IGT Enhances Player Security in Oregon with Video Lottery Digital Prize Redemption

10/10/2022

Oregon Lottery becomes first U.S. lottery to provide VLT player accounts

LONDON, Oct. 10, 2022 /PRNewswire/ -- International Game Technology PLC ("IGT") (NYSE: IGT) announced today that it will provide the Oregon Lottery with IGT's video lottery account-based cashless solutions via its INTELLIGEN™ central system. The Oregon Lottery will enable the account-based cashless technologies on the more than 11,500 video lottery terminals (VLTs) throughout the state.

"Through the deployment of IGT's account-based solution, Oregon Lottery VLT players will gain the ability to save large winnings to player accounts for redemption, removing the need for paper tickets which can be lost or stolen," said **Barry Pack, Oregon Lottery Director.** "It's also another small step towards knowing more about who plays our games which is a long-term goal of ours."

"The Oregon Lottery operates one of the most successful VLT programs in North America and the integration of IGT's INTELLIGEN cashless solutions will enable many player benefits while offering flexibility to meet evolving market expectations and regulations," said **Ryan Reddy, IGT SVP, Global Product Management, VLT Systems, Payments and Poker.** "As the demand for cashless technology has grown tremendously over the last two years, IGT applauds the Oregon Lottery's continued forward-thinking approach to evolve with industry innovations while maximizing contributions to good causes in the state."

IGT's account-based functionality seamlessly integrates with the INTELLIGEN central system that connects all lottery VLTs in Oregon. The functionality enables the Oregon Lottery to build a website where players can create accounts and speed the redemption of winning video lottery tickets.

In addition, while Oregon Lottery is focusing on the claims process, IGT's account-based functionality can be leveraged to offer players additional opportunities, such as IGT's proprietary IGTPay™ payment gateway that enables secure and compliant external funding options. With this payment gateway, players can use a personal device to fund their accounts from a range of sources.
