven by lower earned premiums.

Earned Premiums decreased by \$88.6 million to \$999.3 million for the three months ended March 31, 2026, compared to \$1,087.9 million for the same period in 2025. This was primarily driven by a \$77.0 million decrease from the Specialty Property & Casualty Insurance segment, mainly attributable to lower personal automobile volumes, a \$28.0 million Florida Statutory Profit Limit Refund, and further impacted by a \$12.7 million reduction from our Preferred Insurance business, reported as Non-Core Operations, due primarily to lower volumes resulting from the exit and run-off of the business. These decreases were partially offset by higher commercial automobile volumes within the Specialty Property & Casualty Insurance segment.

Net Investment Income increased by \$5.9 million to \$107.1 million for the three months ended March 31, 2026, compared to \$101.2 million for the same period in 2025, mostly driven by increased earnings on alternative investments, higher levels of fixed maturity securities and mortgage loans, partially offset by lower average Short-term invested assets.

Net Realized Investment Gains decreased by \$0.5 million to \$0.4 million for the three months ended March 31, 2026, compared to \$0.9 million for the same period in 2025, due primarily to decreased gains on sales of fixed maturity and equity securities, partially offset by the absence of net realized losses on ultra-long treasury future derivative transactions that did not qualify for hedge accounting.

Summary of Results (Continued)

Impairment losses increased by \$2.0 million for the three months ended March 31, 2026, compared to the same period in 2025, primarily driven by an increase in the allowance for credit losses on fixed maturity securities.

Overall

Three Months Ended March 31, 2026 Compared to the Same Period in 2025

The Specialty Property & Casualty Insurance segment reported Total Segment Adjusted Net Operating Income of \$0.1 million for the three months ended March 31, 2026, compared to Total Segment Adjusted Net Operating Income of \$97.9 million for the same period in 2025. Segment adjusted net operating results decreased by \$97.8 million, which included a \$100.9 million decrease from personal automobile insurance and a \$3.1 million increase from commercial vehicle insurance. The decrease in personal automobile Adjusted Net Operating Income was primarily driven by higher underlying losses resulting from higher claim severity and frequency in California, lower business volumes, as well as a \$28.0 million Florida Statutory Profit Limit Refund, partially offset by higher average earned premiums per exposure resulting from rate increases. The increase in commercial automobile insurance Adjusted Net Operating Income was primarily driven by higher earned premium per exposure, partially offset by higher underlying losses and adverse prior year development.

Earned Premiums in the Specialty Property & Casualty Insurance segment decreased by \$77.0 million for the three months ended March 31, 2026, compared to the same period in 2025, due to lower personal automobile volumes and a \$28.0 million Florida Statutory Profit Limit Refund, partially offset by higher commercial automobile volumes.

Net Investment Income in the Specialty Property & Casualty Insurance segment increased by \$4.8 million for the three months ended March 31, 2026, compared to the same period in 2025, due primarily to higher levels and yields from fixed maturity securities and increased earnings on alternative investments, partially offset by lower average short-term investments.

Specialty Property & Casualty Insurance (Continued)

Incurring losses and LAE were \$747.7 million, or 84.5% of earned premiums for the three months ended March 31, 2026, compared to \$686.8 million, or 71.4% of earned premiums, for the same period in 2025. Incurred losses and LAE as a percentage of earned premiums increased primarily due to a deterioration in the underlying loss and LAE ratio and adverse prior year development in commercial automobile, partially offset by favorable prior year development in personal automobile. Underlying losses and LAE as a percentage of earned premiums were 84.0% for the three months ended March 31, 2026, a deterioration of 13.1 percentage points, compared to the same period in 2025, due to higher claim severity and frequency primarily related to bodily injury and property damage coverages in California, partially offset by higher average earned premium per exposure (4.7% increase year over year). Underlying losses and LAE exclude the impact of catastrophes and loss and LAE reserve development. Adverse loss and LAE reserve development (including catastrophe reserve development) was \$3.6 million for the three months ended March 31, 2026, compared to adverse development of \$0.7 million for the same period in 2025, a deterioration of \$2.9 million due primarily to evolving loss patterns on bodily injury coverages in commercial automobile. Catastrophe losses and LAE (excluding reserve development) were \$1.3 million for the three months ended March 31, 2026 compared to \$3.8 million for the same period in 2025, an improvement of \$2.5 million due to fewer catastrophe events in 2026.

Insurance Expenses were \$196.2 million, or 22.2% of earned premiums, for the three months ended March 31, 2026, compared to \$205.1 million, or 21.3% of earned premiums for the same period in 2025. Insurance Expenses decreased \$8.9 million due to lower expenses associated with decreased business volumes.

The Specialty Property & Casualty Insurance segment's first quarter of 2026 effective income tax rate was 114.3% compared to 19.8% for the same period in 2025. The effective income tax rate for the first quarters of 2026 and 2025 differs from the federal statutory income tax rate primarily due to investments in Company-Owned Life Insurance, tax-exempt investment income and nondeductible stock and executive compensation. The difference in effective tax rates between the first quarters of 2026 and 2025 is primarily due to changes in pretax income.

Earned Premiums on personal automobile insurance decreased by \$106.7 million for the three months ended March 31, 2026, compared to the same period in 2025, primarily due to lower volumes and a \$28.0 million Florida Statutory Profit Limit Refund. Incurred losses and LAE were \$566.7 million, or 87.6% of earned premiums for the three months ended March 31, 2026, compared to \$526.5 million, or 69.9% of earned premiums, for the same period in 2025. Incurred losses and LAE as a percentage of earned premiums increased due to a deterioration in the underlying loss and LAE ratio. Underlying losses and LAE as a percentage of related earned premiums were 87.7% for the three months ended March 31, 2026, compared to 70.1% for the same period in 2025, a deterioration of 17.6 percentage points. The deterioration was driven by higher claim severity and frequency, primarily related to bodily injury and property damage coverages in California, and the Florida Statutory Profit Limit Refund, partially offset by higher average earned premium per exposure (3.3% increase year over year). Favorable loss and LAE reserve development was \$2.5 million for the three months ended March 31, 2026, compared to favorable development of \$4.6 million for the same period in 2025, a deterioration of \$2.1 million due primarily to loss patterns in bodily injury and higher losses associated with litigation matters, partially offset by development on personal injury protection and collision coverages. Catastrophe losses and LAE (excluding reserve development) were \$1.1 million for the three months ended March 31, 2026, compared to \$2.7 million for the same period in 2025, an improvement of \$1.6 million due to fewer catastrophe events in 2026.

Three Months Ended March 31, 2026 Compared to the Same Period in 2025

Earned Premiums from commercial automobile insurance increased by \$29.7 million for the three months ended March 31, 2026, compared to the same period in 2025, due primarily to higher average earned premium per exposure, targeted mix shifts, and higher business volumes. Incurred losses and LAE were \$181.0 million, or 76.0% of earned premiums in 2026, compared to \$160.3 million, or 76.9% of earned premiums in 2025. Incurred losses and LAE as a percentage of earned premiums decreased primarily due to an improvement in the underlying loss and LAE ratio. Underlying losses and LAE as a percentage of earned premiums were 73.3% for the three months ended March 31, 2026, compared to 73.9% during the same time period in 2025, an improvement of 0.6 percentage points driven by higher average earned premium per exposure (2.5% increase year over year), partially offset by higher claim frequency and severity, primarily related to bodily injury coverages. Adverse loss and LAE reserve development was \$6.1 million for the three months ended March 31, 2026, compared to adverse development of \$5.3 million for the same period in 2025, a deterioration of \$0.8 million due primarily to evolving loss patterns and higher defense costs associated with attorney-represented bodily injury coverages. Catastrophe losses and LAE (excluding reserve development) were \$0.2 million for the three months ended March 31, 2026 compared to \$1.1 million for the same period in 2025, a decrease of \$0.9 million due to fewer catastrophic events in 2026.

Overall

Three Months Ended March 31, 2026 Compared to the Same Period in 2025

The Life Insurance segment reported Total Segment Adjusted Net Operating Income of \$18.0 million for the three months ended March 31, 2026, compared to \$17.2 million for the same period in 2025. The increase in segment net operating results was due primarily to lower Insurance Expenses and higher Earned Premiums, partially offset by higher Policyholders' Benefits from life insurance products.

Life Insurance (Continued)

Earned Premiums increased \$1.1 million for the three months ended March 31, 2026, compared to the same period in 2025, due primarily to higher average premiums per policy on life insurance products.

Net investment income increased by \$0.3 million for the three months ended March 31, 2026, compared to the same period in 2025, due primarily to increased earnings on alternative investments and higher earnings on Company-Owned Life Insurance, partially offset by lower yields on fixed maturities.

Policyholders' Benefits and Incurred Losses and LAE increased by \$1.8 million for the three months ended March 31, 2026, compared to the same period in 2025, due to an increase in insurance reserves related to favorable changes in mortality experience.

Insurance Expenses decreased by \$1.8 million for the three months ended March 31, 2026, compared to the same period in 2025, due to management actions to lower operating expenses and lower commission expense.

The Life Insurance segment's first quarter 2026 effective income tax rate was 15.2% compared to 15.0% for the same period in 2025. The effective income tax rate for the first quarters of 2026 and 2025 differs from the federal statutory income tax rate primarily due to investments in Company-Owned Life Insurance, tax-exempt investment income and nondeductible stock and executive compensation. The increase in the effective tax rate from the first quarter of 2025 is primarily due to an increase in pretax income, partially offset by an increase in tax benefits from Company-Owned Life Insurance.

Investment Results (Continued)

Net Investment Income was \$107.1 million and \$101.2 million for the three months ended March 31, 2026 and 2025, respectively. Net Investment Income increased by \$5.9 million in 2026, mostly driven by increased earnings on alternative investments, higher levels of fixed maturity securities and mortgage loans (included in other investments), partially offset by lower average short-term invested assets.

Change in Unrealized Gains and Losses on Investments

Unrealized losses on investments increased \$89.5 million for the three months ended March 31, 2026, primarily due to increases in interest rates.

Impairment Losses

The Company regularly reviews its investment portfolio to determine whether a decline in the fair value of an investment has occurred from credit or other, non-credit related factors. If the decline in fair value is due to credit factors and the Company does not expect to receive cash flows sufficient to support the entire amortized cost basis, the credit loss is reported in the Condensed Consolidated Statements of (Loss) Income in the period that the declines are evaluated. Conversely, an increase in the fair value or disposal of an investment with a previously established credit allowance will result in the reversal of impairment losses reported in the Condensed Consolidated Statements of (Loss) Income in the period.

The components of Impairment Losses in the Condensed Consolidated Statements of (Loss) Income for the three months ended March 31, 2026 and 2025 were:

Investment Quality and Concentrations

The Company's fixed maturity investment portfolio is comprised primarily of high-grade corporate, municipal and agency bonds. At March 31, 2026, approximately 93.5% of the Company's fixed maturity investment portfolio was rated investment-grade, which the Company defines as a security issued by a high quality obligor with at least a relatively stable credit profile and where it is highly likely that all contractual payments of principal and interest will timely occur and carry a rating from the National Association of Insurance Commissioners ("NAIC") of 1 or 2. Securities with a rating of 1 or 2 from the NAIC typically are rated by one or more Nationally Recognized Statistical Rating Organizations and either have a rating of AAA, AA, A or BBB from Standard & Poor's ("S&P"); a rating of Aaa, Aa, A or Baa from Moody's Investors Service ("Moody's"); or a rating of AAA, AA, A or BBB from Fitch Ratings.

The following table summarizes the credit quality of the Company's fixed maturity investment portfolio at March 31, 2026 and December 31, 2025:

The Company's short-term investments primarily consist of money market funds, U.S. Treasury bills and short-term bonds. At March 31, 2026, the Company had \$294.8 million invested in money market funds, which primarily invest in U.S. Treasury securities, and \$1.8 million invested in U.S. Treasury bills and short-term bonds.

Investments in Limited Liability Companies and Limited Partnerships

The Company owns investments in various limited liability investment companies and limited partnerships that primarily invest in senior debt, mezzanine debt, and leveraged buyouts. Investments in limited liability investment companies and limited partnerships are reported either as Equity Method Limited Liability Investments, Other Equity Interests included in Equity Securities at Fair Value, or Other Investments, depending on the accounting method used to report the investment. Additional information pertaining to these investments at March 31, 2026 and December 31, 2025 is presented below.

The Company expects that it will be required to fund its commitments over the next several years. The Company expects that the proceeds from distributions from these investments will be the primary source of funding of such commitments.

Insurance, Interest, and Other Expenses

Expenses for the three months ended March 31, 2026 and 2025 were:

(Dollars in Millions)	Three Months Ended	
	Mar 31, 2026	Mar 31, 2025
Insurance and Other Expenses:		
Insurance Expenses:		
Policy Acquisition Costs	\$ 152.7	\$ 164.3

Insurance and Other Expenses	277.0	294.5
Interest Expense	9.3	11.4
Total Insurance, Interest, and Other Expenses	\$ 286.3	\$ 305.9

Insurance and Other Expenses

Insurance and Other Expenses were \$277.0 million in 2026, compared to \$294.5 million in 2025, a decrease of \$17.5 million which was primarily driven by lower Insurance Expenses.

Insurance Expenses were \$268.3 million in 2026, compared to \$286.1 million in 2025. Policy acquisition costs decreased \$11.6 million compared to the same period in 2025, primarily driven by reduced business volumes in the Specialty Property & Casualty Insurance segment. Business unit operating costs decreased \$5.9 million compared to the same period in 2025, primarily due to lower expenses within the Non-Core Operations as the business continues to run off.

Interest Expense

Interest expense decreased by \$2.1 million for the three months ended March 31, 2026, compared to the same period in 2025, primarily due to redemption of \$450 million of 4.350% senior notes.

Income Taxes

The federal corporate statutory income tax rate was 21% for the three months ended March 31, 2026 and March 31, 2025. The Company's effective income tax rate, which was 44.6% and 19.1% for the three months ended March 31, 2026 and 2025, respectively, differs from the federal corporate income tax rate due primarily to (1) the effects of tax-exempt investment income, (2) nontaxable income associated with the change in cash surrender value on Company-Owned Life Insurance, (3) general business tax credits, (4) a permanent difference between the amount of long-term equity-based compensation expense recognized under GAAP and the amount deductible for Federal tax purposes, (5) a permanent difference associated with nondeductible executive compensation, (6) impact of deferred taxes in foreign jurisdictions, and (7) a change in valuation allowance related to foreign deferred tax assets.

Tax-exempt investment income and dividends received deductions were \$3.6 million for the three months ended March 31, 2026, compared to \$3.8 million for the same period in 2025.

The nontaxable increase in cash surrender value on Company-Owned Life Insurance was \$11.6 million for the three months ended March 31, 2026, compared to \$10.2 million for the same period in 2025.

The Company realized federal income tax credits of \$0.3 million for the three months ended March 31, 2026 and 2025, respectively.

The amount of expense recognized for long-term equity-based compensation expense under GAAP was \$5.4 million higher than the amount that would be deductible under the IRC for the three months ended March 31, 2026, compared to \$2.0 million lower for the same period in 2025.

Income Taxes (Continued)

The amount of nondeductible executive compensation was \$1.5 million for the three months ended March 31, 2026, compared to \$5.3 million for the same period in 2025.

Tax benefit of \$8.2 million was recorded for the three months ended March 31, 2026, compared to a tax expense of \$0.8 million for the same period in 2025 related to income taxes imposed in the foreign jurisdiction in which the Company operates.

The Company recorded an increase in valuation allowance of \$8.2 million for the three months ended March 31, 2026, for those foreign deferred tax assets it determined were not more-likely-than-not to be realized, compared to a decrease of \$0.8 million for the same period in 2025.

Recently Issued Accounting Pronouncements

The Company has adopted all recently issued accounting pronouncements with effective dates prior to April 1, 2026.

There were no adoptions of such accounting pronouncements during the three months ended March 31, 2026 that had a material impact on the Company's Condensed Consolidated Financial Statements.

Liquidity and Capital Resources

Amended and Extended Credit Agreement

On March 15, 2022, the Company entered into an amended and extended credit agreement. The amended and extended credit agreement increased the borrowing capacity of the existing unsecured credit agreement to \$600.0 million and extended the maturity date to March 15, 2027. Furthermore, the amended and extended credit agreement provides for an accordion feature whereby the Company can increase the revolving credit borrowing capacity by an additional \$200.0 million for a total of maximum capacity of \$800.0 million. Financial covenants within the agreement may limit the Company from accessing the maximum capacity. The amount available as of March 31, 2026 was \$600.0 million, the maximum capacity. There were no outstanding borrowings under the credit agreement on either March 31, 2026 or December 31, 2025.

Subsequently, on May 4, 2026, the Company reduced the borrowing capacity under the credit agreement from \$600.0 million to \$350.0 million in accordance with terms of the agreement. The accordion feature remains unchanged and permits the Company to increase total borrowing capacity up to \$550.0 million.

Long-term Debt

The Company designates debt obligations as either short-term or long-term based on maturity date at issuance. Total amortized cost of Long-term Debt, Non-Current outstanding on March 31, 2026 and December 31, 2025 was:

(Dollars in Millions)	Mar 31, 2026	Dec 31, 2025
Non-Current:		
2.400% Senior Notes due September 30, 2030	398.0	397.9
3.800% Senior Notes due February 23, 2032	397.1	396.9
5.875% Fixed-Rate Reset Junior Subordinated Debentures due 2062	148.9	148.7
Total Long-term Debt Outstanding	<u>\$ 944.0</u>	<u>\$ 943.5</u>

See Note 15, "Debt," to the Condensed Consolidated Financial Statements for more information regarding the Company's long-term debt.

Liquidity and Capital Resources (Continued)

Federal Home Loan Bank Agreements

Kemper's subsidiaries, United Insurance, Trinity, and AAC are members of the Federal Home Loan Banks ("FHLBs") of Chicago, Dallas and Chicago, respectively. AAC became a member of the FHLB of Chicago in May 2022. United Insurance and Trinity became members of the FHLBs of Chicago and Dallas, respectively, in 2013. Under their memberships, United Insurance, Trinity and AAC may borrow through the advance program of their respective FHLB. The Company's investments in FHLB common stock are reported at cost and included in Other Investments. The carrying value of FHLB of Chicago common stock was \$17.5 million and \$17.7 million at March 31, 2026 and December 31, 2025, respectively. The carrying value of FHLB of Dallas common stock was \$2.1 million at March 31, 2026 and December 31, 2025, respectively. The Company periodically uses short-term FHLB borrowings for a combination of cash management and risk management purposes, in addition to long-term FHLB borrowings for spread lending purposes.

During the first three months of 2026, United Insurance received no advances from the FHLB of Chicago and made repayments of \$38.8 million. United Insurance had outstanding advances from the FHLB of Chicago totaling \$475.0 million at March 31, 2026. These advances were made in connection with the Company's spread lending program. The proceeds related to these advances were used to purchase fixed maturity securities to earn incremental net investment income.

For these advances, United Insurance held pledged securities in a custodial account with the FHLB of Chicago with a fair value of \$618.5 million at March 31, 2026. The fair value of the collateral pledged must be maintained at certain specified levels above the borrowed amount, which can vary depending on the assets pledged. If the fair value of the collateral declines below these specified levels of the amount borrowed, United Insurance would be required to pledge additional collateral or repay outstanding borrowings. See Note 14, "Policyholder Obligations," to the Condensed Consolidated Financial Statements for additional information about the United Insurance advances and related funding agreements.

Common Stock Repurchases

On August 5, 2025, Kemper's Board of Directors approved a new share repurchase authorization, under which the Company can repurchase up to \$500.0 million of its common stock (the "2025 Repurchase Program"). As of March 31, 2026, the remaining share repurchase authorization under the 2025 Repurchase Program was \$304.2 million. The amount and timing of any future share repurchases under the 2025 Repurchase Program will depend on various factors, including market conditions, the Company's financial condition, results of operations, available liquidity, particular circumstances and other considerations.

For the three months ended March 31, 2026, the Company did not repurchase any shares of its common stock. During the three months ended March 31, 2025, Kemper repurchased and retired approximately 64,000 shares of its common stock under its share repurchase authorization for an aggregate cost of \$4.0 million and an average cost per share of \$62.91.

Dividends to Shareholders

Kemper paid a quarterly dividend of \$0.32 per common share in the first quarter of 2026 and 2025, respectively. Dividends and dividend equivalents paid were \$18.3 million and \$20.2 million for the three months ended March 31, 2026 and 2025, respectively.

Subsidiary Dividends

Various insurance laws restrict the ability of Kemper's insurance subsidiaries to pay dividends without regulatory approval. Such insurance laws applicable to the Company's US based insurance subsidiaries generally restrict the amount of dividends paid in an annual period to the greater of statutory net income from the previous year or 10% of statutory capital and surplus. Kemper's US based insurance subsidiaries did not pay dividends to Kemper during the first three months of 2026. As of the filing date, Kemper's US based insurance subsidiaries capacity to pay dividends without prior regulatory approval is estimated to be \$17.9 million.

Sources and Uses of Funds

The Company directly held cash and investments totaling \$80.2 million at March 31, 2026, compared to \$145.4 million at December 31, 2025.

Liquidity and Capital Resources (Continued)

The primary sources of funds available for repayment of Kemper's indebtedness, repurchases of common stock, future shareholder dividend payments, and the payment of interest on Kemper's senior notes, include cash and investments directly held by Kemper, receipt of dividends from Kemper's insurance subsidiaries and borrowings under the credit agreement and from subsidiaries.

The primary sources of funds for Kemper's insurance subsidiaries are premiums, investment income, proceeds from the sales and maturity of investments, advances from the FHLBs of Chicago and Dallas, and capital contributions from Kemper. The primary uses of funds are the payment of policyholder benefits under life insurance contracts, claims under property and casualty insurance contracts and accident and health insurance contracts, the payment of commissions and general expenses, the purchase of investments and repayments of advances from the FHLBs of Chicago and Dallas.

Generally, there is a time lag between when premiums are collected and when policyholder benefits and insurance claims are paid. During periods of growth, property and casualty insurance companies typically experience positive operating cash flows and can invest a portion of their operating cash flows to fund future policyholder benefits and claims. During periods in which premium revenues decline, insurance companies may experience negative cash flows from operations and may need to sell investments to fund payments to policyholders and claimants. In addition, if the Company's property and casualty insurance subsidiaries experience several significant catastrophic events over a relatively short period of time, investments may be sold to fund payments, which could result in investment gains or losses. Management believes that its property and casualty insurance subsidiaries maintain adequate levels of liquidity in the event that they were to experience several future catastrophic events over a relatively short period of time.

Information about the Company's cash flows for the three months ended March 31, 2026 and 2025 is presented below.

(Dollars in Millions)	Mar 31, 2026	Mar 31, 2025
Net Cash Provided by Operating Activities	\$ 88.8	\$ 180.0
Net Cash (Used in) Provided by Investing Activities	(63.1)	351.1
Net Cash Used in Financing Activities	(59.1)	(481.1)

Cash available for investment activities is dependent on cash flow from Operating Activities and Financing Activities and the level of cash the Company elects to maintain.

Net Cash Provided by Operating Activities

Net cash provided by Operating Activities was \$88.8 million for the three months ended March 31, 2026, compared to net cash provided of \$180.0 million for the same period in 2025. The decrease in net cash provided by Operating Activities was primarily driven by lower personal automobile volumes in our Specialty Property & Casualty business, partially offset by higher average earned premiums per exposure resulting from rate increases.

Net Cash (Used in) Provided by Investing Activities

Net cash used in Investing Activities for the three months ended March 31, 2026 was \$63.1 million, compared to net cash provided of \$351.1 million for the same period in 2025. The decrease in net cash provided by Investing Activities was primarily due to proceeds from sales of short term investments in the first quarter of 2025 that were primarily used to fund the redemption of the \$450.0 million 4.350% Senior Notes due February 15, 2025 (the "2025 Senior Notes").

Net Cash Used in Financing Activities

Net cash used in Financing Activities for the three months ended March 31, 2026 was \$59.1 million, compared to net cash used of \$481.1 million for the same period in 2025. This decrease in net cash used by Financing Activities was primarily due to the redemption of the 2025 Senior Notes in the first quarter of 2025.

Critical Accounting Estimates

Kemper's subsidiaries conduct their operations in two industries: property and casualty insurance and life insurance. Accordingly, the Company is subject to several industry-specific accounting principles under GAAP. The preparation of financial statements in accordance with GAAP requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The process of estimation is inherently uncertain. Accordingly, actual results could ultimately differ materially from the estimated amounts reported in a company's financial statements. Different assumptions are likely to result in different estimates of reported amounts.

The Company's critical accounting policies most sensitive to estimates include the valuation of investments, the valuation of life insurance reserves, the valuation of reserves for property and casualty insurance incurred losses and LAE, the assessment of recoverability of goodwill, and the recoverability of deferred tax assets. The Company's critical accounting policies are described in the MD&A included in the 2025 Annual Report. There have been no material changes to the information disclosed in the 2025 Annual Report with respect to these critical accounting estimates and the Company's significant accounting policies.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to the Company's disclosures about market risk in Item 7A, "Quantitative and Qualitative Disclosures About Market Risk" of Part II of the 2025 Annual Report. Accordingly, no disclosures about market risk have been made in Item 3 of this Form 10-Q.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

The Company's management, with the participation of Kemper's Interim Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this report. Based on such evaluation, Kemper's Interim Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective in ensuring that information required to be disclosed by Kemper in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified by the SEC's rules and forms, and accumulated and communicated to the Company's management, including Kemper's Interim Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in internal control over financial reporting.

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Items not listed here have been omitted because they are inapplicable or the answer is negative.

Item 1. Legal Proceedings

Information concerning pending legal proceedings is incorporated herein by reference to Note 17, “Commitments and Contingencies,” to the Condensed Consolidated Financial Statements in Part I of this Form 10-Q.

Item 1A. Risk Factors

For a discussion of the Company’s significant risk factors, see Item 1A. of Part I of the 2025 Annual Report. Readers are also advised to consider other factors not presently known by, or considered material to, the Company that could materially affect the Company’s business, financial condition and results of operations, along with other information disclosed in the 2025 Annual Report and this Quarterly Report on Form 10-Q, including the factors set forth under the caption “Caution Regarding Forward-Looking Statements” beginning on page 1 of the 2025 Annual Report and on page 1 of this Quarterly Report on Form 10-Q, and to consult any further disclosures Kemper makes on related subjects in its filings with the SEC.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds and Issuer Repurchases of Equity Securities

On August 5, 2025, Kemper’s Board of Directors approved a share repurchase authorization, under which the Company can repurchase up to \$500.0 million of its common stock (the “2025 Repurchase Program”). As of March 31, 2026, the remaining share repurchase authorization under the 2025 Repurchase Program was \$304.2 million.

Shares repurchased and retired during the three months ended March 31, 2026 were as follows:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (Dollars in Millions)
January 2026	—	\$ —	—	\$ 304.2
February 2026	—	\$ —	—	\$ 304.2
March 2026	—	\$ —	—	\$ 304.2

Repurchases are made in the open market in accordance with applicable federal securities laws, including Rule 10b-18 and Rule 10b5-1 of the Securities Exchange Act of 1934.

Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Securities Trading Plans of Executive Officers and Directors

The Company’s Insider Trading Policy permits executive officers and directors to enter into trading plans designed to comply with Rule 10b5-1 under the Exchange Act. During the three months ended March 31, 2026, none of the Company’s executive officers or directors adopted, modified or terminated a Rule 10b5-1 trading plan or adopted or terminated a non-Rule 10b5-1 trading arrangement (as defined in Item 408(c) of Regulation S-K).

Item 6. Exhibits
