

Niagen Bioscience to Present at the 38th Annual ROTH Conference

2026-03-18

LOS ANGELES--(BUSINESS WIRE)-- **Niagen Bioscience, Inc.** (NASDAQ: NAGE), the global authority on NAD+ (nicotinamide adenine dinucleotide) with a focus on the science of healthy aging, today announces that senior management will participate at the **38th Annual ROTH Conference**, taking place at The Ritz-Carlton Laguna Niguel in Dana Point, California, from March 22 to 24, 2026.

Niagen Bioscience CEO, Rob Fried, will participate in the Technologies Advancing Healthy Aging Panel on Monday, March 23, at 2:00 PM PT (5:00 PM ET). The panel will be livestreamed and available at www.event.summitcast.com. Additionally, Niagen Bioscience's CEO, Rob Fried, and CFO, Ozan Pamir, will attend one-on-one meetings with institutional investors in person throughout the day.

This year's event will consist of one-on-one and small-group meetings, analyst-selected fireside chats, industry keynotes, and panels, with executive management from hundreds of private and public companies across a variety of growth sectors in attendance.

Investors interested in arranging one-on-one meetings should contact their ROTH representative. To learn more and submit a registration request, click [here](#).

The Technologies Advancing Healthy Aging Panel will be livestreamed and available at www.event.summitcast.com.

About Niagen Bioscience:

Niagen Bioscience, Inc. (NASDAQ: NAGE) is the global leader in NAD+ (nicotinamide adenine dinucleotide) science and healthy-aging research. As a trusted pioneer of NAD+ discoveries, Niagen Bioscience™ is dedicated to advancing healthspan through precision science and innovative NAD+-boosting solutions.

The Niagen Bioscience team, composed of world-renowned scientists, works with independent investigators from esteemed universities and research institutions around the globe to uncover the full potential of NAD+. A vital coenzyme found in every cell of the human body, NAD+ declines with age and exposure to everyday lifestyle stressors. NAD+ depletion is a key contributor to age-related changes in health and vitality.

Distinguished by state-of-the-art laboratories, rigorous scientific and quality protocols, and collaborations with leading research institutions worldwide, Niagen Bioscience sets the gold standard for research, quality, and innovation. There's a better way to age.

At the heart of its clinically proven product portfolio is Niagen® (patented nicotinamide riboside, or NR), the most efficient, well-researched, and high-quality NAD+ booster available. Niagen powers the Company's consumer supplement, Tru Niagen®, the number one NAD+ boosting oral supplement in the United States† (available at www.truniagen.com), and Niagen Plus™, featuring pharmaceutical-grade intravenous (IV) and injectable Niagen products (www.niagenplus.com). Pharmaceutical-grade Niagen IV and injections are compounded and distributed by U.S. FDA-registered 503B outsourcing facilities and are available exclusively at clinics with a prescription.

Niagen Bioscience's robust patent portfolio protects NR and other NAD+ precursors. Niagen Bioscience maintains a website at www.niagenbioscience.com, where copies of press releases, news, and financial information are regularly published.

† Based on revenue per largest U.S. e-commerce marketplace (Jan. 2025 – Dec. 2025)
