THE HANOVER INSURANCE GROUP

BASIS OF PRESENTATION

SEGMENT DESCRIPTIONS

CORE COMMERCIAL

Sub-segment	Customer and business type	Primary lines of business
Small Commercial	Coverage to small businesses, with annual premiums of \$50,000 or less; Products are tailored to specific industry segments as needed.	• Business owners' policy/commercial multiple peril • Commercial automobile • Workers' compensation • Other (general liability, commercial umbrella, monoline property)
Middle Market	Coverage to mid-sized businesses with annual premiums starting at \$50,000, focusing on those between \$50,000 and \$250,000. Products are tailored to certain specific industry segments, including technology, manufacturing, human services, retail, real estate, among others.	• Commercial multiple peril • Commercial automobile • Workers' compensation • Other (general liability, commercial umbrella, monoline property)

SPECIALTY

Sub-segment	Customer and business type	Primary lines of business
Marine and Industrial Property	Inland and ocean marine - insures against physical losses to property, such as contractor's equipment, builders' risk and goods in transit. Also covers jewelers block, fine art and other valuables. Hanover Specialty Industrial (HSI) - coverage to small and medium chemical, paint, solvent and other manufacturers and distributors.	• Inland/ocean marine • Ancillary lines of business written through marine agents • Property, fire and allied lines
Professional and Executive Lines	Coverage to small to mid-sized non-public companies, including lawyer, engineer, accountant, and various other professional and advisory firms including healthcare; provide protection for directors, officers and employees against actual or alleged errors, negligence or bad faith, employment practices.	• Professional liability • Management liability • Fidelity and crime • Other property and liability lines for healthcare firms
E&S and Alternative Markets	Excess & surplus - non-admitted general liability and property coverage to risks outside of the appetite of standard commercial lines; Program business - coverage to markets with specialty or risk management needs related to groups of similar businesses; Specialty general liability - admitted coverage for higher-hazard liability risks	• Commercial multiple peril • Commercial automobile • Workers' compensation • Other (general liability, commercial umbrella, monoline property)
Surety and Other	Provides coverage for construction and other firms, as well as sole proprietors in the event of claims for non-performance or non-payment, and commercial surety coverage related to fiduciary or regulatory obligations.	• Bond

PERSONAL LINES

Sub-segment	Customer and business type	Primary lines of business
Personal Automobile	Includes coverage for individuals against losses incurred from personal bodily injury, bodily injury to third parties, property damage to an insured's vehicle, and property damage to other vehicles and other property.	• Personal automobile
Homeowners and Other	Includes coverage for individuals for losses to their residences and personal property, such as those caused by fire, wind, hail, water damage (excluding flood), theft and vandalism, and against third-party liability claims.	• Homeowners • Personal umbrella • Inland Marine (jewelry, art, etc.) • Other (fire, personal watercraft, other miscellaneous)

OTHER

The Other segment primarily includes earnings on holding company assets; holding company, public company governance and other expenses, including certain costs associated with retirement benefits due to our former life insurance subsidiaries' employees and agents; and our run-off direct asbestos and environmental business, run-off voluntary assumed property and casualty pools, and run-off product liability business.

RECONCILIATION OF OPERATING INCOME TO NET INCOME

20

THE HANOVER INSURANCE GROUP

Non-GAAP Financial Measures

The Hanover uses non-GAAP financial measures as important measures of the Company's operating performance, which we believe provide investors with additional information regarding management's evaluation of our results of operations and financial performance. The Company's non-GAAP measures include operating income before interest expense and income taxes, total operating income after income taxes, total operating income after income taxes per diluted share, total book value per share, total book value per share excluding net unrealized gains and losses related to fixed maturity investments and market risk, net of tax, tangible book value per share and measures of operating income and combined ratios excluding catastrophe losses (catastrophe losses as discussed here and in all other measures include catastrophe loss development) and reserve development.

Operating income before interest expense and income taxes is net income, excluding interest expense on debt, income taxes and net realized and unrealized investment gains and losses, which includes changes in the fair value of equity securities still held because fluctuations in these gains and losses are determined by interest rates, financial markets and the timing of sales. Operating income before interest expense and income taxes also excludes net gains and losses on disposals of businesses, discontinued operations, restructuring costs, the cumulative effect of accounting changes and certain other items. Operating income before interest expense and income taxes is the sum of the operating income (loss) from: Core Commercial, Specialty, Personal Lines, and Other. After-tax operating income earnings per diluted share (sometimes referred to as "after-tax operating income per share") is also a non-GAAP measure. It is defined as net income excluding the after-tax impact of net realized and unrealized investment gains (losses), as well as results from discontinued operations and other non-operating items for a period divided by the average number of diluted shares of common stock. The Hanover believes that measures of operating income before interest expense and income taxes provide investors with a valuable measure of the performance of the Company's ongoing businesses because they highlight net income attributable to the core operations of the business.

Book value per share is total shareholders' equity divided by the number of common shares outstanding. Book value per share excluding net unrealized gains and losses related to fixed maturity investments, net of tax, is total shareholders' equity excluding the after-tax effect of unrealized investment gains and losses on fixed maturities and market risk divided by the number of common shares outstanding. Tangible book value per share is total shareholders' equity, excluding goodwill and intangible assets, divided by the number of common shares outstanding.

The Hanover also provides measures of operating results and loss ratios that exclude the effects of catastrophe losses. A catastrophe is a severe loss, resulting from natural or manmade events. Catastrophes can be caused by various natural events including, among others, hurricanes, tornadoes and other windstorms, hail, flood, earthquakes, severe winter weather and other convective storms, fire, and explosions. Catastrophes can be caused by various manmade events including, among others, fire, explosions, riots, and terrorism. Each catastrophe has unique characteristics. Catastrophes are not predictable as to timing or loss amount in advance. The Hanover believes that providing certain financial metrics and trends excluding the effects of catastrophes is meaningful for investors to understand the variability of periodic earnings and loss ratios.

Prior year reserve development, which can be favorable or unfavorable, represents changes in our estimate of the costs to pay claims from prior years. We believe that a discussion of operating income excluding prior year reserve development is helpful to investors since it provides insight into both our estimate of current year accident results and changes to prior-year reserve estimates.

Operating income before and after interest expense and income taxes and measures of operating income that exclude the effects of catastrophe losses or reserve development should not be construed as substitutes for income before income taxes or income from continuing operations and operating income should not be construed as a substitute for net income determined in accordance with GAAP. A reconciliation of income from continuing operations to operating income before interest expense and income taxes and income from continuing operations per diluted share to operating income after taxes per diluted share for the three and nine months ended September 30, 2026 and 2025 is set forth on page 20 of this document. The presentation of loss ratios calculated excluding the effects of reserve development and/or catastrophe losses should not be construed as a substitute for loss ratios determined in accordance with GAAP.

Additional reconciliations are provided in the press release relating to the current period(s) financial results, which is available on the Company's website, www.hanover.com.

THE HANOVER INSURANCE GROUP

PREMIUM RELATED METRIC DEFINITIONS

Renewal Price Change

- **Core Commercial and Specialty:** Represents the average change in premium on renewed policies caused by the estimated net effect of base rate changes, discretionary pricing, specific inflationary changes or changes in policy level exposure or insured risks.
- **Personal Lines:** Represents the average change in premium on policies charged at renewal caused by the net effects of filed rate, inflation adjustments or other changes in policy level exposure or insured risks, regardless of whether or not the policies are retained for the duration of their contractual terms.

Rate

- **Core Commercial and Specialty:** Represents the average change in premium on renewed policies caused by the base rate changes, discretionary pricing, and inflation, excluding the impact of changes in policy level exposure or insured risks.
- **Personal Lines:** Represents the estimated cumulative premium effect of approved rate actions applied to policies at renewal, regardless of whether or not policies are actually renewed. Accordingly, rate changes do not represent actual increases or decreases realized by the company. Personal Lines rate changes do not include inflation or changes in policy level exposure or insured risks.

Retention

- **Core Commercial and Specialty:** Represents the ratio of net retained premium for the noted period to the premium available to renew over the same period.
- **Personal Lines:** Represents the ratio of net retained policies for the noted period to those policies available to renew over the same period and includes policies that were canceled and rewritten.

Policies in Force (PIF) Change

- Represents the change in the number of policies in force at the end of a given period from the end of the same period in the prior year.
