

LIONSGATE REPORTS RESULTS FOR SECOND QUARTER FISCAL 2026

Revenue was \$475 Million

Net Loss from Continuing Operations Attributable to Shareholders was \$112 Million or \$0.39 Diluted Net Loss Per Share

Adjusted Net Loss from Continuing Operations Attributable to Shareholders was \$56.9 Million or \$0.20 Adjusted Diluted Net Loss Per Share

Operating Loss was \$46.0 Million

Adjusted OIBDA was \$14.1 Million

Trailing 12-Month Library Revenue Grew 13% to Record \$1.0 Billion

Backlog Grew 31% Sequentially to Nearly \$1.6 Billion

SANTA MONICA, CA, and VANCOUVER, BC, November 6, 2025 – Lionsgate Studios Corp. (NYSE: LION) ("Lionsgate") today reported second quarter results for the quarter ended September 30, 2025.

The Company reported second quarter revenue of \$475.1 million, operating loss of \$46.0 million and net loss from continuing operations attributable to shareholders of \$111.9 million or \$0.39 diluted loss per share on 289.2 million diluted weighted average common shares outstanding. Adjusted net loss from continuing operations attributable to shareholders in the quarter was \$56.9 million or \$0.20 adjusted diluted loss per share on 289.2 million diluted weighted average common shares outstanding. Adjusted OIBDA was \$14.1 million in the quarter.

"We reported a quarter in line with our financial expectations with all signs pointing to significant growth over the next two quarters and through fiscal 2027," said Lionsgate CEO Jon Feltheimer. "During the quarter we readied a film slate primed to deliver strong growth over the next 18 months, refilled our television pipeline with key series renewals and breakout new shows, and reported \$1 billion in trailing 12-month library revenue, a record performance that highlights our entire portfolio of intellectual property."

Trailing 12-month library revenue increased 13% from the prior-year quarter to a record \$1.0 billion, marking the 4th consecutive quarter of record trailing 12-month library revenue.

Backlog, which represents contractual commitments for future revenues not yet recorded, grew 31% sequentially to nearly \$1.6 billion.

Second Quarter Segment Results

Motion Picture segment revenue of \$276.4 million decreased due to a difficult comparison with last year, which had five wide theatrical releases compared to two wide theatrical releases in this quarter. Segment profit of \$30.5 million was up significantly due to favorable comparisons with the prior year quarter's slate.

Television Production segment revenue of \$198.7 million and segment profit of \$12.5 million reflects the timing of episodic deliveries, some of which pushed into the second half of the fiscal year.

Lionsgate senior management will hold its analyst and investor conference call to discuss fiscal 2026 second quarter results today, November 6th, at 5:00 PM ET/2:00 PM PT. Interested parties may listen to the live webcast by visiting the events page on the Lionsgate Investor Relations <u>website</u>. Alternatively, interested parties can join the webcast directly via the following link. A full replay will become available this evening by clicking the same link.

About Lionsgate

Lionsgate (NYSE: LION) is one of the world's leading standalone, pure play content companies. It brings together diversified motion picture and television production and distribution businesses, a world-class portfolio of valuable brands and franchises, a premier talent management and production powerhouse at 3 Arts Entertainment and a more than 20,000-title film and television library, all driven by Lionsgate's bold and entrepreneurial culture.

The matters discussed in this press release include forward-looking statements, including those regarding the performance of future fiscal years. Such statements are subject to a number of risks and uncertainties. Actual results in the future could differ materially and adversely from those described in the forward-looking statements as a result of various important factors, including, but not limited to: the substantial investment of capital required to produce and market films and television series; budget overruns; limitations imposed by our credit facility and notes; unpredictability of the commercial success of our motion pictures and television programming; risks related to acquisition and integration of acquired businesses; the effects of dispositions of businesses or assets, including individual films or libraries; the cost of defending our intellectual property; technological changes and other trends affecting the entertainment industry; potential adverse reactions or changes to business or employee relationships; weakness in the global economy and financial markets, including a recession, bank failures and general economic uncertainty; wars, terrorism and multiple international conflicts that could cause significant economic disruption and political and social instability; labor disruptions and strikes; the volatility of currency exchange rates; our ability to manage growth; the effects of competition on our future business; the impact of and changes in governmental regulations or the enforcement thereof, tax laws and rates, accounting guidance and similar matters in regions in which we operate or will operate in the future; international, national or local economic, social or political conditions that could adversely affect our business; the effectiveness of our internal controls and our

corporate policies and procedures; changes in personnel and availability of qualified personnel; the volatility of the market price and liquidity of our common shares; and the other risk factors set forth in Lionsgate's public filings with the Securities and Exchange Commission. The companies undertake no obligation to publicly release the result of any revisions to these forward-looking statements that may be made to reflect any future events or circumstances.

Additional Information Available on Websites

The information in this press release should be read in conjunction with the financial statements and footnotes contained in Lionsgate's Quarterly Report on Form 10-Q for the quarter ended September 30, 2025, which will be posted on Lionsgate's website at http://investors.lionsgate.com/. Trending schedules containing certain financial information will also be available.

LIONSGATE STUDIOS CORP. BASIS OF PRESENTATION AND SUPPLEMENTAL INFORMATION

Starz Separation. On May 6, 2025, through a series of transactions contemplated by a certain arrangement agreement, dated as of January 29, 2025, as amended by an amending agreement, dated as of March 12, 2025 (collectively, the "Arrangement Agreement"), the separation of the businesses of Legacy Lionsgate Studios, of which Old Lionsgate owned approximately 87.8% and the Starz Business (the "Starz Separation") was completed. As a result of the Arrangement Agreement, the pre-transaction shareholders of Old Lionsgate own shares in two separately traded public companies: (1) New Lionsgate, which was renamed "Lionsgate Studios Corp." and holds, directly and through subsidiaries, the Studio Business previously held by Old Lionsgate, and is owned by Old Lionsgate shareholders and Legacy Lionsgate Studios shareholders, and (2) Old Lionsgate, which was renamed "Starz Entertainment Corp." and holds, directly and through subsidiaries, the Starz Business that was previously held by Old Lionsgate.

Notwithstanding the legal form of the Starz Separation, for accounting and financial reporting purposes, in accordance with United States generally accepted accounting principles ("U.S. GAAP"), due to the relative significance of the Studio Business as compared to the Starz Business and the continued involvement of Old Lionsgate's senior management with the Company following the completion of the Starz Separation, Old Lionsgate is considered the accounting spinnor or divesting entity and Starz is considered the accounting spinnee or divested entity. As a result, Old Lionsgate is the accounting predecessor to the Company and the pro rata distribution of the Starz Business has been recorded through equity with no gain or loss recorded. The Starz Business is reflected as discontinued operations in the financial statements following the completion of the Starz Separation.

LIONSGATE STUDIOS CORP. SEGMENT INFORMATION

The Company's reportable segments have been determined based on the distinct nature of their operations, the Company's internal management structure, and the financial information that is evaluated regularly by the Company's Chief Operating Decision Maker ("CODM") in deciding how to allocate resources to an individual segment and in assessing performance. The Company's Chief Executive Officer ("CEO") is the CODM.

Following the Starz Separation, the Company no longer reports the Media Networks segment and currently has two reportable business segments: (1) Motion Picture and (2) Television Production.

- (1) Motion Picture. Motion Picture consists of the development and production of feature films, acquisition of North American and worldwide distribution rights, North American theatrical, home entertainment and television distribution of feature films produced and acquired, and worldwide licensing of distribution rights to feature films produced and acquired.
- (2) Television Production. Television Production consists of the development, production and worldwide distribution of television productions including television series, television movies and mini-series, and non-fiction programming. Television Production includes the licensing of Starz original series productions to Starz, and the ancillary market distribution of Starz original productions and licensed product (prior to the Starz Separation, licensing to the former Media Networks segment). Additionally, the Television Production segment includes the results of operations of 3 Arts Entertainment.

In the ordinary course of business, the Company's reportable segments enter into transactions with one another. The most common types of intersegment transactions, prior to the Starz Separation, include licensing motion pictures or television programming (including Starz original productions) from the Motion Picture and Television Production segments to the former Media Networks segment. While intersegment transactions are treated like third-party transactions to determine segment performance, the revenues (and corresponding expenses) are eliminated in consolidation and, therefore, do not affect consolidated results from operations. Following the Starz Separation, the Company and Starz will continue to be parties to certain commercial agreements and licensing motion pictures or television programming to Starz is not eliminated in consolidation and, therefore, are reflected in the consolidated results from continuing operations.

Segment information is presented in the tables below:

	Three Months Ended September 30,					Six Months Ende September 30,			
		2025		2024		2025		2024	
			(Una	audited, amo	unt	s in millions)			
Segment revenues									
Studio Business:

Television Production		198.7		416.6		487.2		658.0	
Total Studio Business		475.1		826.0		1,030.9		1,416.6	
Intersegment eliminations				(222.0)		(29.9)		(325.7)	
	\$	475.1	\$	604.0	\$	1,001.0	\$	1,090.9	
Segment profit			-						
Studio Business:									
Motion Picture	\$	30.5	\$	1.7	\$	32.9	\$	86.9	
Television Production		12.5		24.4		38.6		35.2	
Total Studio Business segment profit ⁽¹⁾		43.0		26.1		71.5		122.1	
Adjusted corporate general and administrative expenses (1)(2)		(28.9)		(28.1)		(61.0)		(61.5)	
Adjusted OIBDA ⁽¹⁾⁽³⁾	\$	14.1	\$	(2.0)	\$	10.5	\$	60.6	

- (1) See "Use of Non-GAAP Financial Measures" for the definition of Studio Business Segment Profit and Adjusted OIBDA and reconciliation to the most directly comparable GAAP financial measure.
- (2) Adjusted corporate general and administrative expenses exclude \$3.8 million and \$3.9 million in the three and six months ended September 30, 2024, respectively, of corporate general and administrative expenses that were historically allocated by Old Lionsgate to the Starz Business prior to the Starz Separation.
- (3) Beginning in the quarter ended June 30, 2025, unallocated rent cost for production facilities that were unutilized as a result of the industry strikes is excluded from Adjusted OIBDA, consistent with the calculation of segment profit. Adjusted OIBDA for the three and six months ended September 30, 2024 has been adjusted to reflect amounts consistent with the current period presentation.

The Company's primary measure of segment performance is its Studio Business segment profit. Segment profit is defined as gross contribution (segment revenues, less segment direct operating and segment distribution and marketing expense) less segment general and administration expenses. Segment profit excludes, when applicable, corporate general and administrative expense, restructuring and other costs, share-based compensation, certain content charges as a result of changes in management and/or content strategy, certain benefits or expenses related to the COVID-19 global pandemic, unallocated rent cost and purchase accounting and related adjustments. The Company believes the presentation of Studio Business segment profit is relevant and useful for investors because it allows investors to view segment performance in a manner similar to the primary method used by the Company's management, including the CODM, and enables them to understand the fundamental performance of the Company's businesses. The CODM uses Studio Business segment profit to evaluate the operating performance of the Company's segments, to inform decisions for planning and forecasting, and for the allocation of resources. Segment profit is a GAAP financial measure.

Total Studio Business segment profit is considered a non-GAAP financial measure, and should be considered in addition to, not as a substitute for, or superior to, measures of financial performance prepared in accordance with United States GAAP. We use this non-GAAP measure, among other measures, to evaluate the aggregate operating performance of our business.

LIONSGATE STUDIOS CORP. RECONCILIATION OF OPERATING INCOME (LOSS) TO ADJUSTED OIBDA AND TOTAL STUDIO BUSINESS SEGMENT PROFIT

Total Studio Business Segment Profit	\$	43.0	\$	26.1	\$	71.5	\$	122.1			

(1) Adjusted depreciation and amortization represent depreciation and amortization as presented on our consolidated statements of operations less the depreciation and amortization related to the non-cash fair value adjustments to property and equipment and intangible assets acquired in acquisitions which are included in the purchase accounting and related adjustments line item above, as shown in the table below:

	Three Months Ended September 30,					Six Months Ended September 30,			
	2025			2024		2025		2024	
			(Unau	dited, amo	unts	in millions)			
Depreciation and amortization	\$	4.4	\$	4.2	\$	8.8	\$	8.8	
Less: Amount included in purchase accounting and related adjustments		(1.2)		(1.0)		(2.0)		(2.0)	
Adjusted depreciation and amortization	\$	3.2	\$	3.2	\$	6.8	\$	6.8	

(2) Restructuring and other includes restructuring and severance costs, certain transaction and other costs, and certain unusual items, when applicable, as shown in the table below:

September 30,							
2025		2024		2025			2024
(Unaudited, amo					in millions)		
\$	9.8	\$	0.5	\$	9.8	\$	18.5
	13.1		1.1		14.8		4.1
	2.8		3.1		5.9		9.8
\$	25.7	\$	4.7	\$	30.5	\$	32.4
		\$ 9.8 13.1 2.8	\$ 9.8 \$ 13.1 2.8	2025 2024 (Unaudited, amounts) \$ 9.8 \$ 0.5 13.1 1.1 2.8 3.1	September 30, 2025 (Unaudited, amounts) \$ 9.8 \$ 0.5 \$ 13.1 1.1 2.8 3.1	September 30, September 30, 2025 (Unaudited, amounts in millions) \$ 9.8 0.5 \$ 9.8 13.1 1.1 14.8 2.8 3.1 5.9	September 30, September 3 2025 2024 2025 (Unaudited, amounts in millions) \$ 9.8 \$ 0.5 \$ 9.8 \$ 13.1 1.1 14.8 2.8 3.1 5.9

- (a) The Company recorded \$8.6 million in development expenses during the three and six months ended September 30, 2025, representing write-downs in connection with the restructuring of the Motion Picture and Television Production businesses. In addition, the amounts in the three and six months ended September 30, 2025 and 2024 include impairment costs of certain operating lease right-of-use and leasehold improvement assets related to the Television Production segment associated with facility leases that will no longer be utilized by the Company, primarily related to the integration of eOne.
- (b) Severance costs were primarily related to restructuring, acquisition integration activities and other cost-saving initiatives.
- (c) Transaction and other costs reflect transaction, integration and legal costs associated with certain strategic transactions, restructuring activities and costs associated with legal and other matters. In the three and six months ended September 30, 2025, amounts exclude transaction costs associated with the Starz Separation as such amounts are classified within discontinued operations.
- (3) Amounts in the six months ended September 30, 2024 represent a benefit from insurance recoveries related to circumstances associated with the COVID-19 pandemic. These charges and benefits are excluded from segment operating results.
- (4) Amounts represent rent cost for production facilities that were unutilized as a result of lower demand following the industry strikes, and therefore such amounts are not allocated to the segments.
- (5) The following table reconciles total share-based compensation expense to adjusted share-based compensation expense:

	Three Months Ended September 30,					Six Mont Septem	 		
	2025		2025 202		2024		24 2025		2024
			(Una	udited, amo	unts i	n millions)			
Total share-based compensation expense	\$	23.3	\$	18.1	\$	25.0	\$ 31.5		
Less:									
Amount included in restructuring and other(a)		(2.0)		(4.6)		(0.9)	(4.6)		
Adjusted share-based compensation	\$	21.3	\$	13.5	\$	24.1	\$ 26.9		

- (a) Amounts represent share-based compensation expense recorded within restructuring and other expenses, attributable to the accelerated vesting of equity awards pursuant to certain severance arrangements.
- (6) Purchase accounting and related adjustments primarily consist of the amortization of non-cash fair value adjustments to certain assets acquired in acquisitions. The table below presents the amounts included in each financial statement line item:

	Three Months Ended September 30,					Six Mont Septem	ths Ended aber 30,		
	2	2025	2024			2025		2024	
			(Unau	idited, amo	unts i	n millions)			
Purchase accounting and related adjustments:									
General and administrative expense(a)	\$	1.6	\$	1.7	\$	3.9	\$	3.8	
Depreciation and amortization		1.2		1.0		2.0		2.1	
	\$	2.8	\$	2.7	\$	5.9	\$	5.9	

- (a) Amounts represent compensation expense associated with the noncontrolling equity interests in the distributable earnings of 3 Arts Entertainment. Due to the link to continued employment performance, these amounts are classified as general and administrative expense instead of noncontrolling interest in the consolidated statements of operations.
- (7) Amounts reflects the impact of intersegment profit from the Motion Picture and Television Production segments' licensing motion pictures or television programming to the former Media Networks segment prior to the Starz separation on May 6, 2025. Following the Starz Separation, the Company and Starz will continue to be parties to certain commercial agreements and licensing motion pictures or television programming to Starz is not eliminated in consolidation and, therefore, are reflected in consolidated results from continuing operations.
- (8) Amounts in the three and six months ended September 30, 2024 represent \$3.8 million and \$3.9 million, respectively, of corporate general and administrative expenses that were historically allocated by Old Lionsgate to the Starz Business prior to the Starz Separation, and are therefore excluded from Adjusted OIBDA.

The following table reconciles total corporate general and administrative expenses to adjusted corporate general and administrative expenses:

LIONSGATE STUDIOS CORP. USE OF NON-GAAP FINANCIAL MEASURES

This earnings release presents the following important financial measures utilized by Lionsgate Studios Corp. (the "Company," "we," "us" or "our") that are not all financial measures defined by generally accepted accounting principles ("GAAP"). The Company uses non-GAAP financial measures, among other measures, to evaluate the operating performance of our business. These non-GAAP financial measures are in addition to, not a substitute for, or superior to, measures of financial performance prepared in accordance with United States GAAP.

Adjusted OIBDA: Adjusted OIBDA is defined as operating income (loss) before adjusted depreciation and amortization ("OIBDA"), adjusted share-based compensation ("adjusted SBC"), purchase accounting and related adjustments, restructuring and other costs, certain charges (benefits) related to the COVID-19 global pandemic, certain content charges, unallocated rent costs, intersegment profit eliminations, corporate general and administrative expenses historically allocated by Old Lionsgate to Starz, and unusual gains or losses (such as goodwill and intangible asset impairment), when applicable.

- Adjusted depreciation and amortization represents depreciation and amortization as presented on our consolidated statement
 of operations, less the depreciation and amortization related to the amortization of purchase accounting and related
 adjustments associated with recent acquisitions. Accordingly, the full impact of the purchase accounting is included in the
 adjustment for "purchase accounting and related adjustments", described below.
- Adjusted share-based compensation represents share-based compensation excluding the impact of the acceleration of certain vesting schedules for equity awards pursuant to certain severance arrangements, which are included in restructuring and other expenses, when applicable.
- Purchase accounting and related adjustments primarily represent the amortization of non-cash fair value adjustments to
 certain assets acquired in recent acquisitions. These adjustments include the non-cash charge for the amortization of the
 recoupable portion of the purchase price and the expense associated with the noncontrolling equity interests in the
 distributable earnings related to 3 Arts Entertainment, all of which are accounted for as compensation and are included in
 general and administrative expense.
- Restructuring and other includes restructuring and severance costs, certain transaction and other costs, and certain unusual items, when applicable.
- COVID-19 related charges or benefits include incremental costs associated with the pausing and restarting of productions including paying/hiring certain cast and crew, maintaining idle facilities and equipment costs, and when applicable, certain motion picture and television impairments and development charges associated with changes in performance expectations or the feasibility of completing the project resulting from circumstances associated with the COVID-19 global pandemic, net of insurance recoveries, which are included in direct operating expense, when applicable. In addition, the costs include early or contractual marketing spends for film releases and events that have been canceled or delayed and will provide no economic benefit, which are included in distribution and marketing expense, when applicable.
- Content charges include certain charges as a result of changes in content strategy, which are included in direct operating expenses, when applicable.
- Unallocated rent costs represent rent cost for production facilities that were unutilized as a result of the industry strikes, and therefore such amounts are not allocated to the segments.
- Intersegment profit eliminations reflects the impact of intersegment profit from the Motion Picture and Television Production segments' licensing motion pictures or television programming to the former Media Networks segment prior to the Starz separation on May 6, 2025. Following the Starz Separation, the Company and Starz will continue to be parties to certain commercial agreements and licensing motion pictures or television programming to Starz is not eliminated in consolidation and, therefore, are reflected in consolidated results from continuing operations.
- Corporate allocation by Old Lionsgate to Starz represents corporate general and administrative expenses that were historically allocated to the Starz Business prior to the Starz Separation.

Adjusted OIBDA is calculated similar to how the Company defines segment profit and manages and evaluates its segment operations. Segment profit also excludes corporate general and administrative expense.

<u>Total Studio Business Segment Profit:</u> We present the sum of our Motion Picture and Television Production segment profit as our "Studio Business" segment profit. Studio Business segment profit is considered a non-GAAP financial measure, and should be considered in addition to, not as a substitute for, or superior to, measures of financial performance prepared in accordance with United States GAAP. We use this non-GAAP measure, among other measures, to evaluate the aggregate operating performance of our business.

The Company believes the presentation of Studio Business segment profit is relevant and useful for investors because it allows investors to view segment performance in a manner similar to the primary method used by the Company's management and enables them to understand the fundamental performance of the Company's businesses before non-operating items. Studio Business segment profit is considered an important measure of the Company's performance because it reflects the aggregate profit contribution from the Company's Motion Picture and Television Production segments, and represents a measure, consistent with our segment profit, that eliminates amounts that, in management's opinion, do not necessarily reflect the fundamental performance of the Company's businesses, are infrequent in occurrence, and in some cases are non-cash expenses. Following the Starz Separation, the Company and Starz will continue to be parties to certain commercial agreements and licensing motion pictures or television programming to Starz is not eliminated in consolidation and, therefore, are reflected in consolidated results from continuing operations. As such, the presentation of Studio Business Segment Profit excludes the impact of intersegment profit eliminations from the Motion Picture and Television Production segments' licensing motion pictures or television programming to the former Media Networks segment prior to the Starz separation, to reflect the performance of the business consistent with continuing operations. Not all companies calculate segment profit or total segment profit in the same manner, and segment profit and total segment profit as defined by the Company may not be comparable to similarly titled measures presented by other companies due to differences in the methods of calculation and excluded items.

Adjusted Free Cash Flow: Free cash flow is typically defined as net cash flows provided by (used in) operating activities, less capital expenditures. The Company defines Adjusted Free Cash Flow as net cash flows provided by (used in) operating activities from continuing operations, less capital expenditures, plus or minus the net increase or decrease in production and related loans (which includes our production tax credit facility), plus or minus certain unusual or non-recurring items.

The adjustment for the production and related loans, exclusive of our production tax credit facility, is made because the GAAP based cash flows from operations from continuing operations reflects a non-cash reduction of cash flows for the cost of films and television programs prior to the time the Company pays for the film or television program through the payment of the associated production or related loan which occurs at or near completion of the production, or in some cases, over the period revenues and cash receipts are being generated, as more fully described below.

The cost of producing films and television programs, which is reflected as a reduction of the GAAP based cash flows provided by (used in) operating activities from continuing operations, is often financed through production loans. The adjustment for production and related loans is made in order to better align the timing of the cash flows associated with producing films and television programs with the timing of the repayment of the production loans, which is consistent with how management views its production cash spend and manages the Company's cash flows and working capital needs. Borrowings on production loans offset the spend on investment in films reflected in the GAAP based cash flows provided by (used in) operating activities from continuing operations and thus increase the Adjusted Free Cash Flows as compared to the GAAP based cash flows provided by (used in) operating activities from continuing operations and subsequent payments on production loans reflect the payment for the production of the film or TV program and reduce Adjusted Free Cash Flows as compared to the GAAP based cash flows provided by (used in) operating activities from continuing operations.

The adjustment for the production tax credit facility is made to better reflect the timing of the cash requirements of the production, since a portion of the amounts expended initially are later refunded through the receipt of the tax credit, as more fully described below. The production tax credit facility reduces the timing difference between the payments for production cost and the receipt of the tax

credit and thus reflects the cash cost of the film or television program at or near the time the film or television program is produced and completed.

Part of the cost of a film or television program is effectively funded through obtaining government incentives, however, the incentives are not received until a future period which could be a few years after the completion of the film. The tax credit facility reflects borrowings collateralized by the tax credits to be received in the future and thus by including these borrowings in Adjusted Free Cash Flow it has the effect of better aligning the receipt of the tax credits with the timing of the production and completion of the film and television programs, which is consistent with how management views its production cash spend and manages the Company's cash flows and working capital needs. Borrowings under the tax credit facility reduce the cash spend reflected in the GAAP based cash flows provided by (used in) operating activities from continuing operations and thus increase adjusted free cash flows provided by (used in) operating activities from continuing operations and reduce adjusted free cash flows as compared to the GAAP based cash flows provided by (used in) operating activities from continuing operations.

The Company believes that it is more meaningful to reflect the impact of the payment for these films and television programs when the payments are made under the production loans and the receipt of the tax credit when the film is being produced in its Adjusted Free Cash Flow.

Adjusted Net Income (Loss) - Continuing Operations Attributable to Lionsgate Studios Corp. Shareholders: Adjusted net income (loss) from continuing operations attributable to Lionsgate Studios Corp. shareholders is defined as net income (loss) from continuing operations attributable to Lionsgate Studios Corp. shareholders, adjusted for share-based compensation, purchase accounting and related adjustments, restructuring and other items, unallocated rent costs related to unutilized facilities, net gains or losses on investments and other, gain or loss on extinguishment of debt, COVID-19 related charges (benefit), unusual gains or losses, when applicable, as described in the Adjusted OIBDA definition, net of the tax effect of the adjustments at the applicable effective tax rate for each adjustment and net of the impact of the adjustments on noncontrolling interest.

Adjusted Basic and Diluted EPS - Continuing Operations: Adjusted basic earnings (loss) per share is defined as adjusted net income (loss) from continuing operations attributable to Lionsgate Studios Corp. shareholders divided by the weighted average shares outstanding. Diluted EPS is similar to basic EPS but is adjusted for the effects of securities that are diluted based on the level of adjusted net income (loss) from continuing operations, similar to GAAP.

<u>Overall</u>: These measures are non-GAAP financial measures as defined in Regulation G promulgated by the SEC and are in addition to, not a substitute for, or superior to, measures of financial performance prepared in accordance with United States GAAP.

We use these non-GAAP measures, among other measures, to evaluate the operating performance of our business. We believe these measures provide useful information to investors regarding our results of operations and cash flows before non-operating items. Adjusted OIBDA is considered an important measure of the Company's performance because this measure eliminates amounts that, in management's opinion, do not necessarily reflect the fundamental performance of the Company's businesses, are infrequent in occurrence, and in some cases are non-cash expenses. Adjusted Free Cash Flow is considered an important measure of the Company's liquidity because it provides information about the ability of the Company to reduce net corporate debt, make strategic investments, dividends and share repurchases. Adjusted Net Income (Loss) from Continuing Operations Attributable to Lionsgate Studios Corp. Shareholders and Adjusted EPS are considered important measures of the Company's business operations as, similar to Adjusted OIBDA, these measures eliminate amounts that, in management's opinion, do not necessarily reflect the fundamental performance of the Company's businesses.

These non-GAAP measures are commonly used in the entertainment industry and by financial analysts and others who follow the industry to measure operating performance. However, not all companies calculate these measures in the same manner and the measures as presented may not be comparable to similarly titled measures presented by other companies due to differences in the methods of calculation and excluded items.

A general limitation of these non-GAAP financial measures is that they are not prepared in accordance with U.S. generally accepted accounting principles. These measures should be reviewed in conjunction with the relevant GAAP financial measures and are not presented as alternative measures of operating income, cash flow, net income (loss) from continuing operations, or earnings (loss) per

share from continuing operations as determin corresponding GAAP metrics are provided ab	ned in accordance with GA ove.	AAP. Reconciliations of the	e adjusted metrics utilized to	their
