NEWS RELEASE

AIRO Completes First Operational Delivery Featuring New Zentra Camera Suite

2026-07-09

MCLEAN, Va.--(BUSINESS WIRE)-- AIRO Group Holdings, Inc. (Nasdaq: AIRO), a next-generation aerospace and defense company, today announced the successful delivery of an unmanned aircraft systems (UAS) order. This marks the first operational deployment of its Zentra camera offering, included on the RQ-35 Heidrun. The delivery was completed during the second quarter of 2026.

Zentra Sensor Suite

The proprietary Zentra Suite System, developed by AIRO subsidiary Sky-Watch, advances the Company's vertically integrated UAS capabilities by combining mission sensing and resilient navigation in a compact architecture for Sky-Watch RQ UAV platforms. The Zentra Suite delivers EO/IR sensing, thermal detection, long-range visual identification, and navigation support in GNSS-challenged environments. Other features of the system include AI-driven analytics, a panoramic 360-degree camera, 4K video and still-image capture, and 50x continuous zoom.

"Owning our imaging technology changes what we can deliver to customers, giving us direct control over the capabilities that matter most in complex mission environments," said CEO, Joe Burns. "As the demand for sharper, more reliable ISR grows across allied forces, building this capability in-house through Sky-Watch lets us move faster and tailor performance to exactly what operators need in the field."

As AIRO executes on its product roadmap, the continued advancement of the Zentra Suite System marks another milestone in the Company's strategy to build a differentiated, vertically integrated UAS platform. The integration of proprietary offerings such as Zentra expands platform autonomy and operational flexibility while supporting AIRO’s strategy to expand its portfolio of proprietary products, diversify revenue streams, and reduce revenue variability over time.

The delivery reflects both the continued scaling of AIRO's unmanned systems production and growing interest in its vertically integrated platforms across allied defense, security, and commercial markets. As demand increases, AIRO remains focused on advancing proprietary technologies, expanding production capacity, and delivering reliable, mission-critical solutions worldwide.

About AIRO Group Holdings, Inc.

AIRO Group Holdings is a next-generation aerospace and defense platform driving innovation across defense and commercial markets. Headquartered in McLean, VA, with operations in the U.S., Canada, and Denmark, AIRO combines a global reach with deep technical expertise. Through a vertically integrated model, AIRO delivers mission-critical solutions centered on its drone platforms, leveraging advanced avionics, integrated training capabilities, and embedded autonomy across systems.

Forward looking statements

The statements contained in this press release that are not historical facts are forward-looking statements. You can identify forward-looking statements because they contain words such as “believes,” “expects,” “may,” “will,” “should,” “seeks,” “intends,” “plans,” “estimates,” or “anticipates,” or similar expressions which concern our strategy, plans, projections or intentions. These forward-looking statements may be included throughout this press release and include, but are not limited to, statements relating to development, production, and anticipated performance of the Zentra Suite; the development and scaling of AIRO’s production capacity; AIRO’s strategy to grow its global defense platform; anticipated product performance and capabilities; the demand for, market acceptance of and opportunity of AIRO’s products and services; AIRO’s ability to execute its strategic initiatives across U.S., NATO, and allied markets; and other statements that are not historical fact. By their nature, forward-looking statements are not statements of historical fact or guarantees of future performance and are subject to risks, uncertainties, assumptions or changes in circumstances that are difficult to predict or quantify, including those described in the section titled “Risk Factors” in AIRO’s most recent Quarterly Report on Form 10-Q, filed with the Securities and Exchange Commission (“SEC”), as well as other filings AIRO may make with the SEC in the future. Forward-looking statements represent AIRO’s management’s beliefs and assumptions only as of the date such statements are made. AIRO undertakes no obligation to update any forward-looking statements made in this press release to reflect events or circumstances after the date of this press release or to reflect new information or the occurrence of unanticipated events, except as required by law.
