IGT Revolutionizes Mechanical Reel Slot Category with DiamondRS Cabinet

7/13/2022

Reimagined mechanical reel cabinet debuts with research-driven design and a compelling content library featuring elevated performance-proven games

LONDON, July 13, 2022 /PRNewswire/ -- International Game Technology PLC ("IGT") (NYSE: IGT) announced today that it has launched the highly anticipated DiamondRS™ mechanical reel cabinet. The cabinet marks a pivotal point for IGT in the mechanical reel segment and leverages extensive market research merged with leading-edge technology to provide a next-generation gaming experience on a traditional cabinet style.

Guests of Yaamava' Resort & Casino at San Manuel in Highland, Calif. were among the first players in the world to enjoy exciting new versions of popular IGT slot games on the DiamondRS cabinet.

"Yaamava' Resort & Casino at San Manuel is honored to be one of the first casinos worldwide to offer IGT's DiamondRS cabinet," said **Kenji Hall, Yaamava' Resort & Casino Chief Operating Officer**. "Our focus on providing the latest and most innovative product has been a pillar of our success. IGT continues to be a leader in this field, and this partnership allows us to provide a best-in-class experience for our valued customers."

Combining player-preferred design with first-rate innovation, the DiamondRS cabinet retains some of the design elements and iconic mechanical reel components that helped drive the success of IGT's iconic S2000 slot machine, a pillar on casino floors for decades, and the subsequent S3000 cabinet. The DiamondRS cabinet features a familiar three-reel configuration enhanced with state-of-the-art IGT Diamond Glass™ transmissive reel technology, which integrates a transparent video overlay over the mechanical reels, enabling the cabinet to host multiple payline configurations and more engaging game content.

"The launch of the DiamondRS cabinet continues IGT's decades-long reign in the mechanical reel segment with classic DNA enhanced by the industry-first innovation of Diamond Glass technology," said **Nick Khin, IGT Chief Operating Officer, Gaming**. "This groundbreaking evolution reflects IGT's ingenuity and commitment to delivering premier gaming products that meet player preferences and provide dynamic performance."

The DiamondRS cabinet includes a bold 32-inch ultra-high-definition LCD top box display with a 23-inch high-definition main monitor with multi-touch screen capabilities. To elevate the experience, the dynamic player panel incorporates an easy-to-read panel and ergonomic button deck design, complete with an inductive wireless phone charger and USB charging port. In addition, the intelligent cabinet lighting adds a vibrant focal point with energetic win celebrations.

Staying true to the brand, the DiamondRS cabinet is supported by an extensive content library featuring new renditions of IGT's proven legacy themes. Highlights include Double Top Dollar™, a modern reprise of one of the most popular slot games of all time. In addition, player-favorite themes have been combined to introduce exciting new titles such as Pinball™ Double Gold™, Red Hot Tamales! Pinata Bash™, and more.
