LOS ANGELES, March 10, 2020 (GLOBE NEWSWIRE) -- ChromaDex Corp. (NASDAQ:CDXC) today reported fourth quarter 2019 financial results.

"We delivered strong performance across key metrics in 2019, secured regulatory approval in the EU and Australia, and published the sixth human clinical study demonstrating the safety and efficacy of Niagen," said ChromaDex CEO Rob Fried. "By achieving these commercial, regulatory, and scientific milestones, we continue to make great progress against our financial and strategic goals."

Results of operations for the three months ended December 31, 2019

For the three months ended December 31, 2019 ("Q4 2019"), ChromaDex reported net sales of \$13.1 million, up 44% compared to \$9.1 million in the fourth quarter of 2018 ("Q4 2018"). The increase in Q4 2019 revenues was driven by growth in sales of Tru Niagen and Niagen ingredient revenues.

Gross margin increased by 510 basis points to 57.0% in Q4 2019 compared to 52.0% in Q4 2018. The increase in gross margin was driven by the positive impact of increased Tru Niagen consumer product sales.

Operating expenses increased by \$3.4 million to \$16.3 million in Q4 2019, compared to \$13.0 million in Q4 2018. The increase in operating expenses was driven by an increase of \$3.1 million in general and administrative expense, and an increase of \$0.5 million of selling and marketing expense, partially offset by \$0.1 million of lower R&D expense. The increase in general and administrative expense was driven by \$2.2 million of bad debt expense related to the write-off of an Elysium receivable. This reflects conservative accounting treatment and not the potential return on investment in litigation matters.

The net loss for Q4 2019 was (\$8.9) million or (\$0.15) per share as reported compared to a net loss of (\$8.2) million or (\$0.15) per share for Q4 2018 as reported. Non-GAAP net loss per share was (\$0.11) excluding a \$2.2 million, or \$0.04 per share, non-cash charge related to the write-off of the Elysium receivable as bad debt in Q4 2019.

Adjusted EBITDA excluding total legal expense, a non-GAAP measure, was a loss of (\$2.1) million for Q4 2019, compared to a loss of (\$4.0) million for Q4 2018, a \$1.9 million improvement.

ChromaDex defines Adjusted EBITDA excluding total legal expense as net income or (loss) which is adjusted for interest, income tax, depreciation, amortization, non-cash stock compensation costs, severance and restructuring expense, bad debt expense related to Elysium Health and total legal expense.

For Q4 2019, the net cash used in operating activities was (\$0.6) million versus (\$5.1) million in Q4 2018.

Results of operations for the year ended December 31, 2019

For the full year ended December 31, 2019 ("FY 2019"), ChromaDex reported net sales of \$46.3 million, up 47% compared to \$31.6 million in the full year ended December 31, 2018 ("FY 2018"). The increase in FY 2019 revenues was driven by growth in sales of Tru Niagen.

Gross margin increased by 480 basis points to 55.7% in FY 2019 compared to 50.9% in FY 2018. The increase in gross margin was driven by the positive impact of increased Tru Niagen consumer product sales.

Operating expenses increased by \$7.9 million to \$57.1 million in FY 2019, compared to \$49.2 million in FY 2018. The increase in operating expenses was driven by an increase of \$7.2 million in general and administrative expense, and an increase of \$1.7 million of selling and marketing expense, partially offset by \$1.1 million of lower R&D expense. The increase in general and administrative expense was driven by \$2.2 million of bad debt expense related to the write-off of an Elysium receivable, higher legal costs of \$1.5 million and higher royalty expense of \$1.0 million.

The net loss for FY 2019 was (\$32.1) million or (\$0.56) per share as reported compared to a net loss of (\$33.3) million or (\$0.61) per share for FY 2018 as reported. For FY 2019, the reported loss was negatively impacted by a non-cash charge of \$7.2 million related to stock-based compensation and \$2.2 million related to the write-off of Elysium-related bad debt. Non-GAAP net loss per share was (\$0.52) excluding a \$2.2 million, or \$0.04 per share, non-cash charge related to the write-off of the Elysium receivable as bad debt in Q4 2019.

Adjusted EBITDA excluding total legal expense, a non-GAAP measure, was a loss of (\$8.8) million for FY 2019, compared to a loss of (\$16.2) million for FY 2018, a \$7.4 million improvement. The \$7.4 million improvement was primarily driven by higher sales and gross margins, partially offset by higher marketing and selling expense and general and administrative expense.

For full year 2019, the net cash used in operating activities was (\$20.4) million versus (\$20.9) million for the same period in the prior year. The Company ended the year of 2019 with cash of \$18.8 million.

#### 2020 Outlook

Looking forward, the Company expects revenue growth to be driven primarily by its U.S. ecommerce and Watsons international business, as well as the launch of Tru Niagen with other partners and distributors in new international markets, including U.K. and Australia, and new platforms, including Persona Nutrition, which was recently acquired by Nestlé Health Science. The Company expects continued gross margin improvement driven by a higher mix of Tru

Niagen sales, product design changes implemented in late 2019, and additional supply chain cost savings initiatives in 2020. The Company expects lower selling, marketing and advertising as well as general and administrative expenses as a percentage of net sales driven by strong growth from returning customers and scale on our fixed overhead costs driven by organizational realignment initiatives, as well as new systems and processes.
