#### **Non-GAAP Financial Measures**

Management supplements the reporting of financial information, determined under GAAP, with certain non-GAAP financial information. Management believes the non-GAAP information presented provides investors with additional useful information, but it is not intended to nor should it be considered in isolation or as a substitute for the related GAAP measures. Moreover, other companies may define non-GAAP measures differently, which limits the usefulness of these measures for comparisons with such other companies. The Company encourages investors to review its financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure.

Adjusted EBITDA represents income (loss) from continuing operations (a GAAP measure) before income taxes, interest expense, net, foreign exchange gain (loss), net, other non-operating expenses (e.g., gains/losses on extinguishment and modifications of debt), net, depreciation, impairment losses, amortization (service revenue, purchase accounting, and non-purchase accounting), stock-based compensation, litigation expense (income), and certain other non-recurring items. Other non-recurring items are infrequent in nature and are not reflective of ongoing operational activities.

A reconciliation of the non-GAAP measures to the corresponding amounts prepared in accordance with GAAP appears in the tables in this release. The tables provide additional information as to the items and amounts that have been excluded from the adjusted measures.

#### **Basis of Preparation**

Amounts reported in millions are computed based on the amounts in thousands. As a result, the sum of the components may not equal the total amount reported in millions due to rounding. Certain columns and rows within tables may not add due to the use of rounded numbers.
