

NEWS RELEASE

IGT Leads New Era in Cashless Gaming with Completion of Nevada Regulatory Approval

1/5/2021

IGT technology is first in the State to enable Cashless Wagering Accounts for slot play via Resort Wallet™ solution for IGT ADVANTAGE® casino management system

LONDON, Jan. 5, 2021 /PRNewswire/ -- International Game Technology PLC ("IGT") (NYSE: IGT) announced today that the Company is leading a new era in cashless gaming by successfully completing the final stage of Nevada regulatory approval for its Resort Wallet™ carded cashless module, part of the award-winning IGT ADVANTAGE® casino management system. With this milestone, the module is approved for deployment throughout the State, enabling customers to give their casino patrons the option of a reduced-contact, safer, and effortless cashless slot gaming experience.

"Our Resort Wallet solution ensures that our customers can experience the increased liquidity, player convenience, and enhanced safety that only cashless gaming can deliver," said **Ryan Reddy, IGT Vice President, VLT, Systems and Payments Products**. "This solution will heighten the player experience to new levels while positioning our customers as technology leaders. We're grateful to the Nevada Gaming Control Board for enabling this momentous debut in the State."

The approved Resort Wallet carded cashless module enables players to use a loyalty card to transfer cash into a secure digital wallet from either the casino cash desk or any Resort Wallet-enabled slot machine. Players can then insert their PIN-protected card into the slot machine, apply those funds to their game play, and cash out to their secure digital wallet at any time. They can also choose to move a portion of their funds from the slot machine to their digital wallet while printing a ticket at the slot machine for the balance.

The carded cashless module is one of three variations available as part of IGT's Resort Wallet solution, the industry's only fully integrated, turnkey cashless technology:

- A variation of the Resort Wallet solution includes cardless cashless, where players tap their smartphone on a slot machine or table game to card in. They can then access their Cashless Wagering Account, load cash into the account from either the casino cashier, kiosk, or slot machine, then transfer funds between slot machines onsite, as well as between a casino's properties.
- Cashless with external funding represents the full-service variation of the Resort Wallet solution. It combines Resort Wallet with IGT Pay™, IGT's proven, proprietary external funding gateway. Players access their Cashless Wagering Account from a mobile app, with the flexibility to load their account securely and directly with funds from external sources such as credit and debit cards, bank accounts, and e-Wallets.

In addition to slot play, patrons can seamlessly access the funds in their Resort Wallet Cashless Wagering Account for table gaming, sports betting, and at retail points-of-sale.

All Resort Wallet modules encourage social distancing on the gaming floor by reducing line-ups at the casino cash desk and kiosks, and generate greater operational efficiencies by reducing cash handling costs and associated safety and security risks. Cashless play lessens machine maintenance by reducing cash handling, and results in fewer cash handling errors.

In addition, the IGT ADVANTAGE system enables responsible gaming information to be displayed through the Service Window and NexGen® display on the slot machine, as well as through notifications on the Resort Wallet-enabled cashless wagering mobile app.

Cautionary Statement Regarding Forward-Looking Statements

This news release may contain forward-looking statements (including within the meaning of the Private Securities Litigation Reform Act of 1995) concerning International Game Technology PLC and its consolidated subsidiaries (the "Company") and other matters. These statements may discuss goals, intentions, and expectations as to future plans, trends, events, dividends, results of operations, or financial condition, or otherwise, based on current beliefs of the management of the Company as well as assumptions made by, and information currently available to, such management. Forward-looking statements may be accompanied by words such as "aim," "anticipate," "believe," "plan," "could," "would," "should," "shall", "continue," "estimate," "expect," "forecast," "future," "guidance," "intend," "may," "will," "possible," "potential," "predict," "project" or the negative or other variations of them. These forward-looking statements speak only as of the date on which such statements are made and are subject to various risks and uncertainties, many of which are outside the Company's control. Should one or more of these risks or uncertainties materialize, or should any of the underlying assumptions prove incorrect, actual results may differ materially from those predicted in the forward-looking statements and from past results, performance, or achievements. Therefore, you should not place undue reliance on such statements. Factors that could cause actual results to differ materially from those in the forward-looking statements include (but are not limited to) the factors and risks described in the Company's annual report on Form 20-F for the financial year ended December 31, 2019 and other documents filed from time to time with the SEC, which are available on the SEC's website at www.sec.gov and on the investor relations section of the Company's website at www.IGT.com. Except as required under applicable law, the Company does not assume any obligation to update these forward-looking statements. You should carefully consider these factors and other risks and uncertainties that affect the Company's business. All forward-looking statements contained in this news release are qualified in their entirety by this cautionary statement. All subsequent written or oral forward-looking statements attributable to International Game Technology PLC, or persons acting on its behalf, are expressly qualified in their entirety by this cautionary statement.
